Wacky Sports Challenge™

Meet the Athletes

Before the games kick off, let's take a look at the MC and the different athletes, and the reasons why the athletes are competing.

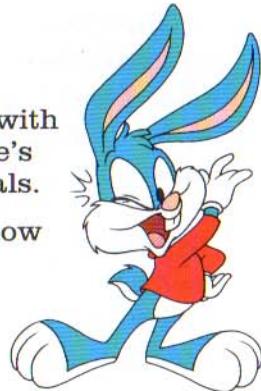

Hamton, the Master of Ceremonies

Sweet, loyal and ever-worried, he's usually pre-occupied with food, books, food, neatness and food. (Not necessarily in that order.) Hamton lives with the constant fear that he may have to make a decision on his own.

Buster Bunny

A lively and popular bunny with a positive outlook on life. He's the leader of his bunch of pals.

"I'm taking to the field to show everyone that I'm the best sportsman at Acme Looniversity."

Babs Bunny

A free-spirited tomboy whose ambition is to become an actress.

"You bet it is! And I'm going to use my prize money to build 'The Babs Bunny Hall' for my performances!"

Plucky Duck

An emotional and short-tempered type. He's a dreamer who tends to overestimate his own abilities.

"I'm going to put my prize money towards my Presidential campaign fund."

Dizzy Devil

A muscle man who loves partying and gobbling down food.

"When Dizzy win, Dizzy have big party!"

Game Courses

The game starts from the Easy course. Clear all of the events, and if you have proven yourself to be a top-class athlete you'll be able to move on to the next course.

Easy course

Six events

Normal course

Eight events

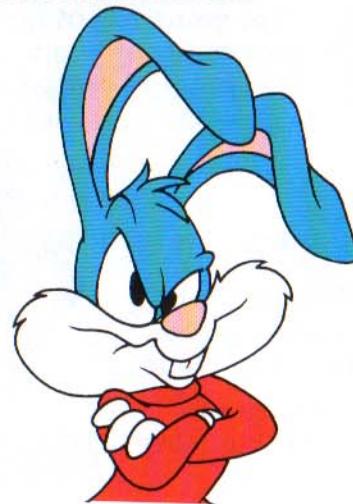

Hard course

Ten events

Super course

Twelve events

Do your best to win in all the twelve different events over the four courses!

Moving on to the next event

To move on to the next event, the player (or one of the players if there is more than one person playing) must qualify.

The Qualifying score for each event is displayed on the Event Rules screen.

The score for an event is displayed when the event finishes. If you scored any bonuses during the event they will also be added to your score.

Game Over and Continue

If you failed to qualify for an event the game will end. To continue playing from the start of the event you were just playing, select Continue by moving the Control pad up/down, and then press the A button or the Start button. You can Continue three times.

Connecting the Controllers

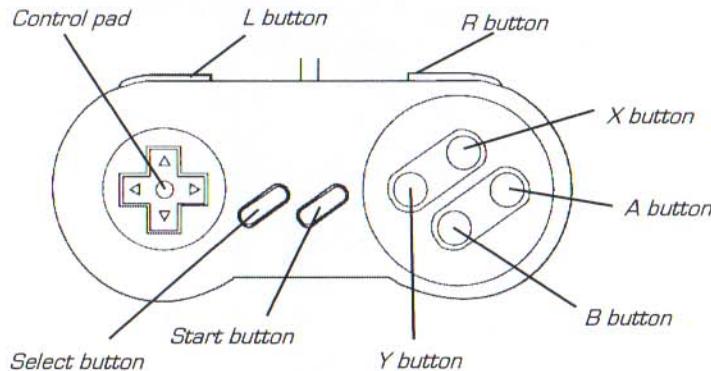

When one or two people are playing:

Connect the 1P controller to Port #1 of your Super NES system, and the 2P controller to Port #2.

When three or more people are playing:

Connect the SNES Multi-player adapter into Port #2 of your Super NES system. Then connect the 2P, 3P, and 4P controllers into Ports #2, #3, and #4 respectively of the SNES Multi-player adapter.

Parts of the Controller

Refer to "The Events" section beginning on page 15 for details on controller operations for each event. You can change the button configuration in Option mode. You can press the A button repeatedly or rapidly alternate between the A and B buttons.

The Power Gauge is used in events that require strength. The gauge is displayed at the top of the screen during each event.

Repeatedly press the A (B) button to rotate the Power pointer and build up your power. When you reach the desired power level, press the Control pad (in any direction) to set it. The faster you press the A (B) button, the faster the power level will increase. The color of the gauge changes as the power builds up:

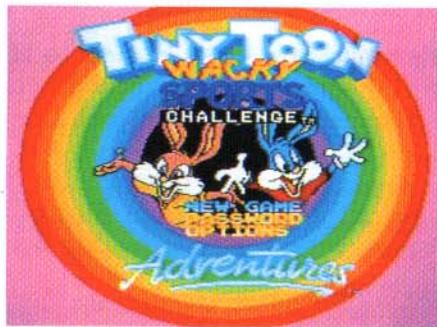

- Pale blue (Weak)
- Green
- Yellow
- Red (Strong)

Some gauges have a "Perfect" Point. The closer you stop the Power pointer gets to the "Perfect" Point, the more power you will get.

Starting the Game

Insert the Game Pak into your Super Nintendo Entertainment System, and turn the power ON. The Konami logo screen and the Title screen will then come up.

Each time you successfully complete a course, a password will appear on screen. Use this password the next time you play and you'll be able to start playing from the first event of the next course.
