## **ONLY THE STRONG SURVIVE**

You're about to come face to face against Red Falcon, the cruelest life-form in the galaxy. He's recently established a foothold in the Amazon basin from which he will try to conquer the world.

Needless to say, it's gonna be tough. But you have no choice—either be a hero, or life as we know it will cease to exist, and the vile Red Falcon will rule forever.

## **YOUR MISSION**

You must battle past hordes of alien soldiers equipped with awesome extra-terrestrial firepower, relying mainly on your guerilla warfare instincts to survive.

Destroy sensors at the end of Red Falcon's defense zones, until you reach the final and most deadly zone, where you'll either save the world or perish.

Along the way, collect special weapons by blasting flying capsules and pillbox sensors which will release Falcon Symbols. Capture these symbols and receive power-ups, such as Spread Guns, Lasers, Force Fields, and Rapid Fire.

Contra can be played by either 1 or 2 players.

## **STATUS AND SCORING**

Scores are displayed at the top of the screen along with number of lives remaining and your current weapon.

In the Commodore version, you begin the mission with 3 lives. In the IBM version, the number of lives you begin with depends on the difficulty level. (level one: 2 lives, level two: 4 lives, level three: 6 lives).

For every defense zone you overcome, you receive an extra life. On both the Commodore & IBM versions, you will lose a life if you fail to successfully negotiate tunnel zones before the timer runs out.

## **HINTS**

- Keep your eyes peeled for extra firepower.
- Remember that blasting certain enemies in the tunnels will yield special weapons.
- Shoot everything in sight.
