HINTS ON GAME PLAY

There are 7 gates and at the end of each gate is an evil demon. Once this evil demon is killed, a key will fall out of the sky. This key opens the next gate. At the 7th and final gate you must do battle with the Devil in hand-to-hand combat. If you win, the beautiful **Princess** is saved.

When the **Knight** is hit on his suit of armor, he loses his suit of armor. The 2nd hit kills the **Knight**. You control the **Knight** with a 4-way control pad; to climb ladders, run forward or backwards, and to duck down to avoid the evil demons. The **A** and **B** buttons on the control pad are used to **A)** jump and **B)** throw weapons. If you push **A** then **B** immediately afterwards, the **Knight** will throw the weapon while jumping. If you use the control pad in the down position with the **B** button, the **Knight** will duck down and throw weapons.

HINTS ON GAME PLAY

Throughout each scene there are Jars which hide 5 different weapons — Javelins, torches, swords, axes, and crosses. When the game begins, the **Knight** is armed with a javelin.

Javelins —when thrown, they continue off the end of the screen.

Torches —when thrown, they form an arc and continue burning. When they hit the ground, if there are two fires burning you cannot throw another torch until one burns out.

Sword —same as javelin but with more speed.

Axe —they also form an arc when thrown.

Cross —when thrown they fly straight and stop the enemies' attack.

HINTS ON GAME PLAY

Our beautiful **Princess** is kidnapped. Her lover, the **Knight** in his shining armor, is armed with five different weapons. The **Knight** must pass through seven gates, each guarded by an evil demon. As the **Knight** destroys the evil enemy demons, a key appears from the sky. This key opens the next gate.

At the 7th and final gate, your skill enables the **Knight** to engage in hand-to-hand combat with the Devil. Defeat the Devil and the beautiful **Princess** is rescued.

Each time the **Knight** is hit with enemy firepower, he loses his suit of armor. The 2nd straight hit kills the **Knight**. Throughout every scene there are jars which hide the 5 different weapons for the **Knight**.
