ALL REMAINING ABLE-BODIED
MEN WERE SET TO WORK
MINING THE PLANET'S
VALUABLE ORE...

THE ELDERS PLOTTED
TO OVERTHROW THE
OPPRESSORS.

WHILE THE TYRANTS RULED
FROM THEIR STRONGHOLD
DEEP INSIDE THE
VOLCANO.

THEY HID NEWBORN MALE CHILDREN
AND REARED THEM IN SECRET CAMPS,
TEACHING THEM ANCIENT BATTLE
ARTS.

AS THE YOUNG WARRIORS
GREW...
ONE STOOD OUT AS A CHAMPION...
HIS NAME... TAL!

TAL! YOU HAVE BEEN CHOSEN AS THE ONE WHO WILL SAVE OUR RACE.

RAD WARRIOR

THE ELDERS SHOWED TAL AN ANCIENT BLUEPRINT.

THIS SACRED SCROLL TELLS OF THE MAGIC OF THE ARMOUR.

1. RECHARGE CELL
2. IMPLISSION MINE.
3. GRAVITY DISPLACERS.

4. PARTICLE NEGATOR.
5. PULSER BEAM.
6. ANTI-RAD SUIT.

YOU, TAL, MUST BRAVE THE HORRORS OF THE EVIL FOREST, FIND THE SACRED ARMOUR AND USE IT TO DESTROY THE POWER CENTRE OF THE TYRANTS. YOU ARE OUR ONLY HOPE!

OBJECTIVE

Your objective, as Tal, is to brave the maze of the evil forest, find the anti-radiation suit, and make your way into the stronghold of the alien oppressors. In the stronghold you must enter the generator room where you'll destroy the aliens' power source.

Throughout your journey you will have to contend with many deadly creatures and objects including mutated wildlife, acid rain, and enemy patrol drones. You must either avoid or destroy the obstacles in your path by jumping over or throwing rocks at them.

Once you've found and energized the suit, you must find all its attachments in order to survive. The closer you get to the aliens' power center, the higher the level of radiation becomes and the deadlier your foes become.

Tal's Journey

See the Map (page 10) to get an idea of the location of the suit of armor and all the

necessary attachments. Without the suit of armor, rocks and agility are your only defense.

Your first goal is to find the suit of armor and put it on to energize it. Once the suit is energized, the control panel at the bottom of the screen will be activated. From that you can tell the armor's energy level, Tal's stamina (at zero he falls to the ground in exhaustion), and the score. You also can see the attachments you have picked up, the radiation level, and messages.

Your second goal should be to find the anti-gravity boots and bring them back to the suit. With the suit and boots, you will be able to fly. (Watch your energy level and be sure to pick up any energy packets you see on your journey.)

Other Attachments you should pick up include: The Laser (L), Transporter (T), Implosion Mines (M), and Shields (S).

ENEMIES

On your journey, beware of the following things:

- **Patrol Leader Drones:** The toughest of four types of drones, hard to destroy and the biggest energy drain.
- **Patrol A and B Drones:** Easier to destroy and less of an energy drain.
- **Indestructible Search and Destroy Drones:** Indestructible drones that drop bombs...but you can destroy the bombs.
- **Alarm Droids:** Calls other droids to you, destroy it fast or move to another screen quickly.
- **Mutant Flies, Jugoids, and Subtains:** All destroyed fairly easily with rocks or laser blasts.
- **Acid Rain:** It's lethal and indestructible.
- **Sloths:** Clinging to foliage, they're lethal and indestructible.
- **Indestructible Collaborator Gunners:** Shoot fire plasma bolts.
- **Flame Dragons:** Found above the city in the volcanic areas, spitting out gaseous flames. They drain your energy fast.
- **Hydraulic Spikes:** In the volcanic area, they're energy draining and unstoppable.

If you can make it past all the hazards and destroy the aliens' power center, your people will be freed and the human race will be saved. If you fail, your people are DOOMED to a life of enslavement and misery.
