~~GAME BOY~~

▲ Joanna Dark's back in the thick of the action in a bid to stop the sinister dataDyne Corporation.  
▶ There are buckets of blood and gore galore in Perfect Dark. Go on, blast those goons!

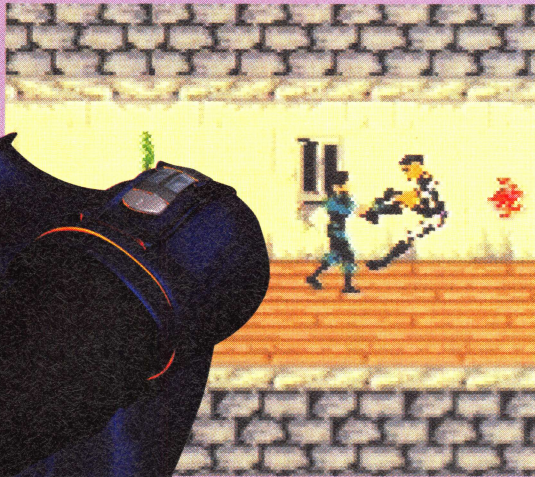

## Who dares wins

If you've played the N64 classic you'll know all about dataDyne. And the bad news is that it's back in business!

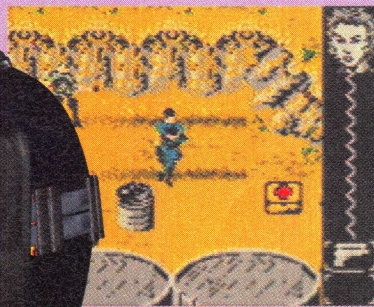

Hidden deep in the heart of the South American jungle is an illegal cyborg making factory. It's your job to destroy the plant. You'll be dropped behind enemy lines by hovertship and it's up to you to sneak through the jungle.

This is Joanna's toughest assignment yet. Keep your weapons locked and loaded at all times. dataDyne goons are everywhere and they won't stop to ask questions if they spot you.

▲ The game takes you to the South American forest. Blast 'em all!

▶ You'll need to be quick on the trigger if you want to stay alive in PD.

▲ Keep an eye on your health. Grab that first aid box to keep the beautiful Joanna Dark in tip top condition.

## Watch your step

You'll need stealth rather than force if you want to win in Perfect Dark.

Use your secret agent skills to snoop around and complete the seven missions. Running will only alert baddies, so sneak up behind 'em before they turn and fire.

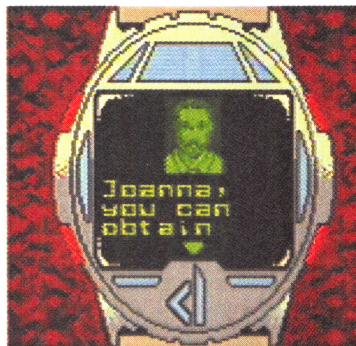

▲ Pump your foes with ammo and they'll hit the ground in no time. Creep up on them from behind.

▲ Press **SELECT** to bend down and grab the goodies from the dead soldier.  
▶ Now you are a lean, mean fighting machine. Better start running, dataDyne!

**LOOKS** Perfect Dark has some of the best GB graphics we've ever seen.

▲ Use Joanna's watch to stay in touch with your friends back at the base. You'll need their hints and tips.

## Be the best

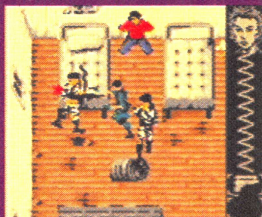

Before starting, you must train hard to prove you can survive.

By entering the Carrington Institute's training area, you'll have the chance to blast baddies and learn some ace tactics.

### Target practice

Wait for targets to pop out and pump them with lead. Don't hit the children or you'll have to start again.

### Search and rescue

In Training mode, you'll learn how to rescue prisoners. Take out the guards or they'll kill the innocent hostages.

### Stealth training

Run and you'll be spotted, so creep up behind and take 'em down. Stick close to the walls and they won't see you.

### Final test

Now it's time for the ultimate agent challenge. Use all the skills you've picked up along the way to finish training.

**SOUNDS** The sound's okay, but you won't notice. You'll be too busy blasting!

## The biggest blasters

You'll need some smart weaponry in the heat of battle, and Perfect Dark is jam packed with awesome shooters.

You'll begin the game with a Falcon 2, a basic shooter that can only fire one bullet at a time.

But keep an eye out for some amazing pieces of kit, including sub machine guns, that dead enemies leave behind.

▲ Deeper in the forest, you can pick up a super sub machine gun.

▲ At the start of the adventure, you can only use a Falcon 2 which fires just one bullet at a time. Find something else.  
▶ Rake the enemy scum with bullets and they'll be goners in seconds. Always remember to search their bodies for stuff.

## Awesome extras

Perfect Dark pushes your GB Color to the max with a load of hidden extras.

Details are sketchy at the moment, but we've heard that you can transfer data between your N64 game and your mini machine.

The game's also Rumble Pak compatible, and you'll be able to link up with a mate for some ace deathmatch action.

If you have a GB Printer you can even print out ace photos to become the ultimate spy.

▲ Use your Transfer Pak for secrets.

▲ You'll get cheats...  
▼ ... and extra options.

**ONE PLAYER** You won't want to put this baby down 'til dataDyne's crushed!

# International Superstar Soccer 2000

By Konami Price **£24.99** Game Link ✓  
 Infra Red X Game Boy X Game Boy Color ✓

**What it's about** The ISS footy series returns for another annual run out. Cup, League and Tournament modes are all here for you to enjoy, and you can play your mate off the park with the exciting two player link up option.

If you want footy action on the go, this is a great choice.

**We think** The main problem with ISS is that scoring goals is difficult when you first try the game. But stick with it and practice and you'll soon be knocking them into the back of the net. International Superstar Soccer 2000 is well worth checking out if you're mad about football.

## GAME SCORE

**86%**

▲ There's a massive scramble in the goal mouth. Quickly bury the ball before the goalkeeper can get back on his feet. That'll teach 'im!

▲ He's beaten the last man. Line up a shot and belt it over the line. As you can see, ISS 2000 is one of the GB Color's best looking footy sims.

▲ Use your silky skills to get round the goalie and plant the ball in the gaping net. A good burst of speed should see the ball hit home.

▲ The Italians have got this game by the scruff of the neck. Just look at that sizzling shot.

◀ If you're looking for footy thrills this summer, get ISS 2000.

▲ England are under pressure from the Scots. That's heading straight for goal, but hopefully Seaman will save the day once again.

▲ Pick that one out! That excellent shot's straight out of the top drawer. It's a definite contender for goal of the season.

▲ Owen's taking the defence to the cleaners. That effort's going to put England 2-0 up. Poor old Scotland might lose the match!

▶ The pressure is intense during the penalty shoot out. Which way is he going to place the ball...?

▲ You'll be on the edge of your seat as you play your way to glory in ISS 2000. Check out that fingertip save... it's an absolute corker!

▲ A superb save by the quick thinking goalie.

## Croc

By THQ Price **£24.99** Game Link **X**  
 Infra Red **X** Game Boy **X** Game Boy Color **✓**

**What it's about** Croc's friends have all been kidnapped by Baron Dante. Tail whip and swim across 30 stages to save your pals. Ride a magic carpet and a cable car, too.

**We think** As platformers go, Croc's good. The graphics look cool and unlocking all the secrets is a real challenge. Not the best around, but ideal for your baby sister.

**GAME SCORE**

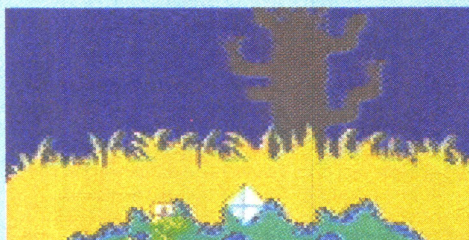

**83%**

▲ Grab hold of the pink balloons to take Croc to hidden levels.

▲ Collect letters to spell 'BONUS' and you'll activate ace mini games.

▶ Jump on the pink platforms and Croc will bounce up to grab higher prizes. You'll need to do lots of jumping to solve every puzzle.

◀ As you travel through the wacky worlds, make sure you pick up crystals.

▲ Croc must negotiate the perils of the desert to save his friends.  
 ◀ He may be a Mario rip off, but Croc's still a cool Game Boy hero.

▲ Don't forget your trunks! Croc's adventure will see him diving under the waves for a bit of underwater exploration. Don't miss anything.

▲ The boiling hot rivers spit out fireballs as you try to cross, so stand back and jump when it's clear. Time it wrong and it's lights out for Croc.

## All Star Tennis 2000

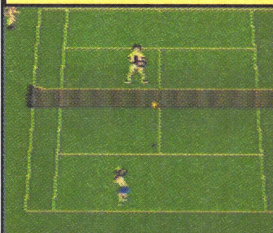

By Ubi Soft Price **£24.99** Game Link **✓**  
 Infra Red **X** Game Boy **✓** Game Boy Color **✓**

**What it's about** With Wimbledon over for another year, you can enjoy more cracking court action with the cream of the tennis circuit. Serve, volley, and smash your way to becoming the world's number one player.

**We think** A first class sim and a real treat for fans of the sport. Definitely the best tennis title the Game Boy has to offer. With loads of top players and fast paced action, All Star Tennis 2000 is certainly worth a look.

**GAME SCORE**

**85%**

▲ The man at the net has no chance as that backhand screams past.

▲ If you want some lightning quick rallies, check out the doubles option.

▲ In Bomb Tennis, a bomb appears where the ball lands. Steer clear!

▲ On the hard Australian courts, serve and volley to thrash your foe.

## Pro Pool

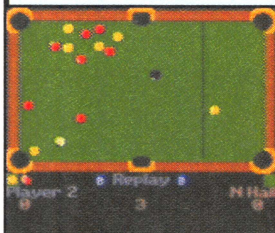

By Codemasters Price **£24.99** Game Link **X** Infra Red **X**  
 Game Boy **X** Game Boy Color **✓**

**What it's about** Chalk your cue and start to hustle with the pool pros to fill your pockets with wads of cash. Slam down \$100 and finish off the expert computer opponents for money in the ace Hustle mode.

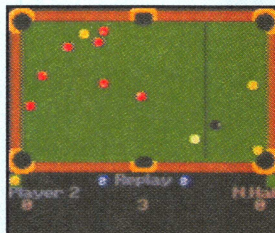

**We think** The range of US and UK pool is good and the realistic ball movement works well. Beating the best is hard going, but if you want a serious game of pool on your portable pal, you won't go far wrong with this.

**GAME SCORE**

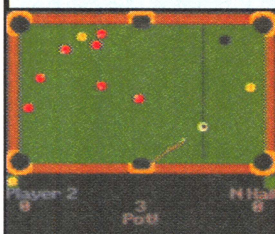

**86%**

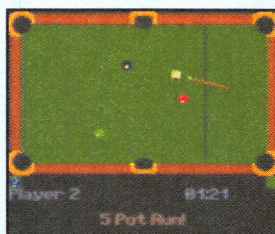

▲ Become king of the cue and perform some wicked trick shots.

▲ Put your money where your mouth is and defeat rivals for cash.

▲ Spin, swerve and stun the ball into the pocket to win each frame.

▲ In Speed Pool, it's a race against time to pot all the balls.

# Wacky Races

By Infogrames Price **£24.99** Game Link **X**  
Infra Red **X** Game Boy **X** Game Boy Color **✓**

**What it's about** Go head to head against all your faves from the crazy cartoon series. Hammer Dastardly and Muttley, Penelope Pitstop and the Ant Hill Mob with a range of wacky weapons.

**We think** Wacky Races is as close as you'll get to a Mario Kart style racer on the GB Color. It looks brill and belts along at a blinding pace. Unlocking all your favourite characters will take ages.

**GAME SCORE**

**92%**

▲ Wacky Races is full of all your racing favourites, including the crazy Ant Hill Mob. They're only tiny, but they'll put up a major challenge.

▲ Your rivals love to dump oil slicks as they roar round. Steer to avoid them or you'll skid.

▲ The Slag Brothers are in hot pursuit. Put your foot down and pull past them in their slipstream.

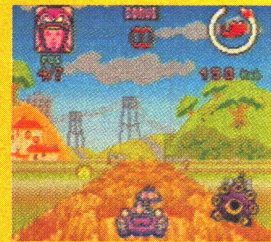

▲ On some circuits there are ramps you'll need to hit at speed in order to jump over the water.

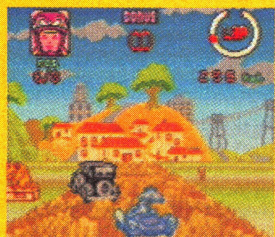

▲ Let rip with the cool weapons and your opponents will blow up. Nice work, guys! Keep it up...

▶ She might be a little lady, but Penelope Pitstop is one tough driver. See you later, Dick Dastardly!

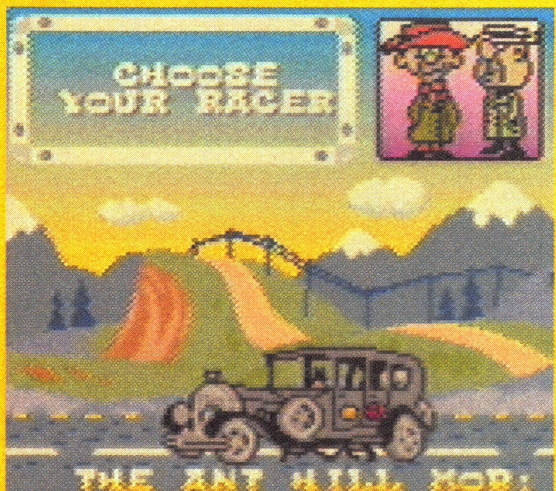

◀ Watch out for that fizzing bomb! You'll be blown sky high on impact, so turn quickly.

▲ Grab the speed item and you'll tear up the track. Get out of the way, though, 'cos the lovely Penelope's coming through.

▲ In Endurance mode, one racer is eliminated after every lap. Go on! Put your foot down, girl, or you'll retire before the chequered flag.

▲ Before stepping out in your mean machine you must select your team. Hmm, the Ant Hill Mob's motor looks well nippy...

◀ They may be goofy villains, but Dastardly and Muttley are two of Wacky Races' best drivers. Choose them and victory will be yours!

## Le Mans 24 Hours

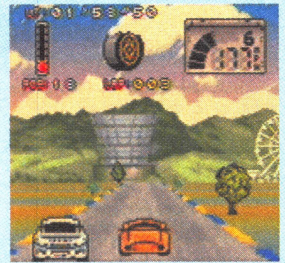

By **Infogrames** Price **£24.99** Game Link **X**  
 Infra Red **X** Game Boy **X** Game Boy Color **✓**

**What it's about** The world's toughest endurance race heads to the Game Boy Color in this slick driving title. Grab the bonuses in Arcade or hit full throttle across Le Mans and Championship mode. Without a doubt, this is one of the best driving games available for Nintendo's portable pal.

**We think** With its awesome blend of arcade racing and serious driving, Le Mans 24 Hours is a high speed dream with something to offer every driving nut. Wicked cars and decent circuits make this a winner every time, so make sure this little beauty is on your GB wish list this summer.

**GAME SCORE**

**88%**

▲ You can drive some ace cars in Le Mans 24 Hours. The graphics are ace!

▲ Keep an eye on your fuel gauge and spin into the pits to fill up.

▲ The heat is on as the mean machines roar round the circuit. Speed up and rip past him on the inside for a certain victory.

▲ You'll have the chance to race through day and night to take the chequered flag. The night racing levels look super cool.

## Konami GB Collection Volume 4

By **Konami** Price **£24.99** Game Link **X** Infra Red **X**  
 Game Boy **X** Game Boy Color **✓**

**What it's about** Four titles, including shoot 'em up Gradius 2 and karate sim, Yie Ar Kung Fu. Join Belmont on a battle against evil in Castlevania, or play a penguin in Antarctic Adventure.

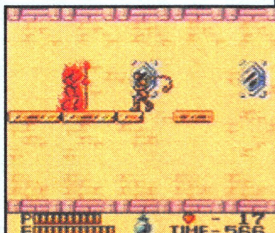

**We think** This fourth compilation in the series is a cart of two halves. Gradius 2 and Castlevania are decent games, but the others are awful. Check out Volume 3 instead if you want a value cart.

**GAME SCORE**

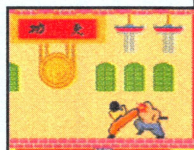

**74%**

▲ In Gradius 2, destroy the enemy robots before they get a lock on your ship and take you down.

▲ Use Schneider Belmont's trusty whip in Castlevania to find the goodies and defeat the bad guys.

▲ Take that, big guy! Yie Ar Kung Fu is packed with high kickin' action.  
 ◀ In Antarctic Adventure, guide the penguin to the finish.

## WCW Mayhem

By **Electronic Arts** Price **£24.99** Game Link **✓** Infra Red **X**  
 Game Boy **X** Game Boy Color **✓**

**What it's about** WCW fight nights return to the small screen as the canvas kings, from Goldberg to Sting, battle it out for supremacy. Take the vicious battle from the ring to backstage, too.

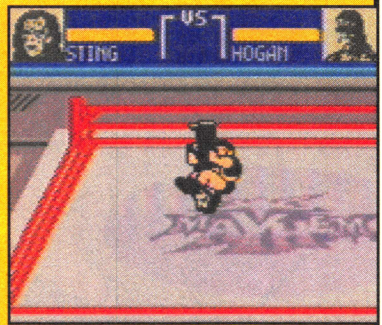

**We think** WCW Mayhem looks better than the wrestling titles already available and the moves are impressive. But performing attacks is tricky and you'll spend half the time stuck in a grapple.

**GAME SCORE**

**77%**

▲ Hollywood Hogan clobbers Sting with a right hander. That hook's going to hurt.  
 ▶ That's a nasty body slam! He's going to need some bandages after that move.

▲ Sting fights back with a throw.

▲ You can take the fight backstage.

## Spirou Robot Invasion

By Ubi Soft Price £24.99 Game Link X Infra Red ✓  
Game Boy X Game Boy Color ✓

**What it's about** Spirou and Fantasio have mistakenly freed the evil Cyanida. Now she's taken control of the mean machines inside the robot factory and you must stop her metal army before it's too late.

**We think** This odd platformer looks great and the bosses are impressive... but that's where the fun stops. Spirou is very unforgiving and you'll be back at the start if you slip up.

**GAME SCORE** 82%

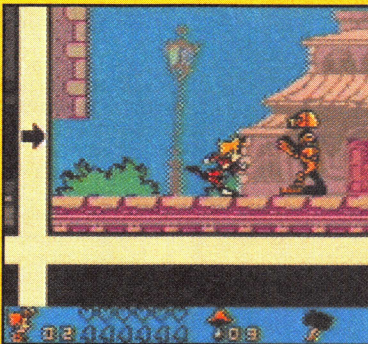

▲ Spirou can pick up some cool weapons including a giant axe. Now you can slice baddies in half.

▲ The robots are programmed to be rock hard. Take them out before they attack.

▲ Swing across the ceiling to reach the hidden goodies on the other side.

▲ Spirou's on his last legs, so leap over the robot or it's back to the start of the level.

## Puchi Carat

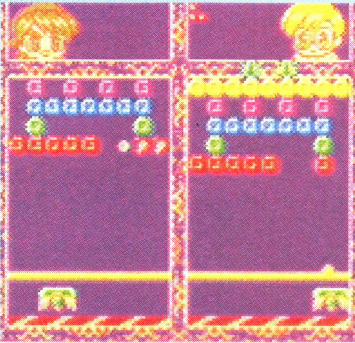

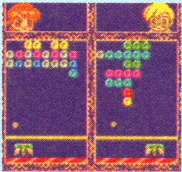

By Eon Digital Entertainment Price £19.99 Game Link X Infra Red ✓  
Game Boy ✓ Game Boy Color ✓

**What it's about** Thieves have stolen 12 precious gems. Use your bat 'n' ball skills to clear the grids in this great mix of Super Breakout and Bust A Move.

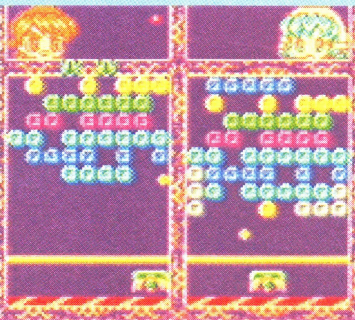

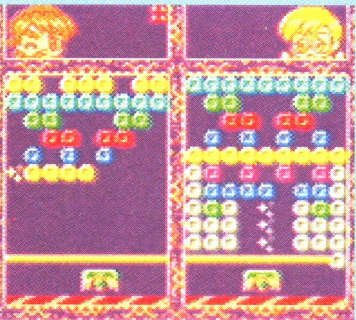

**We think** The storyline to Puchi Carat is dead weird to say the least, but don't let that put you off. Puchi Carat is a fun little puzzler that will hold your interest for a while before Pokémon Puzzle League arrives.

**GAME SCORE** 81%

► Watch the ball at all times to create a chain reaction and defeat your sorry opponents.  
▼ When their stones drop over the line at the bottom it's Game Over. Start again...

▲ You'll have to go head to head against many tough competitors to win all 12 gems.  
▼ Knock out a large pack of stones to dump them on your rival's screen. Keep doing this and you'll win the game with ease.

## Qix Adventure

**What it's about** Speedy must collect gems. Help him nab treasure chests and capture three quarters of each grid while avoiding evil Sparx and Qix.

▲ This is a weird game, but it's quite rewarding.

**We think** It doesn't look the most exciting game ever seen on your portable pal, but slam it in and you'll be pleasantly surprised by how addictive Qix Adventure is.

**GAME SCORE** 80%

## Pong

**What it's about**

Relive the classic bat 'n' ball game, plus four updates including Jungle and Arctic Pong. Make your goalie bury the ball straight from kick off in Soccer.

▲ It used to be a classic, but Pong stinks in 2000!

**We think** Only buy Pong if you're craving for nostalgia. The paddles move too slow when the ball gets fast, making it impossible to stop a goal. Pong's a stinker, so give it a wide berth.

**GAME SCORE** 52%

## Ultimate Paintball

**What it's about**

Load up your paintballs and sneak through the forest to capture the flag. Plan your tactics and let rip with grenades for max damage.

▲ Who'd have thought it? Paintball on your GB!

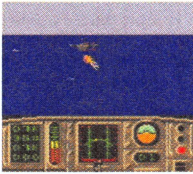

**We think** Paintball is a great laugh, but this Game Boy version is a disappointment. The arenas look awful and splatting the enemy is only fun for about five minutes.

**GAME SCORE** 48%

## F18 Thunder Strike

**What it's about**

Take to the air and blast enemy planes out of the sky to become the United States Air Force Top Gun. Dogfight above the clouds.

▲ Flight sims are never good on the Game Boy.

**We think** Creating the speed and looks of a flight sim on the Game Boy is always going to be tough, and this game fails miserably. Terrible graphics and dire speed make this title crash and burn. Boo!

**GAME SCORE** 42%

## We think...

**We love Spiderman, so we can't wait for this game. The fight action is brill and, with loads of famous Spidey villains, this is definitely going to be one to watch.**

▶ As the ball flies around it can slip down the sides, but Pikachu'll bounce it back.

▶ Hit the ball into the hole at the top of the screen to take part in Mewtwo's awesome hidden game.

▶ After you blast the ball into play, you'll increase your score instantly as it bounces around the Voltorb bumpers.

## We think...

**Poké Pinball's incredible. Catching every monster will keep you playing for weeks and, with loads of secrets to unlock, this is going to be huge.**

Roll up, roll up for another Blag Fest give away. Take a look at the brill prizes we've got this month.
