A black and white comic book illustration showing Snake and a rebel on a ship's deck. Snake is on the left, wearing his signature gear and holding a handgun. The rebel is on the right, also holding a handgun. They are positioned around a large, dark, cylindrical object, possibly a piece of equipment or a container, which is secured with ropes and cables. The background shows the ship's rigging and a bright sky.

Revolver Ocelot

Sex: **Male**
Status: **Single**
Age: **Fifties**
Nationality: **Russian**
Height: **182 cm.**

Additional skills:
Marksman with exceptional skills. Accomplished sharpshooter who prefers using vintage American revolvers. Expertise in torture and information extraction.

Although inspired by the lore and legend of the American Old West, Revolver Ocelot is a product of the former Soviet Union. With the fall of the Russian empire, Revolver Ocelot left his police unit to join the KGB's special forces. This proved to be an uneasy fit, as Ocelot's independence and unique style of combat put him at odds with his superiors. Knowing he needed a change, Ocelot jumped at the chance to join Foxhound when it was offered to him.

The origin of Revolver Ocelot's obsession with the American West is unknown, but manifests itself in both his appearance and fighting style. He prefers the long duster and antique suit of this bygone era, and his favorite weapon is the Colt Single Action Army Revolver, a gun produced in the 1860s. He enjoys the challenge of having to reload during battle... an opportunity afforded him by his amazing accuracy with the firearm.

Roy Campbell

R o y C a m p b e l l

Real Name: **Roy Campbell**

Sex: **Male**

Status: **Married**

Age: **Sixties**

Nationality: **American**

Height: **170 cm.**

Additional skills:

Ex-Green Beret and Delta Force, Exceptional tactical and leadership skills.

The original commander of Foxhound, Colonel Roy Campbell was called out of retirement by the United States government to spearhead a covert surgical strike into the heart of Shadow Moses Island, the headquarters of renegade former Foxhound operatives and mercenaries who have threatened a nuclear strike unless their demands are met. A close association and long history with Solid Snake, the one operative capable of successfully infiltrating Shadow Moses, made Campbell the top choice to find and lure him into reinstatement for one final mission.

Upon tracking Snake down, the Colonel set up Operations Command on an Ohio Class submarine off the coast of the Fox Archipelago. Unlike previous missions, this one has personal ramifications, as his niece, Meryl Silverburgh, is being held captive on Shadow Moses Island.
