EDITORIAL

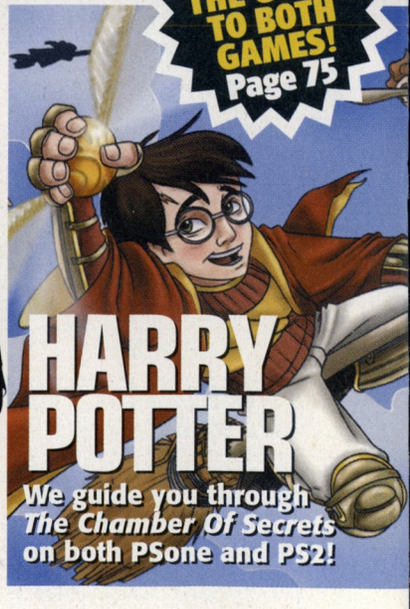

WELCOME! After a hectic Christmas and New Year, the PS2 games market has calmed down a little now, with January proving pretty quiet in terms of new releases. However, that's all about to change as Lara Croft limbers up to make her debut on Sony's next-gen console next month. For the time being though, we've got plenty to keep you occupied. If you got a PlayStation or PlayStation2 game for Christmas, then the odds are we've got a cheat or hint for it somewhere in this issue. We've got part one of our stunning *Sly Raccoon* guide, as well as the concluding chapter of our *Harry Potter* solutions for the PSone and PS2 versions of the game. What's more, we also give you the right club names for *Pro Evolution Soccer 2*, as well as bringing you all those *GTA Vice City* secrets! Enjoy the issue!

PowerStation Q&A

▸▸WITH YOUR HOST, DR TIPPET

Got a problem on a PlayStation or PS2 game? Well, our resident professor of gamesology, Dr Tippett, is here to help. Send your gaming questions to: Q&A, PowerStation, Paragon House, St Peter's Road, Bournemouth BH1 2JS. Alternatively, visit the forum at www.totalgames.net and ask your questions, or email powerstn@paragon.co.uk

Web-slinging Woes PS2

How do I defeat the Green Goblin at the end of *Spider-Man: The Movie*? It's driving me mad! I gave up on it originally, but I've come back to it recently and I desperately want to finish it – it's become a personal duel, me against my PS2. Please can you help?

Simon Quinn, Sunderland

■ *Start by swinging straight in front and pick up Mary Jane from the platform, using the punch button. Turn around and jump off the bridge now, heading towards the target near the police barricade. Drop her off by pressing punch again, then get ready to fight. Swing-kick the Green Goblin and dive at him by jumping nearby, then pressing either punch or kick. His blue power bar will deplete rapidly this time around and he'll be forced to land. When he does, avoid being dragged into hand-to-hand combat, as this is where he's strongest. Be sure to watch out for his glider as well – it will ram and shoot you of its own accord. Once the Goblin's grounded, attack from a distance, either by throwing cars or firing impact webbing. This shouldn't be too hard, as his grenades are fairly easy to avoid from this far away. Alternatively, you could stay in the air and launch kicks at him as you swing by. The boss will jump back onto his glider every so often and you'll have to knock him to the ground again. If you get low on health, there are several red spiders dotted around the bridge, including one near where you rescued Mary Jane and another on a similar platform, on the other side of the level. Just keep plugging away and you should be able to defeat the Green Goblin – you've fought him often enough before, after all. Now that you've finished the game, do as Spidey says – go outside and play!*

Sunday Driver PS2

I've got *F1 2002*, but I'm struggling with the basic Minardi challenge. I really want to get all the cards, so can you help me at all?

Alan Bushell, Redditch

■ *A little bit of a tip here – you can cut a big chunk off the first corner. Go too far and you will be disqualified so you will have to experiment a little to get to grips with just how far you can get off the track, but by using that short cut, you should be up to second or third going onto the next turn, the right-hander. Get inside the lead car(s) on the corner to take the lead. You'll need to take a hairpin left, braking into it and then accelerating away, and the remaining corners are gentle right-handers that shouldn't be causing you any problems.*

QUICK TIP! USE A STAMINA POTION TO MAKE DEFEATING THE ICE QUEEN AS EASY AS PIE!

Dark Cloud On The Horizon PS2

How on earth am I supposed to defeat the Ice Queen on *Dark Cloud*? Do you have any helpful hints for me, or am I destined to be stuck on this game forever?

Jason Coates, Durham

■ *The Ice Queen is a really tough boss as she is shielded and fires freeze rays, which stop your characters dead in their tracks. Having strong fire-based weapons will aid you in this fight, but it still won't be an easy task. Start with Xiao and use a Stamina Potion to help power-up her attacks, then fire two blasts of her best weapon to damage La Saia's shield. As soon as the shield is down, switch characters to Ruby and hit the Ice Queen with the fire magic from her Gold Ring. After just one blast, La Saia will activate her shield again and you'll need to hit her with a normal-based attack again to lower the power. You'll need plenty of Stamina Drinks, Mighty Healing and, of course, Revival Powder to ensure that you can always revive Ruby to strike at the Ice Queen. This battle will take quite some time and use an awful lot of items. After it, Rondo will appear and tell the Queen that he is still in love with her and the curse will be broken. He'll then hand over the Moon Orb and you can return to Queens.*

I Like To Ride My Bicycle

PS2

I'm on Level 8, the Airport Garage, on *Dave Mirra 2*, attempting the Pro challenges – but for the life of me I cannot do a 16 trick combo. How on earth do you do it – I don't seem to have the co-ordination required to pull it off!

Robert Jones, Ipswich

■ *The easiest way is to get onto the road that circles the garage and do a combo of nose wheelies and manuals. The are a few words of warning though; firstly, mind out for traffic. It's best to wait for the lull in the traffic and then go with the flow of it, not against. The other point is to watch out around corners: use the time you have whilst in the manual/wheelie to turn left or right.*

LA Confidential

PS1

I've got *Tony Hawk's 3* for the PSone, and I was wondering if you knew how to find the secret tape on Los Angeles (level 2)

Rebecca Kelly, Northwood

■ *Turn around at the start of the level and build up some speed using the ramp behind you. From here, travel up the wire slightly to your left and up onto the building in front of you. Go straight on up here and jump onto a metal rail protruding from the bridge. Grind this and jump straight again from the wooden ramp, onto another building. Now jump from this roof and land grinding on the edge of the next building, which is a pinkish colour. Carry on the grind around the corner and over the wire to find the tape.*

Floored By Flanders

PS1

I know it's an old game, but do you have any tips for *The Simpsons Wrestling* by any chance? I'm struggling – and how the hell do you beat Flanders?

James Castle, Liverpool

■ *There isn't really a great deal of help that I can give you for this game, but perhaps these nuggets of information will be of some assistance to you…*

Watch out for power-ups appearing in the centre and corners of the ring. Try to grab these as fast as possible in order to stop your opponent from powering up or healing himself.

When the letters TAUNT are fully lit up, press R1 to power up and become invincible for a short while. Use this time to damage your opponent as much as you possibly can.

Finally, watch your power bar above your life meter and use your special attacks whenever you are able. These will really hurt your opponent.

Some good news, though, is that once you've finally beaten Flanders you will unlock him and can play with him as your character. The bad news is that you need to pin him twice in order to win!

A World Of Pain

I'm stuck on Arenas Of Pain on tier 4 in *Quake III*. Is there any help you can give me before I finally go mad? I'm sure this version is harder than it is on my mate's PC!

Lee Gornall, Bournemouth

■ *This arena is split into three sections. In area one you face a duo of easy opponents in a very small cramped arena. Use the shotgun or plasma gun to destroy them quickly and prepare yourself for the next arena. The second arena is a little larger with a Mega Health hidden inside one of the corridors. Make sure you grab this handy power-up and then protect it from Patriot as he wanders around the level. The third section sees you facing the Vadrigar Arena Master for the first time. This opponent has a lot of health (250) and very good accuracy. To beat him you'll need to collect lots of health, ammo and armour before trying to engage him. Keep moving around the outer section of the arena and keep your distance from him at all times. Weapons like the chain gun and plasma gun work well against him if you have auto-aim turned on. Wait until you have maximum health and then charge the central platform to take this guy out. It is not easy, but keep on the move, using a jump and strafe and deliver the final blow. If you are lucky enough to collect the Quad Damage on the previous level, you can charge the central platform immediately to destroy this annoying beast.*

■ **A little help from Dr Tippett, and all your enemies will end up fragged to pieces!**

Let's Offroad!

PS2

How do I unlock the ravage 1000 ATV on *ATV Offroad*? I can't get it whatever I try!

Mike Burley

■ *One of my shortest answers of all time coming up. You need to complete the Pro career – simple as that!*

BMX Beauty

PS2

My mate says that on *Mat Hoffman Pro BMX 2*, there is a doom-like level at the end – I've completed the game but there's no such thing. Is he lying?

Ian Cranville, Dudley

■ *No, your friend is telling the truth. You obviously haven't completed the entire game, because once you have completed every challenge on every level, you will unlock a battle with Tiki.*

A Grandia Day Out

PS2

How on earth am I supposed to beat all the bosses at the end of *Grandia II*? I can sometimes beat the first one, but then I get killed! Help me!

Ben Wilson, via email

■ *The trick is to go back to the save point after each fight and heal yourself as you save your game. As for the bosses themselves – here's how we recommend getting past them.*

BOSS FIGHT: VALMAR'S TONGUE

Use your most powerful special attacks and he should die within a few rounds of combat. He has two moves you'll want to watch out for, though – Eat 'Em Alive, which does major damage to and confuses one of your characters, and Gluttony, which will hurt your entire group.

BOSS FIGHT: VALMAR'S EYE

Watch out for the Eyeball Bats' Delta Burst attack, as it contains a cancel effect and can be very annoying when you're trying to pull off a special move. Use your most powerful specials, as before, until the boss dies. Valmar's Eye will be slightly harder to beat than the Tongue, as all its parts have roughly the same amount of health and so will survive right up until the end of the fight.

BOSS FIGHT: VALMAR'S HEART

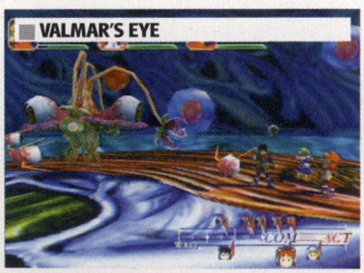

As with the fights so far in the sequence, let loose with your most powerful special attacks, straight away. Once the Eyes die, use Millenia's Spellbinding Eye to stop the Heart itself from attacking you. Once that's done, it's simply a case of pummelling the boss until it stops moving.

BOSS FIGHT: ZERA VALMAR

This boss is easier to deal with, in some respects, that the others you've faced so far. It only has one part to it, whilst the others all had at least three to deal with. Use Cold to drop Zera's action speed, then cast Speedy to increase your own. You may also want to cast WOW! a couple of times to increase your attack power, before unleashing your special attacks. Make sure you don't use too many area attacks on the boss, as they'll only be a waste of MP and SP. Watch out for Zera's BA-BOOM! spell, as this will cause major damage to your entire party. Fortunately though, it's not as powerful as the one cast by the Devils in the Raul Hills Special Stage. Just keep throwing powerful attacks his way and Zera will die eventually – a little disappointing really, when you consider that he's the game's final boss.

Mapping Magicians

Dear PowerStation,

I'm just writing to thank you for your excellent *Tony Hawk's 4* guide in issue 81. The maps are a brilliant idea and helped me find the things I was looking for with ease. It wasn't actually the first magazine I tried – I originally bought one of your rival magazines because it came with a free *Tony Hawk's 4* book, but there were no maps inside and the guide itself was rubbish. It only dealt with the basic challenges and didn't even cover all the levels. Your guide was superior because it covered all the elements of the game and came with full-colour maps. From now on, I'm sticking with PowerStation!

Andrew Desbrough, Putney

■ *Thanks for your kind words, Andrew, we're glad you found our guide to be useful. Unlike some of our rivals, we're only too happy to spend hours and hours mapping games for our readers – it is complicated and time-consuming but the end result is well worth it. We also try to cover all the elements of the game where possible, hence covering the pro challenges and pro-specific challenges in* Tony Hawk's 4, *not just the basic ones from the early levels. Remember, if it is the biggest and best guides you are after, then PowerStation is the only magazine you need – that's why we're the biggest selling tips magazine in the country!*

Console War Continues

Dear PowerStation,

Do you agree with my friends and I that the PS2 rules and that the GameCube and Xbox are rubbish in comparison? We love PS2, long may it rule! Anyone who buys an Xbox is sad!

Simon Lobb, Poole

■ *Well, we do think that the PS2 is the best console of the three, mainly thanks to the catalogue*

STAR LETTER
Jim Thompson

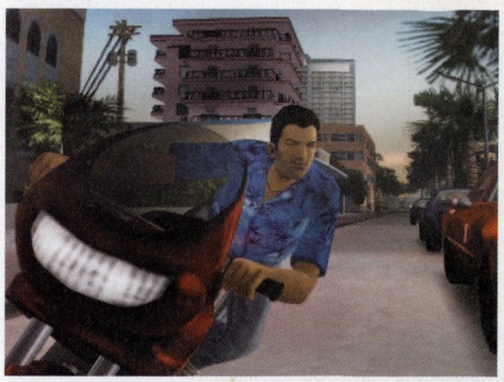

All Things Are Not Sequel

Dear PowerStation,

I was looking through issue 82 of PowerStation (your best yet in my opinion!) when I was suddenly struck by something bizarre. *GTA: Vice City*, *Tony Hawk's 4*, *Red Faction 2*, *Colin McRae 3* and *Smackdown 4* – spot the original game! They are all sequels, and when you think about the games people are waiting for in the new year, like *Tomb Raider: Angel Of Darkness*, *Metal Gear Solid 2: Substance*, *Soul Calibur 2*, *Devil May Cry 2*, *Driver 3*, *Gran Turismo 4*, *TimeSplitters 3*, *Final Fantasy X-2*; the list goes on and on! Now, don't get me wrong – I like certain types of game as much as the next man and I'll be first in the queue to buy some of those games – *GT4* is one I'm eagerly anticipating – but isn't the game industry in danger of just repeating itself ad infinitum? Surely someone somewhere must have an original game planned sooner or later? And most 'original' games are just variations on the same theme anyway. What do you think?

Jim Thompson, Aberdeen

■ *We know exactly what you mean, Jim – great games will always get sequels but the situation is becoming rather ridiculous now. The problem is that tried and tested formulae will make money, and most companies are happier to go with what they know than to take a gamble on an original idea that might not pay off in the long run. Of course, if sequels were that unpopular then no-one would buy them and therefore companies would stop making them, but the fact that they are often to be found at the top of the charts means that we can keep expecting to see more and more arriving.*

The Getaway is very much an adult game

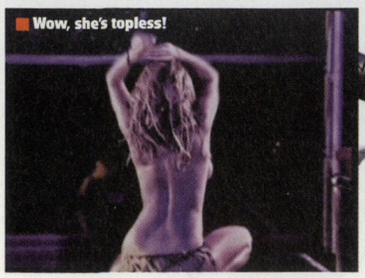

of superb games available for it, but the GameCube and the Xbox have their own merits. The Xbox has some great games in the pipeline and has the power to really do them justice, and the GameCube will sell well too, despite not really having the number of top games it needs to challenge the PS2. However, if other people prefer different machines then leave them to it – what business is it of ours to criticise? Enjoy your machine, and if it happens to be a PS2, then at least you know you can always turn to PowerStation for help when you get stuck!

Championship Manager

Dear PowerStation,

Will there ever be a version of *Championship Manager* for the PS2? I have it on the PC, but we only have a small computer and it doesn't run too well. *LMA Manager* is all right, but I really want to play the king of management games on my PS2. Now that the game is out on Xbox, are there any plans for a PS2 version?
Gordon Wilkinson, Peterborough

■ *Sadly, there are no plans at present to release a championship manager game on the PS2, but Eidos and Sports Interactive assure us that they are monitoring the situation and if they think that a console can handle the immense amount of number-crunching that* CM *requires, they will try to get the game to work on it. Because the PS2 doesn't have a hard drive, it isn't really feasible for* Championship Manager *to run – so much information is needed and you'd spend hours waiting for it to access the disc all the time. Perhaps there'll be a version made available for the PS3…*

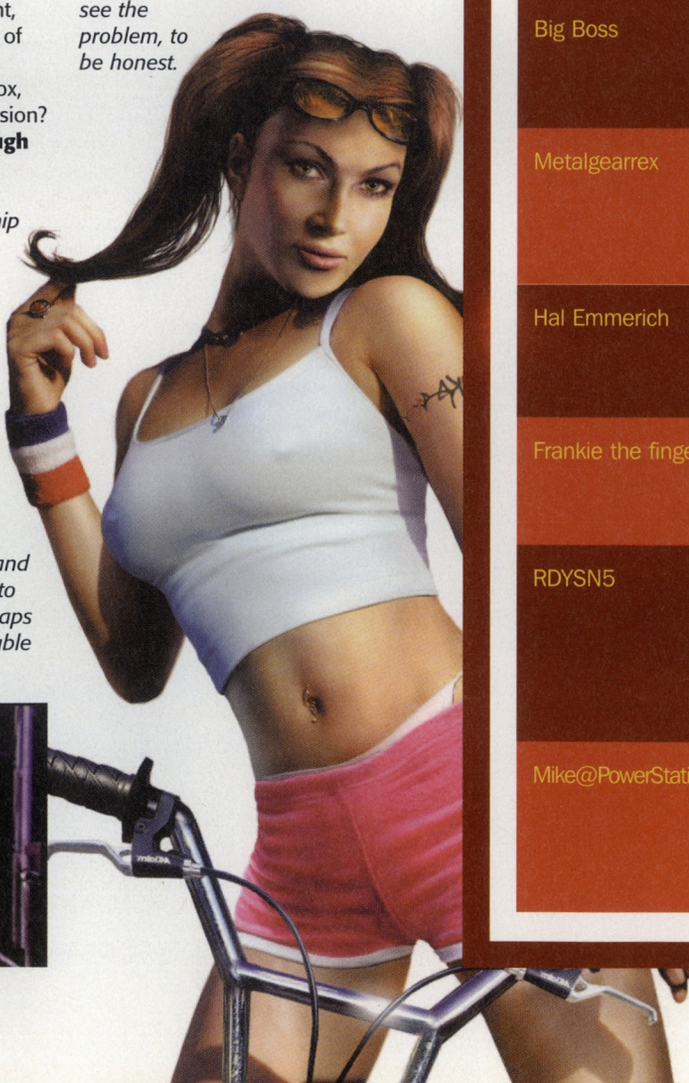

Wow, she's topless!

Play Nicely, Children

Dear PowerStation,

What on earth are games developers playing at these days? *Vice City*, *The Getaway*, *BMX XXX* – all are games that feature nudity, bad language and general bad behaviour. As a Christian who enjoys playing games, I find it upsetting that this kind of material is made available to the nation's children, and I must say that I wish these companies would stop making games based around such dubious storylines.
Christine Fawcett, Kingston-Upon-Thames

■ *What you have to bear in mind is that the PS2 is not just a machine for children. More adults than ever before are playing games and it is inevitable that there will be a demand for 'adult' games as a result. However, such games are regulated by ELSPA and the BBFC so that they carry age certificates, so shops should not sell them to young children. If grown adults want to play a game that features swearing, or a lady jiggling about on a bike, then it is unfair to stop them – as long as children are not allowed to buy the games then we really can't see the problem, to be honest.*

AUTHOR	TOPIC: DEFINING VC MOMENTS
Yorksrover	**Posted 18 Nov 2002 03:44 PM** What are everybody's defining moments in VC? My favourites include finding the Apache chopper, Stealing the Apache chopper (after many frustrating attempts), stealing the VCPD chopper (for the sheer irony), robbing my first store, the spotlight mission at the film studios, taking to the air for the first time in a toy bi-plane, robbing a bank in overalls and a hockey mask!! Plus thousands of others. But enough about mine, what are all yours???
Dark Uboot	**Posted 18 Nov 2002 04:15 PM** Definitely the Spotlight Mission. I replay it virtually every time I stick VC on. But I miss the old 'Awww' and 'Busted' sounds from the old GTA....
Big Boss	**Posted 19 Nov 2002 08:33 PM** My favourite mission was and is 'The Job' and the funniest mission 'Boomshine Saigon'.
Metalgearrex	**Posted 19 Nov 2002 10:47 PM** I like the 'Boomshine Saigon' mission as well but my fave is doing the 'Vigilante' mission in the hunter, pure class every time
Hal Emmerich	**Posted 05 Dec 2002 09:47 AM** Stealing the VCPD helicopter was great, but can someone explain where its guns are?
Frankie the finger	**Posted 12 Dec 2002 04:46 PM** I like ta hack people up with tha frickin' chain saw.
RDYSN5	**Posted 17 Dec 2002 09:13 PM** My favourite mission was 'Four Iron' and also 'Keep your friends close...'. I love the Tank, I find the apache copper too hard to fly lol, and its dead weak, takes a bit of damage before going on fire.
Mike@PowerStation	**Posted 03 Jan 2003 12:44 PM** For me, the best moment of the game was finally stealing the hunter - i'd been after the darned thing for hours but couldn't get past the guards. Needless to say, I took some revenge!

GTA WISEGUYS

Happy frickin' New Year ya morons! I hope Santa brought ya what ya asked for. Micky 'The Fist' asked for a not guilty verdict at his trial. Instead he got a two-year stretch in tha slammer. Well, he did beat the crap out of a buncha cops, why d'ya think they call him 'The Fist'?

FRANKIE SAYS "THAT'S GOTTA BE SOME COCKROACH."

Dear Frankie,
I'm stuck trying to steal the Hunter on *Vice City*. I always get killed, how can I get it?
Danny Groom,
Liverpool

FRANKIE SAYS: *What ya need ta do is put on tha Cop Uniform that is available from tha Police Station in Washington Beach after ya done the 'Cop Land' mission.*

Dear Frankie,
How do you get the Cuban outfit after the 'Two Bit Hit' mission? It is behind an invisible wall at Havana Streetwear.
Dr Nitros,
Via email

FRANKIE SAYS: *It looks like some moron left a bug in tha game that means ya can't get this outfit. If I find out how ta fix it, I'll tell ya. Ain't I nice?*

Dear Frankie,
Two questions. Number one, are there any Securicars and if so, where in *GTA*? Number two, in *Vice City* on the 'Guardian Angels' mission Is Diaz's car indestructible because I kept shooting it and it didn't blow up?
Alex Birch,
Via email

FRANKIE SAYS: *There are Securicars in both GTA games but their ain't no special place ta find 'em. You do know ya ain't supposed ta shoot Diaz's car? But you're right it is indestructible, 'an ya can steal it if ya don't mind failing tha mission.*

Dear Frankie 'The Finger',
I am just writing to ask you how to do the 'Keep Your Friends Close...' mission as I have bought the Malibu and the Print Works but one thing still bothers me, there are not enough missions! This game is just too simple as I am on the last mission and I have only had the game a week! Also I would like to know if Rockstar will make GTA San Andreas because that city was on the original game and I just

Put on tha cop uniform and walk straight inta tha Airforce Base without being hassled

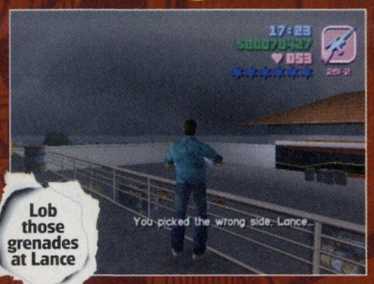

Get the outfit inside this shop

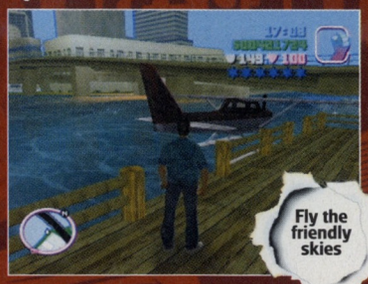

FRANKIE SORTS IT!

Send your questions or cheats to:
GTA Wiseguys,
PowerStation,
Paragon House,
St Peter's Road,
Bournemouth,
BH1 2JS

Or email thefinger@paragon.co.uk

wondered if they would make a 3D version of it.
Nath,
Swindon

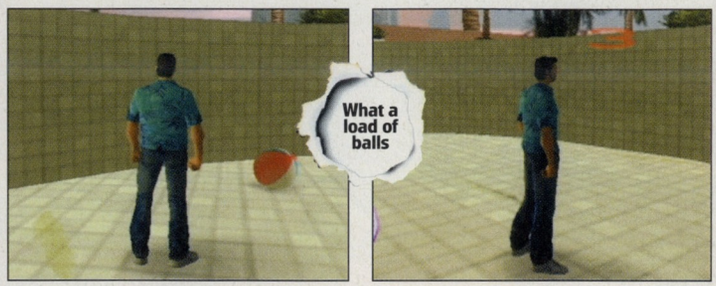

FRANKIE SAYS: *The last mission is tough but Frankie had no problems. Stand at the top a tha stairs and use the Python ta shoot anyone that tries to come up them. When Lance appears chase and shoot him until ya get ta the roof. Run ta the left and grab tha Adrenalin then go up ta the helipad. Throw grenades down at Lance until he's dead then go back down tha stairs ta the office. Ta kill Sonny leave the office an' go round ta tha left. Take out a Rocket Launcher and fire a coupla rockets down at him ta finish him off. You say there ain't enough missions but have ya done all tha hidden stuff like Rampages, Arena Races an' RC Races? I bet you ain't. I ain't got a clue if there'll be a game in San Andreas, I don't work for Rockstar, bozo, so why don't ya ask someone who does?*

Dear Frankie,
I have purchased *GTA: Vice City* and I have managed to complete it. On the roof of the Vercetti Estate is a helicopter, which I have flown but I can't find a seaplane or an army helicopter. Also, my cousin is stuck on the mission The Malibu called 'No Escape', he keeps dying.
Anon

FRANKIE SAYS: *The Seaplane can be found behind the Film Studio after ya finish tha 'Dildo Dodo' mission. Once ya collect all tha packages the Hunter will be unlocked at the Airforce base. The trick ta completing 'No Escape' is ta get to tha nearest Pay 'N' Spray quickly afta ya break out Cam.*

BALLS

■ Go ta the swimming pool of tha house of on the corner opposite the entrance to the mansion to find a beach ball. Walk into it an' it'll start ta bounce. Watch the shadow on the ground an' stand under tha ball so it bounces on ya head. A number will appear ta tell ya how many times ya done it. Ya don't get nothin' for doin' it, but it's fun... for about a minute.

Dear Frankie,
Please could you tell me how to fly the Dodo car, it's driving me insane! Why are you so rude to your readers? What have they done to you? You're just a smart mouthed critic!
William Jones,
Abergavenny

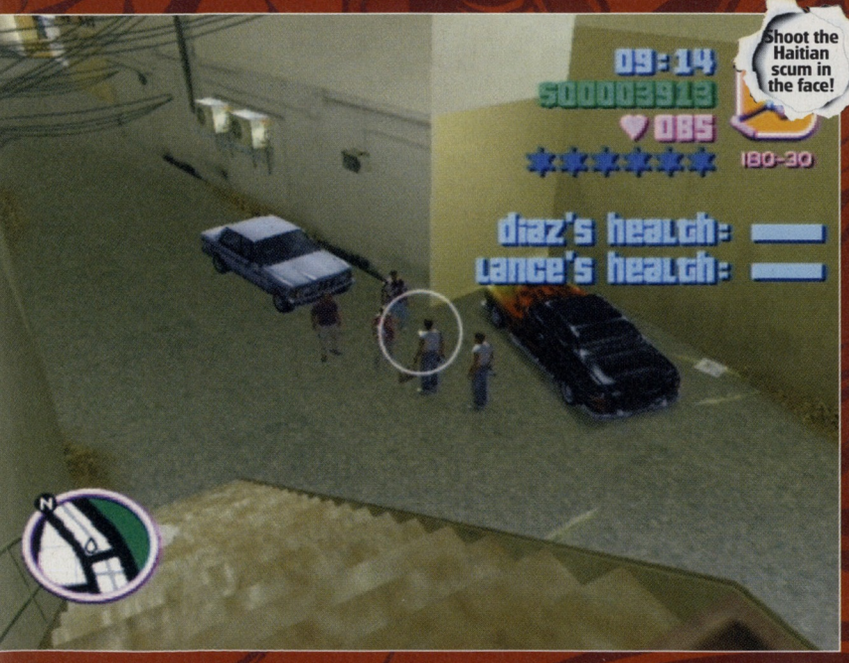

FRANKIE SAYS: *And you are just a stupid dumbass.*

Dear Frankie,
I'm stuck on the mission for Mr Love called 'Decoy'. The cops finish me before I can say, "Die you suckas!" help me please! Damn Donald Love for making me do a suicide mission.
Lilly Teggin,
Via email

FRANKIE SAYS: *This ain't a suicide mission if ya know how ta do it. All ya gotta do is drive as fast as ya can an' keep going for three minutes. Just try to avoid any contact with the tanks that the army will bring out.*

Dear Frankie 'da Finga',
I've got a problem with robbing stores in *Vice City*. I can't find the Deli, on the map with the game it's next to the Cherry Popper and in the official guide it says it's one street north of Ryton Aid. Know where it is?
Clem,
Via email

FRANKIE SAYS: *This is what happens when ya don't rely on PowerStation for ya guides. Unsurprisingly the 'Official' guide is wrong. The so-called Deli north a Ryton Aid don't exist and what ya wanna rob instead is the Café Robina in Little Havana that belongs to Umberto.*

■ Get away from the cops as quickly as possible otherwise the Securicar won't make it

■ After you've robbed the poor bastard, put him out of your misery – permanently

Gran Turismo 4 On The Way!

■ *The developer of GT4 has finally released some new tidbits about the next sequel planned for a late 2003 release ('bout bleedin' time!) All the major manufacturers are back and have agreed to have their motors wrecked in the game. Damage and deformation are the order of the day in GT4, as well as online play. Sony will be launching its worldwide broadband gaming network this year so you can expect all sortsa options from online racin' to shops to buy and download cars. We'll tell ya more when we hear it.*

I recently bought *GT Concept* but I'm stuck on a couple of the races. Is there any advice you could give me?

■ *Since ya don't tell us what races you're stuck on how are we supposed to help, ES bleedin' P? Anyway, the best thing ya can do is buy the back issue of #77 for the bargain price of £4.99. Can't say fairer than that.*

FINAL FANTASY X

Lady In Waiting

There's always someone having girl problems; now it's Jez's turn

Dear Chocobo Charlie,

I've only just started playing *FFX* – yeah, I know it's been ages since it came out but I was hoping you could help anyway. I'm doing really well; well, I was until I got to the end of the game. I've come to this woman called Yunalesca and she kicks my arse every time. I don't see how I'm supposed to beat her 'cos her attacks kill me straight away. My mate reckons she has loads of different forms as well! Help!

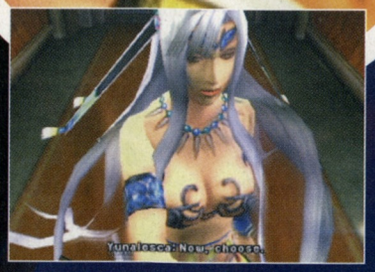

Jez Stansen, Portsmouth

■ *Yes, I seem to recall the ancient Yunalesca being a right royal pain in the arse! Take comfort in the knowledge that without her make-up she would be nothing. Defeating her is all about taking the necessary precautions. Set yourself up right and it'll be a breeze!*

BOSS: YUNALESCA

HP: (1) 24,000, (2) 48,000, (3) 60,000
AP Received: 14,000
Attacks: Silence, Darkness, Zombie, Hell Biter, Mega Death, Drain, Osmose

As with most bosses that have multiple forms, you should save the best until last. Make sure that you can protect yourself against

■ Yunalesca: a bit of a nightmare!

FINAL FANTASY X

Balls Up!

Football under water? You must be made...

Hey CC!

I'm about halfway through *Final Fantasy X*, you know the one with Tidus in it? I noticed that in the Blitzball leagues you can win Return Spheres. I really need one but I can't find them anywhere else and I'm no good at Blitzball. Can you help me?

Jude Stevenson, Swansea

■ *You're right in saying that this is the only place where you can get Return Spheres. They do appear later on in the game, but you need them right now and to do that you'll have to master your skills.*

Some of the prizes you can win are as follows. Note that the Blitzball matches are the only place you can win Return Spheres.

Tournament 1
1st Place: Dark Matter
2nd Place: Elixir
3rd Place: Super Goalie
Top Scorer: Ether

Tournament 2
1st Place: Elixir
2nd Place: Tech Find
3rd Place: Potion
Top Scorer: Return Sphere

Tournament 3
1st Place: Hi-Potion
2nd Place: Echo Screen
3rd Place: Potion
Top Scorer: Return Sphere

League 1
1st Place: Luck Sphere
2nd Place: X-Potion
3rd Place: Ability Sphere
Top Scorer: Return Sphere

League 2
1st Place: Teleport Sphere
2nd Place: Mega Potion
3rd Place: Echo Screen
Top Scorer: Return Sphere

League 3
1st Place: Teleport Sphere
2nd Place: Mega Potion
3rd Place: Echo Screen
Top Scorer: Return Sphere

Darkness and Silence (well, the characters for whom it would be an inconvenience), as whenever you attack the first form she will cast these status attacks. This first form is very straightforward, a breather if you like, so use the spare time to prepare yourself for what is to come.

There are a few problems with the second form. As with previous Seymour battles, Yunalesca will zombify you then try to cure you. Naturally you will attempt to cure yourself but if you are in the Zombie state when Mega Death hits, you won't be harmed. If you are in a normal, living state when Mega Death hits, your entire team will die. Your best bet is to get the second form low on HP, then allow her to cast Hell Biter. Kill her off and your entire team will survive Mega Death. Hmmm, a difficult one, so you should keep at least one of your characters in the Zombie state. Occasionally Threaten will stop her in her tracks, and this can be very useful but if it doesn't hit you've wasted a turn. With the third form she goes a little bit mental, so now is the time to let rip with Character Overdrives and Aeon Overdrives. If you get a decent run of it you should be able to finish her off in no time. Then again, sometimes it can still go a bit wrong. If that happens there's not much you can do, apart from just try again.

FINAL FANTASY IX

Golly Gosh Mog!

Where would we be without those cute 'lil bears?

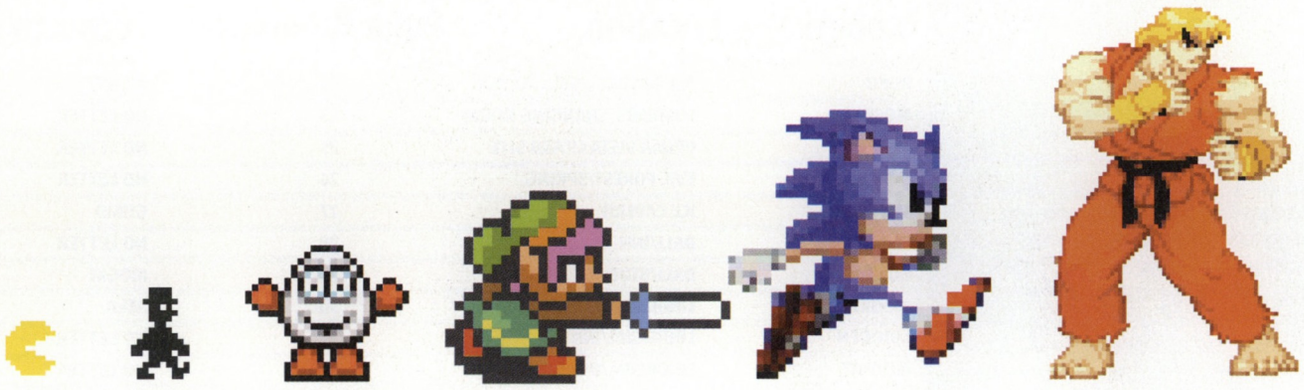

Dear PowerStation,

This isn't a really important question – I could probably figure it out myself but well, you know… if you're bored can you help me? I'm right at the end of *Final Fantasy IX* and I can't figure out where my missing Moogles are. I'm supposed to have delivered letters along the way but I must have forgotten. Where are they?

Bazza Timneh, Cornwall

Just so you understand, I'm not ever bored, but I like talking about the Moogles so I'm going to answer this. The answer to your question is quite simple; the information you require is provided in the table below!

P2 COMMENT

"FANTASTICALLY ADDICTIVE, ENGROSSING EPIC"

P2#30 is out now, and available from most good newsagents

you might think you've completed vice city, but we're back to show you all the things you may well have missed the first time!

Cheats & Secrets

Clothing

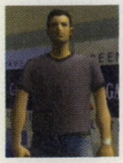

Some missions in Vice City require you to change your outfit. Once these jobs are completed, the outfit will be unlocked at a certain location. Putting on a new outfit will remove a wanted level of 1 or 2.

BANK JOB OUTFIT

Once you've completed the Malibu Club mission 'The Job', this will be available at that club.

CASUAL OUTFIT

After you've completed the 'Treacherous Swine' mission for Cortez, this is available from Gash in the North Point Mall.

COP OUTFIT

Complete the mission 'Cop Land' to make this available in the locker room of the Police Station in Washington Beach.

COUNTRY CLUB OUTFIT

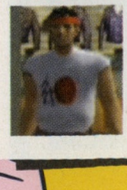

After the 'Four Iron' mission for Avery Carrington is complete, this becomes available at the Leaf Links Golf Club.

COVERALLS

Complete the 'Riot' mission for Ken and this outfit is available from Tooled Up in the North Point Mall.

HAVANA OUTFIT

Once you've finished the 'Two Bit Hit' mission for Avery, this becomes available at Little Havana Streetwear.

MR. VERCETTI OUTFIT

This is delivered to Collar & Cuffs in Ocean Beach once you've bought the Pole Position Club.

SOIREE OUTFIT

Complete 'The Party' mission for Ken and this will become available from Rafael's in Ocean Beach.

STREET OUTFIT

This is the outfit Tommy is wearing from the start and becomes available at your save houses after completing 'An Old Friend'.

TRACKSUIT

Complete the 'Supply & Demand' mission for Diaz and this will become available from Jocksport in the Downtown area. There's also a different Tracksuit available from the Laundromat in Little Havana.

Cheat Marathon

Enter these codes while playing (not paused) and 'Cheat Activated' will appear at the top left of the screen.

vehicle missions

When inside certain vehicles it's possible to perform extra missions that can earn you some tasty rewards.

Vigilante

When driving a law enforcement vehicle – namely a Police Enforcer, FBI Rancher, FBI Washington, Predator, Rhino or Undercover Cheetah – simply press R3 to begin a Vigilante mission. This involves chasing criminals and bringing them to justice with extreme force. For added authenticity, put on the Cop uniform available in the Washington Beach Police Station. Complete Level 12 to unlock 150 Armour.

Brown Thunder

After you've collected all the packages, the Hunter will become available at the Air Force base. Steal it (hint: use the cop uniform) then press R3 to begin this Vigilante mission. This is the same as normal Vigilante missions except that you now kill criminals by firing rockets at them from the air. Complete Level 12 to unlock 150 Armour.

Pizza delivery

Get onto one of the Pizza Boys at a Well Stacked Pizza Restaurant to start this mission. You must deliver pizzas (unsurprisingly) to customers by throwing them, drive-by style. If you run out of pizzas, simply return to the restaurant to get some more. Make sure your time doesn't run out though – pizzas don't stay hot forever. Complete Level 10 to unlock 150 Health.

Taxi driver

When you get into a Taxi, Cabbie or Kaufman Cab, press R3 and you'll be able to ferry the residents of Vice City to their destinations. Bonus cash is given for a speedy trip and for multiple trips in a row. Look after your cab otherwise your fare will jump out and you'll have to get it fixed before you can carry on. Deliver 100 people to unlock Boost, enabling your cab to do a hydraulic jump when L3 is pressed.

Firefighter

Burn baby burn, disco inferno! Unfortunately there aren't any discos on fire in Vice City, only vehicles. Press R3, when in a Fire Truck, to start putting them out. Get to the fires as quickly as possible and press ⊙ to fire the water cannon. However, it doesn't end there – once the can has been put out, people may jump out of the car and they'll be on fire too. Spray them with water then head to the next emergency. Complete Level 12 to unlock Fireproof, which allows you to run through fire unharmed.

Paramedic

Ever wanted to be in hit TV shows *ER* or *Casualty*? Well now you can just by stealing an Ambulance and pressing R3. You now have to drive round town picking patients up and delivering them to the hospital. Saving lives – quite an unusual concept in the world of *GTA*. Complete Level 12 to unlock Infinite Sprint.

Vehicles

Welcome to Honest Frankie's. We've got the complete array of cars, trucks, bikes, boats and aircraft available in *Vice City*. They're a steal!

CARS & TRUCKS

ADMIRAL

This luxury saloon means you can look like a classy yuppie while you mow down innocent pedestrians.

SPEED: 6 DURABILITY: 6

AMBULANCE

Find one of these parked outside hospitals or where there's a Vice City resident bleeding on the floor.

SPEED: 7 DURABILITY: 7

BAGGAGE HANDLER

Find these in and around the airport. Not much good in a getaway, but useful if there's nothing else about.

SPEED: 3 DURABILITY: 4

BANSHEE

A very tasty sports car that's one of the fastest in the game. Steal a white one for that ultimate Eighties cool.

SPEED: 8 DURABILITY: 5

BARRACKS OL

When the army are on your case you'll see them driving one of these. They're great at pushing through heavy traffic.

SPEED: 6 DURABILITY: 8

BENSON

Not good for getting away from anything, but at top speed it can push most cars out of the way. Tips at speed.

SPEED: 4 DURABILITY: 6

BF INJECTION

Great for the beach and not bad on the road either. Just don't turn corners too quickly or you may tip over.

SPEED: 7 DURABILITY: 6

BLISTA COMPACT

This little hatch is perfect for dodging in and out of traffic, but not for a getaway as it won't last very long.

SPEED: 5 DURABILITY: 5

BLOODRING BANGER

Only available to drive in the Bloodring until you win and it's unlocked outside. Reasonable speed and is pretty sturdy.

SPEED: 7 DURABILITY: 7

BOBCAT

This pick-up is pretty strong for its size; just don't expect to get away from anything very quickly.

SPEED: 4 DURABILITY: 6

BOXVILLE

This doesn't sound exciting and it isn't. Only steal one if you're desperate – the owner'll probably be glad to be rid of it.

SPEED: 3 DURABILITY: 6

BURRITO

A plain old van that does exactly what it says on the tin. It goes slow and is great for tailgating people.

SPEED: 4 DURABILITY: 6

BUS

These are pretty rare around Vice City, but don't bother stealing it if you do happen to see one – it's not worth it.

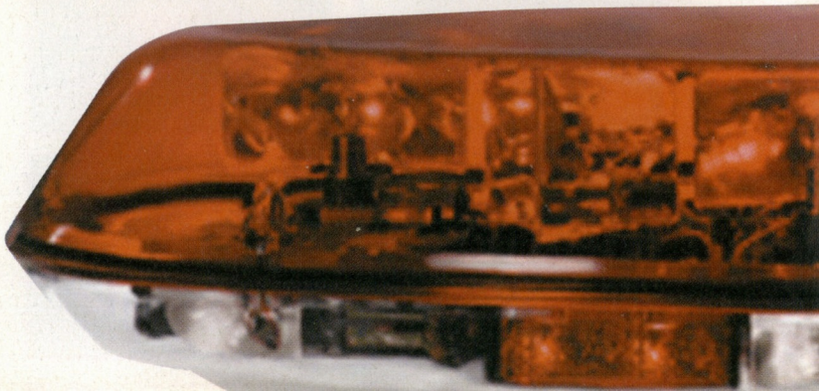

SPEED: 3 DURABILITY: 7

CABBIE

If you want to do the Taxi Driver mission, you're better off waiting for a Taxi to come along as they're faster than this.

SPEED: 5 DURABILITY: 6

CADDY

Found at the golf club, unsurprisingly, this cart is good for getting round the green, but not much else.

SPEED: 2 DURABILITY: 3

CHEETAH

Not the fastest of the sports cars, but it's still quicker than most other modes of transport in the game.

SPEED: 8 DURABILITY: 4

COACH

By nature coaches aren't very fast, but you can barge most traffic out of the way and it can keep going for ages.

SPEED: 4 DURABILITY: 7

COMET

This has some serious speed and will outrun the cops with ease as long as you don't crash it – then you're buggered.

SPEED: 9 DURABILITY: 3

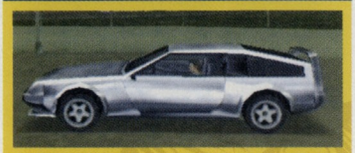

CUBAN HERMES

The normal Hermes may not be up to much but this Cuban version is much faster and looks better too.

SPEED: 7 DURABILITY: 6

DELUXO

This won't go back in time when you reach 88mph but it's still a great car with a high top speed.

SPEED: 8 DURABILITY: 5

ENFORCER

If you are lucky enough to steal one of these you'll see that it's super strong and has great speed for its size.

SPEED: 7 DURABILITY: 8

ESPERANTO

This two-door beast has decent speed but really slow acceleration, so it's not good for fast getaways.

SPEED: 6 DURABILITY: 6

FBI RANCHER

Longer and faster than a normal Rancher, this is a good all-rounder – but good luck stealing one.

SPEED: 7 DURABILITY: 7

FBI WASHINGTON

A faster and sturdier FBI version of the Washington, complete with siren and the ability to do Vigilante Missions.

SPEED: 7 DURABILITY: 6

FIRETRUCK

Tough and quick for its size, the water cannon can be used to hose people down and cool them off in the hot sun.

SPEED: 7 DURABILITY: 7

FLATBED

Slow but tough, this truck won't help you escape the law, but you can smash through heavy traffic with ease.

SPEED: 3 DURABILITY: 7

GANG BURRITO

A faster version of the Burrito that has some rather fetching graffiti on the side, but it's prone to tipping on corners.

SPEED: 6 DURABILITY: 6

GLENDALE

Pretty average all round really and will serve you well in most missions if you decide to steal one.

SPEED: 5 DURABILITY: 5

GREENWOOD

These are a pretty common sight around Vice City and they aren't too bad if there's nothing quicker around.

SPEED: 5 DURABILITY: 6

HERMES

Not very fast but it's a tough little cookie and can take quite a bit of abuse before it bursts into flames.

SPEED: 5 DURABILITY: 6

HOTRING RACER

This is what you use in the Hotring races, but you can also unlock it at Sunshine Autos by delivering cars to the garage.

SPEED: 10 DURABILITY: 4

IDAHO

Similar to the Esperanto in that it has a decent top speed, but poor acceleration, so no good for quick exits.

SPEED: 7 DURABILITY: 6

INFERNUS

Another beautiful sight in Vice City, which will get you where you want to go quickly and in style.

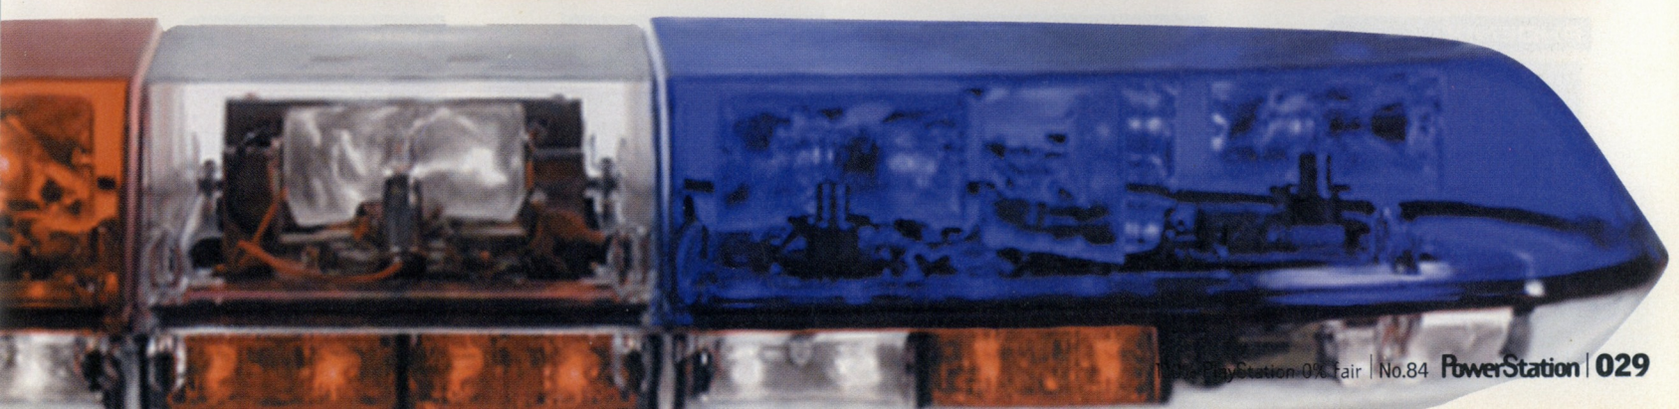

SPEED: 8 DURABILITY: 4

KAUFMAN CAB

This is identical to the Cabbie except for the fact that it has 'Kaufman Cabs' written on the side.

SPEED: 5 DURABILITY: 6

LANDSTALKER

This is pretty quick for an SUV but watch out around corners as it will tip over if you're going too fast.

SPEED: 6 DURABILITY: 6

LINERUNNER

Big and tough and pretty slow but it can push most other vehicles out of the way and takes loads of damage.

SPEED: 5 DURABILITY: 7

LOVE FIST

This limo is Love Fist's preferred mode of transport and they certainly know how to travel in style.

SPEED: 6 DURABILITY: 6

MANANA

This little two-door car has very average speed and can't take too much abuse. Don't bother unless there's nothing else.

SPEED: 5 DURABILITY: 4

MESA GRANDE

This is good on and off road and has a reasonable speed. However, a few hard knocks and it'll be on its last legs.

SPEED: 6 DURABILITY: 5

MOONBEAM

Not bad for a van, but that's about it. Pretty similar to the Burrito except this has windows.

SPEED: 4 DURABILITY: 6

MR WHOOPEE

Deliver 'Ice Cream' to the junkies of Vice City, but don't use it for anything else as it's slow and won't last long.

SPEED: 4 DURABILITY: 4

MULE

It's slow and handles like a dog, but it's also tough with it. Use this in gridlock to barge through traffic.

SPEED: 4 DURABILITY: 7

OCEANIC

Similar to the Glendale but it doesn't handle as well. Pretty average and not bad if the law isn't after you.

SPEED: 5 DURABILITY: 5

PACKER

No good for getting away from anything, but park one up then drive a car up the ramp to do a nice jump.

SPEED: 3 DURABILITY: 6

PATRIOT

This ex-army vehicle has reasonable speed, good handling and is pretty tough – so if you see one, nick it.

SPEED: 6 DURABILITY: 6

PERENNIAL

Unfortunately these are quite common in Vice City so you'll be in one sooner or later, just get rid of it quickly.

SPEED: 4 DURABILITY: 6

PHOENIX

This car won't talk to you and doesn't have a flashing light on the front but it's still pretty good anyway.

SPEED: 7 DURABILITY: 6

POLICE

Police cars are tough and fast enough to keep up with sports cars, but they've also got a working siren – hooray.

SPEED: 9 DURABILITY: 7

PONY

A slightly larger van than the Burrito, it's slower and the handling is worse. On the plus side, it's slightly tougher.

SPEED: 4 DURABILITY: 6

RANCHER

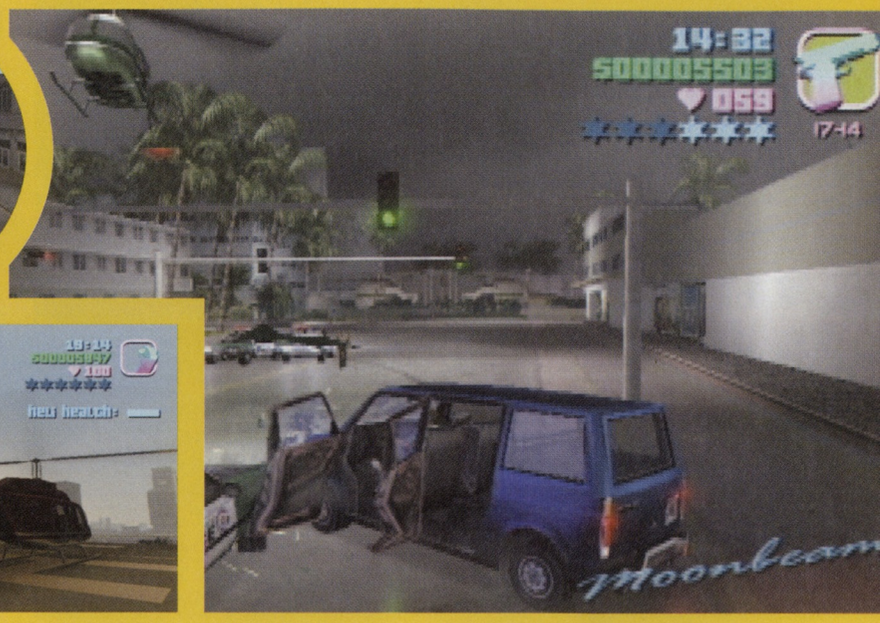

This is great off road and is tough with it. Not as good as the FBI version but it's a damn sight easier to steal.

SPEED: 5 DURABILITY: 6

REGINA

This station wagon has some very nice wood panelling down the sides and it's not a bad ride either.

SPEED: 5 DURABILITY: 5

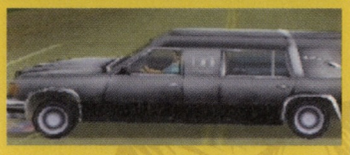

RHINO

Nothing can beat this tank for strength but almost everything can beat it for speed, even a Faggio. ⊙ fires the turret.

SPEED: 3 DURABILITY: 10

ROMERO'S HEARSE

This hearse even comes with a coffin in the back so when you run someone over you have somewhere to put them.

SPEED: 5 DURABILITY: 6

RUMPO

How many vans does this game need? This isn't much different from the others so don't bother stealing one.

SPEED: 4 DURABILITY: 6

SABRE

The Sabre has a decent speed and cornering and a lovely growling engine noise that will scare small children.

SPEED: 6 DURABILITY: 6

SABRE TURBO

Like a normal Sabre only much faster and with a cool white strip down the centre so people know you're driving a turbo.

SPEED: 8 DURABILITY: 6

SANDKING

As its name suggests, this 4x4 is the king when it comes to sand. Get down to the beach and jump those dunes!

SPEED: 6 DURABILITY: 6

SECURICAR

Pretty rare but it'll last ages if you do steal one. They don't go very fast so make sure the cops aren't onto you.

SPEED: 4 DURABILITY: 8

SENTINEL

A decent four-door saloon that'll get you where you're going with minimum fuss. If you're in a hurry, grab the XS version.

SPEED: 6 DURABILITY: 6

SENTINEL XS

This is a faster version of the Sentinel that you can spot by its spoiler. You know what spoilers mean – speed!

SPEED: 7 DURABILITY: 6

SPAND EXPRESS

A Mule with 'Spand Express' written on it, you need speed for express deliveries and this has more than the Mule, just.

SPEED: 5 DURABILITY: 7

STALLION

This has a good top speed but go too fast and you'll notice it starts to handle like a dog. Good for straight roads only.

SPEED: 7 DURABILITY: 6

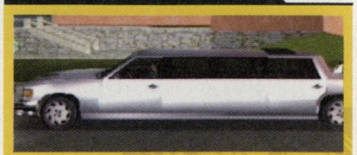

STINGER

Crockett and Tubbs would be proud of this convertible and so can you be if you get your hands on one.

SPEED: 8 DURABILITY: 4

STRETCH

Limos aren't built for speed so don't expect to go fast. But if you just want to cruise then you could do worse.

SPEED: 4 DURABILITY: 6

TAXI

This is probably the best vehicle to do the Taxi Driver mission in as it's got pretty good speed and handling.

SPEED: 7 DURABILITY: 6

TOP FUN

Get into one of these to start an RC mission. Once it's over you can drive the van away, but it's not worth bothering.

SPEED: 4 DURABILITY: 6

BIKES, BOATS, AIRCRAFT

TRASHMASTER

Deadly slow and it stinks of crap. Only drive one of these if you're really desperate – *really* desperate.

SPEED: 3 DURABILITY: 7

UNDERCOVER CHEETAH

Same as a normal Cheetah except for the flashing light on the dashboard. You can also do vigilante missions in these.

SPEED: 8 DURABILITY: 4

VIRGO

Faster than it looks, the Virgo isn't a bad choice if you're being pursued. The acceleration ain't great though.

SPEED: 7 DURABILITY: 6

VOODOO

The vehicle of choice for Haitians, press L3 to move the hydraulics and use the right analog stick to bounce.

SPEED: 6 DURABILITY: 6

WALTON

Not recommended if you want to impress the ladies, or outrun the cops, or do anything for that matter.

SPEED: 5 DURABILITY: 5

WASHINGTON

This makes you feel important as you cruise the streets looking for poor people to run down.

SPEED: 6 DURABILITY: 5

YANKEE

Another big truck that is good in heavy traffic, but not if you're in a hurry. Turn too sharply and it'll probably tip.

SPEED: 3 DURABILITY: 8

ZEBRA CAB

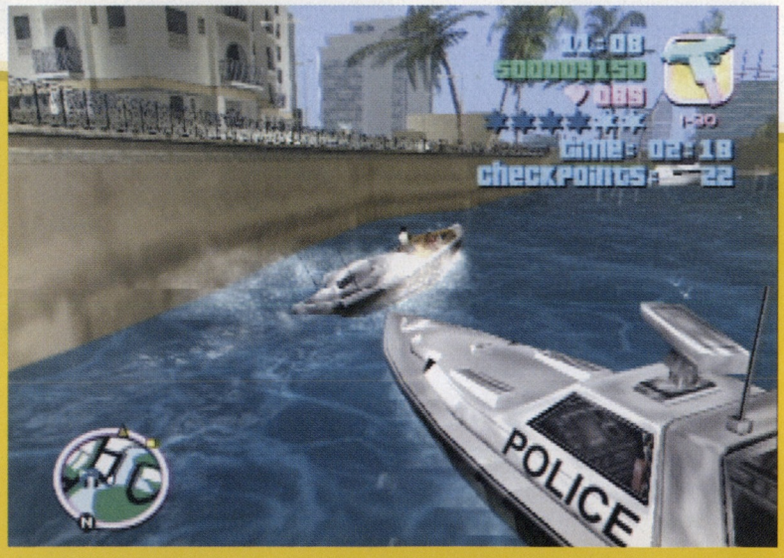

You'll find this at Kaufman Cabs when you've completed all the missions there. Faster and snazzier version of the Cabbie.

SPEED: 6 DURABILITY: 6

HUNTER

Collect all the packages to unlock this beast. Then fly over the city firing rockets at everything that moves.

SPEED: 7 DURABILITY: 8

MAVERICK

This is the most common sight in the skies of Vice City and is reasonably quick and manoeuvrable.

SPEED: 7 DURABILITY: 6

SKIMMER

Like a Dodo with wings that can land on water. Just don't ground it or you'll never get it in the air again.

SPEED: 8 DURABILITY: 5

motorbikes

ANGEL

Not as fast as a Freeway and it doesn't handle as well either, but looks cool and you can hum *Easy Rider* as you go.

SPEED: 5 DURABILITY: 4

FAGGIO

Deadly slow and sounds like a hairdryer but what do you expect?... it is a moped. Great if you're not in a hurry.

SPEED: 2 DURABILITY: 3

FREEWAY

Sturdy, fast with decent handling, it's just a shame you can't shoot your shotgun over the handlebars, Arnie-style.

SPEED: 6 DURABILITY: 6

PCJ 600

This is one of the best vehicles in the game and is incredibly fast. Just don't crash or you'll end up as road kill.

SPEED: 8 DURABILITY: 4

PIZZA BOY

This is another moped but it's quicker then the Faggio, which is useful as you need to deliver those pizzas quickly.

SPEED: 3 DURABILITY: 3

SANCHEZ

Good handling on and off road make this a good choice if you have to take a cross-country route.

SPEED: 6 DURABILITY: 4

aircraft

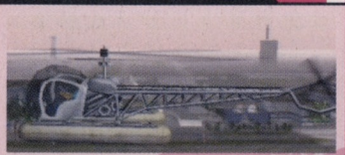

POLICE MAVERICK

Considering this is a police chopper, it doesn't have weapons, but it is more responsive than a regular Maverick.

SPEED: 7 DURABILITY: 6

SEA SPARROW

A Sparrow that you can land in the sea, which can be useful if you want to hijack a boat. Be careful when getting out.

SPEED: 6 DURABILITY: 5

SPARROW

If there aren't any Mavericks around then the Sparrow is a decent second best, despite its dodgy handling.

SPEED: 6 DURABILITY: 5

VCN MAVERICK

A smaller, quicker version of the Maverick, which has very sensitive handling making it susceptible to rolling.

SPEED: 8 DURABILITY: 6

boats

COAST GUARD

Not the slowest boat on the water but nowhere near the fastest either. If there aren't any speedboats around, it'll do.

SPEED: 6 DURABILITY: 6

CUBAN JETMAX

The second fastest boat in the game, it has better handling than the Squalo but can't match it for speed.

SPEED: 8 DURABILITY: 4

DINGHY

Small and slow but if there's nothing else then it'll have to do. It gets a bit tricky to control in rough weather.

SPEED: 4 DURABILITY: 3

MARQUIS

A luxury yacht that doesn't have great speed or handling but can push most other boats out of the way.

SPEED: 5 DURABILITY: 7

PREDATOR

This police boat is quick and handles well. It even has mounted guns that cut through the hull of your chosen target.

SPEED: 7 DURABILITY: 7

REEFER

If you want to do a spot of fishing then this is the craft for you. If you want to escape the law then it definitely isn't.

SPEED: 5 DURABILITY: 6

RIO

Classy and sophisticated, steal one of these then lie on the deck drinking champagne and catch some rays.

SPEED: 5 DURABILITY: 7

SPEEDER

Speed by name, speed by nature, but its handling leaves something to be desired. Nick a Squalo instead.

SPEED: 7 DURABILITY: 5

SQUALO

The fastest boat in the game is great fun, but it can become a bit of a nightmare to steer, especially in rough seas.

SPEED: 9 DURABILITY: 4

TROPIC

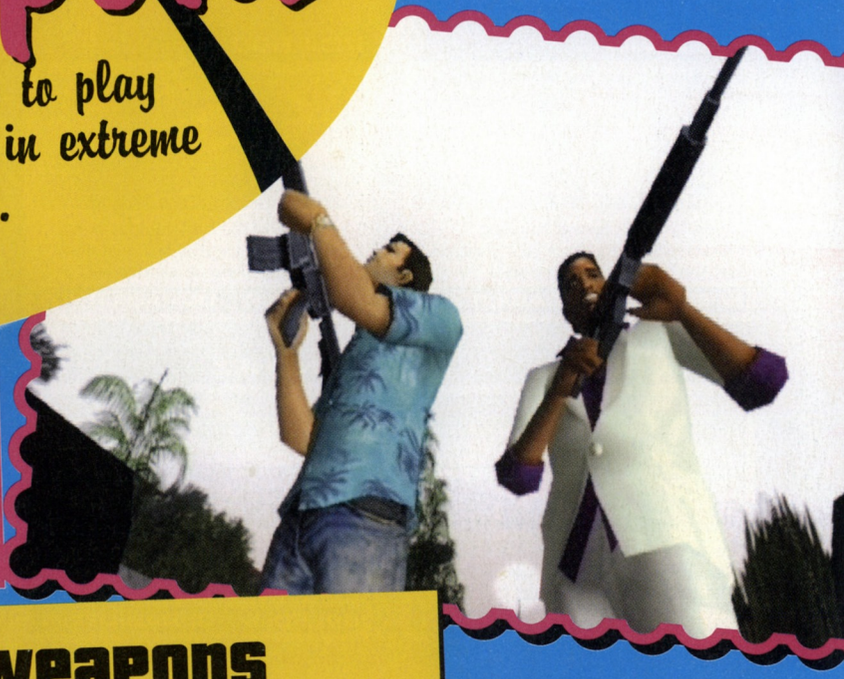

You know you've made the big time when you own one of these, or you can just steal one and take it easy.

SPEED: 5 DURABILITY: 6

The Weapons

There's a large selection of weapons to play with in Vice City. Before indulging in extreme violence, check out this handy guide.

hand-to-hand

Brass Knuckles
Put a set of these on then smack someone round the chops and watch them hit the floor.

Fists
If you've nothing else to hand then you'll have to engage in a bit of fisticuffs.

melee weapons

Baseball Bat
Great for hitting baseballs and smashing people's heads in then pummelling them as they lie on the ground.

Chainsaw
This bad boy will slice and dice anyone who gets in your way. Plunge it into them as they lie on the ground for extra gore.

Golf Club
Golf is a boring sport so go to Leaf Links and show them what a club should be used for.

Hammer
Great for hammering things such as nails, skulls, kneecaps and toes.

Katana
One swipe of this will bring anyone down, whoever they may be.

Knife
The classic blade will give your enemies a nasty gash they won't forget.

Machete
Hack through skin and bone with this larger-than-life knife.

Meat Cleaver
Great for hacking apart carcasses of dead animals, or anyone who looks at you the wrong way.

Nightstick
Nick this from cops then batter people round the head with it.

Screwdriver
Not an obvious weapon, but in the right hands it can cause considerable pain.

PISTOLS

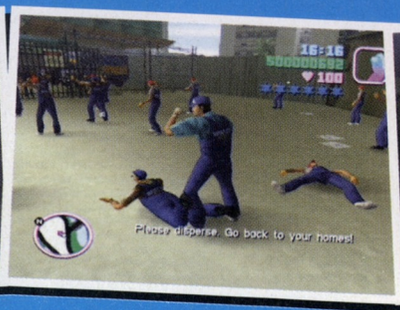

Colt 45
A decent pistol but it doesn't have much stopping power.

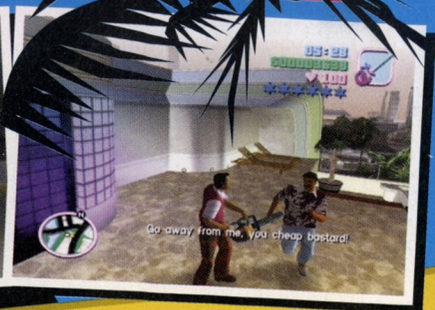

Python
This is more like it – one shot one kill. Do you feel lucky, punk?

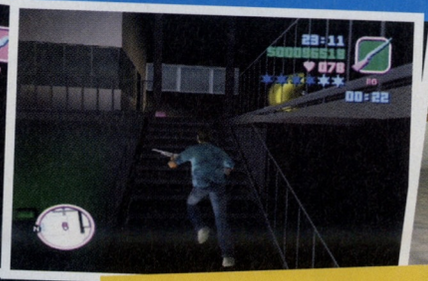

shotguns

Shotgun
Loud and proud, this bad boy'll stop anyone in their tracks.

Stubby Shotgun
This sawn-off shotgun has loads of power but only over short distances.

Spaz Shotgun
A rapid-firing shotgun that will quickly get you noticed by the cops.

projectiles

Detonator
Lob a special grenade then detonate it with this when you're a safe distance away.

Molotov Cocktail
Another one to use on large groups of people... I love the smell of burnt flesh in the morning...

Grenade
Throw this into a crowd of pedestrians and watch the carnage.

Teargas
Toss this at someone and they'll be crying all the way to the hospital.

automatics

Ingram Mac 10
This fires rapidly but loses accuracy over long distances.

Tec-9
Rapid-firing but not overly accurate, this a good short-range weapon.

MP5
Being fast and very accurate makes this a great drive-by weapon.

Uzi 9mm
The classic Uzi will get you out of most scrapes with ease.

sniper rifles

PSG1
Highly accurate and rapid-firing, this the ultimate long-range weapon.

Sniper Rifle
Great for long-distance assassinations but not as fast as the PSG1.

heavy weapons

Flame-Thrower
Throws flames and makes lovely barbecued cop.

Minigun
Destroy everything in your path with this mammoth gun.

M60
Powerful but inaccurate if fired for too long.

Rocket Launcher
Launch rockets at unsuspecting passers-by and watch the fireworks.

assault rifles

Colt M4
Accurate, powerful and rapid-firing, this rifle is a force to be reckoned with.

Ruger
The Ruger is accurate and powerful, but isn't as fast as the M4.

Unique Jumps

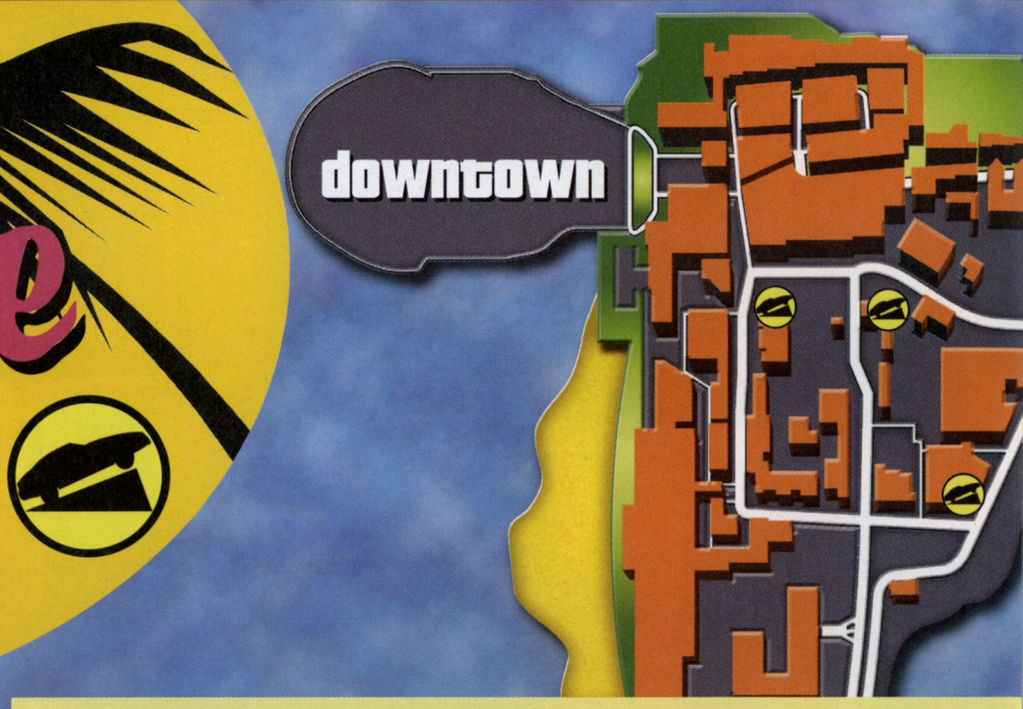

JUMP TO IT!

You'll perform a handful of these jumps during missions but there are quite a few, and here they all are...

P2 COMMENT

"FANS OF THE CHARACTER AND THE MOVIE WILL HAVE FUN"

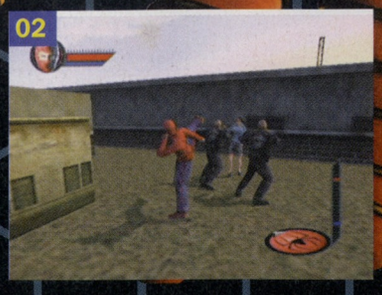

P2#30 is out now, and available from most good newsagents

SPIDER-MAN THE MOVIE

Play as Spider-Man as he battles super villains and put a stop to the Green Goblin once and for all...

Level 1: Search For Justice

Start by crawling underneath the eagle head you're standing on to find the first **gold spider**. You can find a **second** on a building almost straight ahead of your start point – it's guarded by two thugs and is located right on the edge of the level (01).

Look for a white-striped building with gold windows that has a maze of corridors on top. Swing towards your objectives and beat up any thugs you find. Your Elbow Slam combo is good for this, as it will get rid of them in only three hits. Keep moving to your objectives as they appear and smack around the odd bad guy until you see a cut-scene.

Take the **red spider**, then climb to the top of the building you're on. Swing ahead and to your right and you'll find another building with a maze on top. Kill the baddies and talk to the woman here (02), then head back the way you came and a little to your right again. Drop down onto the roof with a couple of thugs roaming around and take the **purse** in the corner. Return it to the woman on the previous building, then either clear the enemies from the rest of the rooftops or follow your compass and height meter to the warehouse. Simply touch the **large spider** on top of it to complete the level.

SECOND CHANCE

If you can't find a gold spider in a particular level, don't despair. Some of them will re-appear in more obvious locations, later in the game.

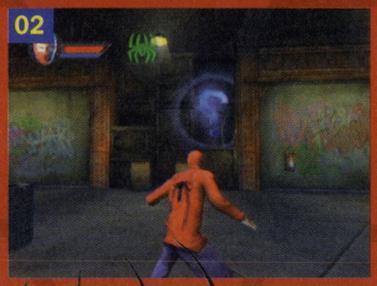

Level 2: Warehouse Hunt

Try to stay in the shadows in this level – your character's picture in the top-left corner of the screen will change when you've hidden successfully. Grab the **gold spider** in the corridor, then sneak up on the enemies in the next room, using the shadows. Take the **red spider** from the catwalk once they're out of the way, then open the door or shutter to the right of where you came in. Alternatively, you could try and sneak past the guards, keeping to the shadows (01), but this will be hard. Kill more enemies as you move through the corridor, using the items dotted around as weapons. Climb the boxes near the first glowing question mark to find a **secret area** and a **red spider** (02). Take the **blue spider** in an alcove in the corridor, then open the shutters at the end of it.

Kill the enemies that attack after the cut-scene, then pick up the **red spider** on top of the boxes. Go around behind the truck, jumping out of the way of the speeding forklift. Zip line up into the vent, then turn off at the junction inside. Climb out of the vent and press the button, before going back in and past where the electricity was. Head into a pair of rooms now and get rid of the enemies inside, taking a **blue spider** from the second one. Head into another vent in the wall nearby, then out at the far end and press another button. Go back through the vent now and into the previous room to find a vent cover lying on the floor. Use your zip line while standing on top of it, then kill the bad guy in the next room along. Be careful though, as he's stronger than any you've met so far. Take the **fuse** from his body and place it in the console inside the control room, before heading through the shutter you opened.

Kill the bad guys in here (03), then take the **red spider**. Head through the door that opens and you'll move on to the next level.

Level 3: Birth Of A Hero

Go up into the vents, climb out of the left one. Crawl over the ceiling, avoid detection and open the door by the question mark in the corner (01). Take the **gold spider**, then run into the question mark through the other door. Getting it without being seen is the **secret** for the level, but you may only be able to get it once. Zip line past the steam, take the **gold spider**, then fight the group of bad guys in the next room. This is tough, but there are several **red** and **blue spiders** around. Your new combo – Handspring – helps as it can hit multiple enemies (02).

Get the **key** from a fallen thug, then open the door with the flashing light. Take the **red spider**, zip line up the middle of the stairs. Go through the corridor to face Uncle Ben's Killer. Remember – the ceiling is your friend. He can't see or hit you up here if you avoid using impact webbing. You can keep track of the murderer from here and sneak up before attacking. If you attack him head-on, he'll shoot you to pieces. When he throws a grenade, get out of the way as it blinds you for a while and leaves you vulnerable (03). If your health or webbing get low, there are **red** and **blue spiders** on the ceiling, against the walls. Once you've defeated the boss, the level will be complete.

Level 4: Oscorp's Gambit

Look around for the **red** and **blue spiders** on the rooftops and ledges – you may need them later. Follow Spider-Man's instructions and use your compass (01). Go back to the roof where you started and run into the **large spider**.

After the cut-scene, target the robot, drop onto on a nearby roof and dodge its attacks until it either lands or hovers above the ground. Once it's within range, there are a number of techniques you can use to see it off, but one stands head and shoulders above the rest. Use your webbing to fire at it from a distance – it's more powerful down here than it is in the air and it's easier to land a direct hit (02).

Continue using it against the robots as they attack, but hide behind the scenery so you don't get too many swarming you at once. Should you run low on health or webbing, go after one or more of the power-ups you found earlier. The level will end after you've reduced the homicidal robots to smoking piles of scrap metal. As far as the 'Defeated HKs' objective is concerned, look for mechanical spiders crawling over one of the buildings after the second group of robots attack. Destroy them to get this bonus.

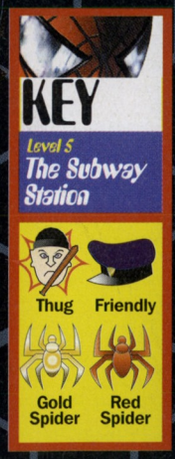

Level 5: The Subway Station

Run over to the security guard and protect him from the attacking bad guys. Concentrate on those going after him, as you can heal yourself later. Once he's safe, go up the stairs behind you, near where you started the level. Go into the door to your left and beat up a criminal (01), before moving to the next room and turning right to find one attacking a hostage. Grab the **red spider**, then go and help the guard in the large room you were just in. Go back into the main area and save the guard in the distance, ahead and to your right.

Watch the cut-scene, then run over and pick up the man with the punch button, putting him down in the circle marked by your compass. Next, head down to where the enemies are, opposite where you came in. Don't kill them yet, as there's a **gold spider** on the ceiling under the stairs they came from. Turn around now and head over to the left-hand side of the level. Go onto the short bridge opposite the escalators, then drop down to your left for another **gold spider**. Beat up the thugs chasing you, before heading down into the gate shown in the cut-scene, near where you started the level. Beat up some more bad guys here, making sure both guards survive. Once they've been dealt with, Spidey will chase the Shocker into the sewers.

Level 6: Chase Through The Sewer

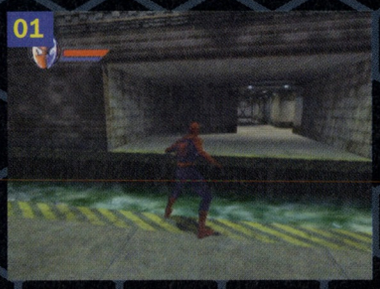

Kill the thugs in the corridor, then beat up another around the corner to your left. Take his **key** and open the door behind you, crawling along the wall to the left to get past the water. Kill the enemy who starts shooting at you, take the **red spider** next to him and cross the water (01). Beat up some thugs at the junction, before turning left and getting rid of some more in the next room. Grab the **blue spider**, then make your way down into the area below you to find some more goons. Pull a pair of switches on the ledge surrounding the room and go through the door that opens, after taking another **red spider**. Get rid of some more baddies in here then cross the water, heading to your left to see another cut-scene.

Beat up some more criminals and grab a **red spider** from the alcove, before taking out one more above the water pipe. Pick up the **gold spider** (02), then go into the corridor opposite where you came in. Get rid of the bad guys here and take the **crank** from one of them before looking around for a **red** and a **blue spider**.

Head back into the previous room now and reattach the crank under the flashing red light on the wall. Go through the pipe and kill some more enemies at the far end, climbing out and going up a ladder to find a room with a switch. Pull it, then go back through the pipe. Drop down into the water (don't worry – it's safe) and enter the door to your left (03) to get a **gold spider** inside a **secret area**.

Go through the pipe again, then start off along the corridor. Keep moving, fighting as you go and taking a **blue spider** before you reach another water-filled trench. Head along it until you come to a large room filled with enemies. Take out the ones up above you first, as they'll shoot you from a distance.

Replenish your health and webbing with the **spiders** dotted around, then go back down to ground level and finish off the rest of the thugs (04). Get rid of some more when they appear and take the **key** from one of them. That done, drop into the nearby pit and open the door to your right, pulling the switch inside. Finally, go back into the main room and through the doors on the top floor to finish the level.

USE YOUR ABILITIES

Always look for the quickest and safest route through the level. Instead of climbing a staircase, why not zip line up to the ceiling? It'll be quicker and you might avoid some traps along the way.

Level 7: Showdown With Shocker

Move down the corridors, watching your Spider Sense to avoid the Shocker's blasts. Zip line your way from alcove to alcove, as running isn't fast enough (01). Things get even tougher as you approach the Shocker himself, as his rate of fire increases. When you've nearly caught up with him, he'll run and block the corridor. Take the **red spider** when he does, then pull the switch on the left to get the train to move out of the way (02). Go up the stairs behind it, then zip line to the right and grab the **gold spider** from the water before it floats off. Go down the stairs at the end of this section, over a set of train tracks and into a small corridor to face the boss.

Lock your camera onto Shocker, then keep the platforms between you and him so he can't attack. Ambush him when he jumps down to ground level, then back off again and use the pillars to hide from him. When Shocker turns himself into a human whirlwind, get ready to pounce. After he lands, he'll be dizzy and you can use this opportunity to beat him to a bloody pulp. It's possible to attack Shocker at other times as well, but by far the easiest way to beat him is to repeat this process until he gives up. If you get low on health during the fight, there's a **red spider** in one of the corners to help you out.

SIXTH SENSE

Watch for your spider sense – when it goes off, you're in extreme danger. Look around to see where it's coming from, but don't take too long. You'll only have a short time to react before it's too late.

Level 8: Vulture's Lair

Go into the next room and climb the stairs. Zip line up to the ceiling to avoid being blown up by the grenades. Stay on the ceiling as much as you can while you climb the tower, looking out for **red spiders** and dodging more grenades (01). Look out for mines and explosive spiders attached to the walls, too. The former aren't too bad, but the latter will chase you and blow themselves up. Keep on until you see a cut-scene, then look at the ceiling. Fire a zip line when the burning log is out of the way (02), then take a **red spider** before climbing up, out of range of the fire. Enter the central area for another **red spider**, then carry on up the stairs.

When the way is blocked, move into the central section of the tower, through a hole in the wire. Zip line to the ceiling to find another one and climb out. Fall through a gap in the stairs past here for a **gold spider** (03), then continue up. Beware when the music changes, because things will get dangerous. Mines, grenades and explosive spiders are everywhere – the best way to survive is to wall-crawl and zip line up the stairs as quickly as possible. Grab any **red spiders** you come across on your way, as you're probably going to need them. Eventually, you'll come to the top and Vulture will try to get away.

Level 9: Vulture's Escapes

Chase Vulture, dodge the projectiles he fires (01). Remember to hold the web swing button to move faster, but you can't turn. Also, using your web-breaking ability (jumping mid-flight, turning in the air and then swinging again) helps you corner more quickly. Remember that the faster you complete the level and the closer you manage to get to Vulture, the more points you'll score. However, if you let the super villain get too far away from you, the level will end and you'll have to start all over again. At two points in the level, Vulture will attack a structure sitting on a nearby building – you'll have to land and web them up before they topple over onto the street below. That done, continue the chase – the level will end after a while, when Vulture realises he isn't able to lose you.

Level 10: Air Duel With Vulture

There are two **gold spiders** – the first on top of the main building, the second on the lowest ledge, five or six spaces from the top of the height meter. There are also **red** and **blue spiders** about, so keep an eye out. Vulture has two power bars – one red and one blue. The blue one shows his ability to fly, which can be knocked by kicking and firing webbing at him from the air (01). Once the bar's been reduced to nothing, Vulture lands – chase him and hit him while you can. This is the only time you can decrease his main, red power bar, so make the most of it. Knock him out of the sky several times to do enough damage to see him off for good.

Hitting him isn't enough – your dodging skills must be good too. Vulture has some attacks he hasn't used before – he chucks grenades and charges into you. Beware when he takes off after he's injured – if you're too close, you'll be knocked over (02). Once Vulture's been defeated, the level will be complete – well done on foiling the robbery!

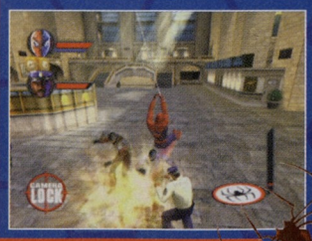

Level 11: Corralled

Whether or not you're going to complete the level will probably be determined in the first minute or so. Both you and Scorpion will be attacked by a swarm of robot spiders that have a number of weapons at their disposal (01). The most dangerous of these is a short-range flame-thrower, which will kill you or Scorpion in no time flat. Fend off the spiders attacking Scorpion, ignoring the ones after you. After all, you can increase your health with the **red spiders** dotted around the car park, but he can't. Try and stay close to him as he moves around, so you can protect him more effectively. Your web yank skill will be useful here, for pulling spiders off the wall. Tying them up works well too, as they find it hard to break free.

The cars on this level can be picked up and used as weapons (02), but be careful not to get too close to them once they land. When they do, they'll explode a few seconds later. Once all the spiders have been defeated and Scorpion is safe, the level will end.

SWING INSIDE!

Don't be afraid to use your web-swinging ability while indoors. Sometimes, a well-placed swinging kick can take out whole groups of enemies at once.

Level 12: Scorpion's Rampage

This fight isn't easy, as Scorpion is a good match in hand-to-hand combat. Also, he can fire shots from a distance, including a very powerful one when he's sitting on a wall (01). As soon as he jumps up, use your web yank to get him back down. This is a good time to strike, as he takes a second to react once he lands. Use your web gloves with this to do even more damage. You'll probably need to heal yourself during the fight – there are a few **red spiders** in the main area, but more inside the corridors, where level five ended (02).

There are some methods that can be used to defeat Scorpion – hand-to-hand combat is one. Web domes are useful when the boss is advancing, but you'll run out of webbing if you use them too often. There are items around you can attack with during the fight, too – if you stay locked onto Scorpion it'll be much easier to hit him with them. At one point, you'll want to go after the **gold spider** in the main hall (03). It's easy to spot, but only if you know what you're looking for – it's sitting on top of the pillar that the Shocker broke earlier in the game. Once Scorpion has been defeated, you'll be free to move on to the next level.

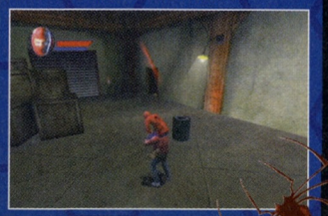

HA HA... SURPRISE!

If there's only one enemy in the area, the best way to get rid of him is to jump and hold down the button, landing on his shoulders. You can pummel him into submission from here.

pieces, though punches will also work. The boss has one main attack – firing rockets at you. These can be destroyed with webbing, but it's better to avoid them altogether.

After a while, the Goblin will fly off – chase him down and grab a **red spider** floating in mid air on the way to a tower, which he'll attack. Land on the roof and use your webbing to repair the struts (02), then continue to fight your arch-nemesis. There are also some **blue** and **red spiders** on this building, should you need them. Once the boss has been damaged enough, he'll fly off again – chase after him!

Land on one of the small platforms that is attached to the bridge that the Green Goblin tries to destroy. Repair it with your webbing, just like you did on the tower.

You might also want to fire some shots at the rockets the Goblin launches at you, so you don't get knocked off the ledge. After all, it's hard enough to land on it in the first place. Once the bridge is repaired, start swinging again and attack the boss with everything you've got – feel free to use what's left of your webbing, as you won't need it again. The Goblin will run away once more now, into a large, open area. Fight him again and he'll try to get away, leading you to the next level.

Level 13: Coup D'etat

Start the level by rescuing Mary Jane from the top of the giant balloon. Web swing down to it, pick her up with the punch button and drop her off on the roof, marked by your compass (01). Watch the resulting cut-scene, grab a **gold spider** on top of the building you left Mary Jane on, then go after the Green Goblin. Avoid using your webbing on him, as **blue spiders** are hard to come by. Besides, you'll need it for something important later on. Instead, concentrate on kicking him to

Level 14: The Offer

Fight the Green Goblin, just as before. Save your webbing and use punches and kicks (01) – you'll need it later and blue spiders are scarce. Once the Goblin's blue power bar is depleted, his glider will be damaged and he'll escape into a nearby building. Grab a **red spider** or two from the roofs if you're low on health, then go after him. This is tricky – the Green Goblin has lots of ranged attacks and is a demon in hand-to-hand combat. The best way to hurt him is to use your web dome as he approaches. Or, you could use impact webbing, but he'll dodge some of it. Get the **gold spider** on the floor when you can. Don't be afraid to leave the building to find **red spiders** if you use up all those inside, as the boss won't follow. Don't take too long doing this though, or he'll get bored and run away. Once the Goblin's taken enough damage, he'll take flight once more. Start web swinging and fight him again, just as you did earlier. You could also try to get the 'ride goblin' bonus here, by jumping and holding down the button, landing on his glider (02). If you manage it, hammer the punch button to give him a good hiding. The Goblin will run off into a second building when his glider becomes damaged, so heal yourself up with **red spiders** before following him inside. Down here, you'll need to avoid the electricity-spitting pylons while you fight (03). Use different tactics this time around – stay a good distance away from him and dodge his grenades, while firing your impact webbing. Both **red** and **blue spiders** can be found on the ceiling, so use them when you get low on either health or webbing. Once the Green Goblin's power bar is empty, the level will be complete.

Level 15: Race Against Time

This level is tough – the time limits for disarming the bombs are tight and your web swinging must be spot-on if you want to reach them in time. Swing forward, following the compass and height meter to the first bomb (01). Avoid flying through the spotlights, this makes more robots attack. Also, hold the web swing button while in the air, as this increases speed. Land next to the bomb on the first roof and tie up the enemy above you if you have time. Use the punch button to defuse the bomb, then go to the right. Move around the left side of the building in front of you and increase your height. Land halfway along the side of the building, on the ledge, grab a **red spider** before defusing the bomb between the towers (02). Take a **blue spider** if you need to, then swing straight ahead again. Decrease your height as you approach the next bomb and try to land beside it. Defuse it, then turn round and go to your next target. Avoid the spotlights and mechs as you go – there are plenty here. Defuse this chain of three bombs as fast as you can (03) – you won't have time to stop and web up any robots. Be careful with the final bomb, as sometimes a spotlight is centred on top of it. If so, you'll have to wait a second or two for it to move on.

Swing off as soon as you can to get away from the mechs, then move towards your final target. The time limit won't be such a problem here – it's the enemies attacking you and the large number of spotlights scanning the sky that will cause you concern (04). You're probably low on health by now, so give the mechs and lights a wide berth as you head towards the bomb in the distance. Land right next to it and defuse it to finish the level.

Level 16: The Razor's Edge

This level is fairly easy. There are very few power-ups, but you shouldn't need them. Fight off the razorbats by locking on, swinging at them and launching a kick (01). If you line yourself up right, you can take out several at once. It may also be an idea to jump, breaking your web, and attack with punch or kick. This launches a homing attack that takes out one of the bats if you're close enough. Keep fighting until you've destroyed a total of 50 bats. At this point, the end of the level will appear on your compass. Head over to this point and touch the **large spider** in the alcove to complete it (02).

Alternatively, you may want to spend a little longer fighting the razorbats – if you get rid of more than you have to (we're not sure how many, exactly), you'll score bonus points at the end of the mission.

Level 17: Breaking and Entering

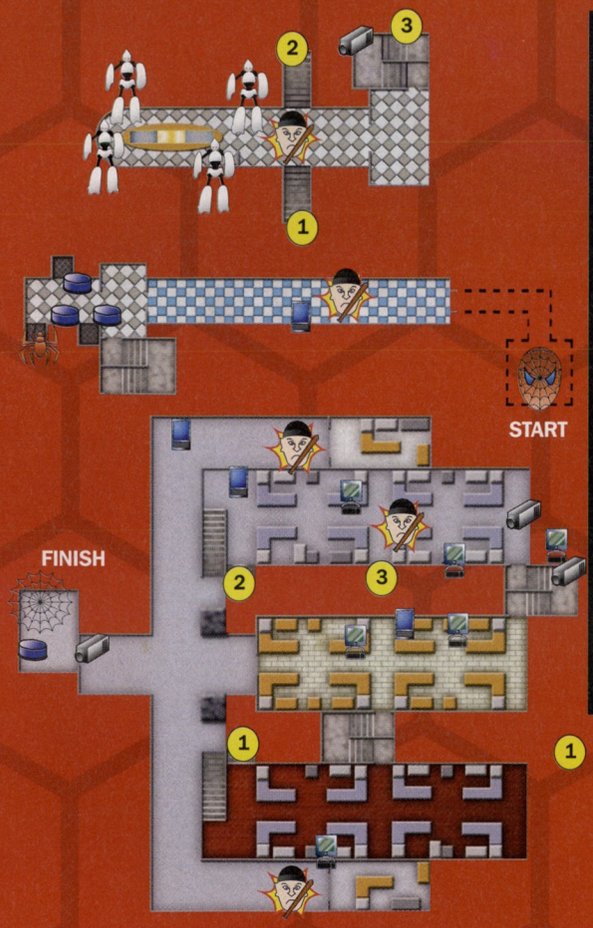

Run through the vent and watch the cut-scene, then zip line to the ceiling. Crawl past the guard below, then open the door at the end of the corridor when he's not looking. Dodge into the lift lobby to complete a nonsensical **'secret'**. Press the button to the right of where you came in, then one opposite it on the left-hand side, and a third by that. The three lifts should open (01). Take the **red spider** in the final lift, then go back to the previous room and through the door behind the camera. Zip to the ceiling, then open the door at the top of the stairs.

Watch the cut-scene, move into the room and zip line to the ceiling. Cross it, staying in the shadows as much as you can and go down to the **gold spider** (02). Look for a computer that's switched on, then tie up the guards before using it. Go through the door opposite where you found the gold spider. Climb the stairs and open the door, dodging the camera inside. Tie up the guard and use two computers. Be careful though, as he breaks free soon after you've finished with the first machine. Tie him up again before you activate the second PC.

Go out of the door at the end of the room and hop onto the ceiling, turn right and move into similar room. Make use of two more computers, then go back into the raised corridor at the end of the room. Turn right, towards the blast doors, dodging the camera protecting them. Go inside and use the panel – you'll need to enter the pieces of code here that you found on the computers. The blue piece goes on the left and the red piece with the circles goes on the right. In between, you'll have to place the pieces so that the colour changes gradually from blue to red. Once you've entered the code correctly, the level will be complete.

Open the door using the panel, zip line onto the ceiling outside. Turn right and go down the left turning at the junction. Go past the **red spider** on the ground into the door on the left, dodging the guard. Zip line past the lasers here, stopping before you reach the camera. Move up onto the right wall now and thread your way through the laser beams (01). If you need to switch walls to get the **red spider**, zip line between them. Move onto the ceiling again when you pass them, then turn left at the junction. Go into the door at the end of the corridor and watch the cut-scene, listening carefully to what's said.

Press the button in here, then go back into the corridor and onto the ceiling again. Drop in front of the door near the junction, then press a second button inside. Back in the corridor, go into the glass door between the control rooms. Go through this room to see another cut-scene. Use the control panel with the letters 'A' and 'B' above it (02), then take the **blue spider** before going back out into the corridor.

Go left and take the **gold spider** on the ceiling above the door, left at the junction. Go through the door, watching for a patrolling guard. Zip line across to the shelves on the far side of the room, avoiding the lasers and cameras. Take a **blue spider** if you need one, then zip line down to the door, avoiding the camera above it. Go through this room, grab the **red spider** and open the door on the far side with the flashing panel next to it. Zip line through the lasers when a gap appears, then get rid of the guard in the back corridor, near another **red spider**. This is the best place to ambush him, as there are no alarms. Head into the room opposite the one marked with a 'D' for another **gold spider**, before going back into the corridor. Flick the switch in room C, then try the door to room D to see a cut-scene.

Zip line up to the ceiling to avoid being spotted, then watch another cut-scene and splat Dr Rue with your impact webbing when the robot's out of sight. Take the key the scientist dropped, then enter room D and flick the switch. That done, head back through the lasers at the start of this area, zip lining past them. Make your way back to the central chamber now, where you had a choice of control panels earlier in the level. Use the one marked with a 'C' and a 'D' to complete it.

Level 19: Oscorp's Ultimate Weapon

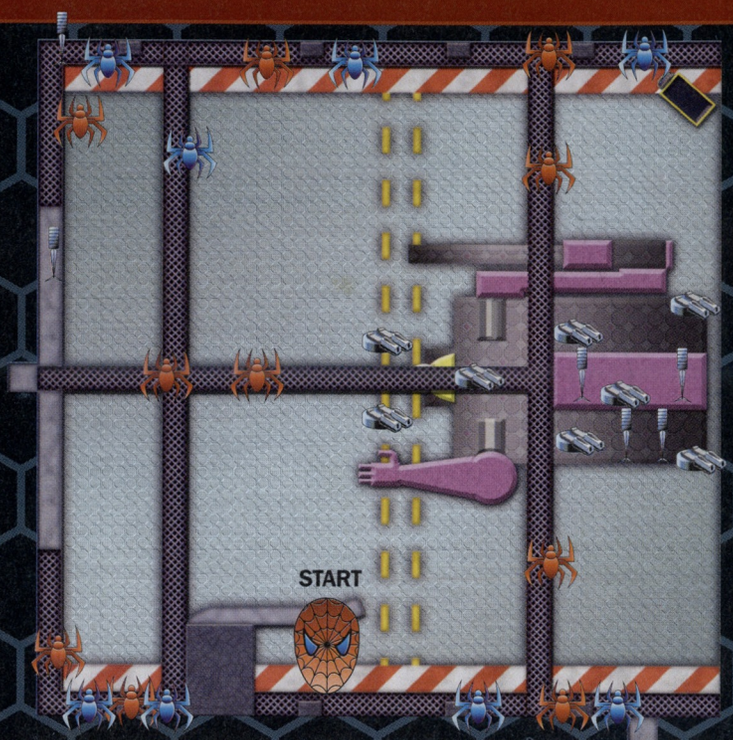

There are lots of **red** and **blue spiders** on this level – in the corners furthest from the mech and under the gantry near the ceiling (01). These are safer to get, as if you stray too far from the boss he'll fire a cannon at you. He's pretty accurate and two hits can kill you, even if you're at full health. You need to keep close enough so as not to be hit by the cannon (02) and far enough away so that the turrets keep missing you. Your first job here is to destroy the shield generators. Do so from the air, using your webbing. You *can* land and kick them to pieces, but you'll take too much damage for it to be a real option. You'll lose more than half a health bar destroying just one of them and will need to heal yourself immediately afterwards. Another tactic is to fire webbing at the generators from up on the gantry. You'll be safer still up here, but hitting your target might prove difficult. Regardless of which method you choose, try to avoid fighting the small, flying robots as much as possible – if you destroy one, another will take its place. Once all the generators have been destroyed, the boss itself will be vulnerable. You must swing towards it and land on its neck, where the shield was before. A few well-placed punches and kicks will make it explode, creating a hole in the wall for you to escape through.

Turn down the corridor to your left, go all the way to the end and into a small room. Destroy the super soldier inside, then use the large computer in the corner (01). That done, head out into the corridor again, following it all the way along to an identical room at the far end, on the opposite side of the level. Tie up or kill the super soldier inside, then use the large computer to turn off the gun turrets.

As a whole, it is probably best to run rather than fight in this level, unless you're going for the 'super soldiers killed' bonus – they're just too powerful to take on effectively. Also, make sure you keep an eye out for the **red** and **blue spiders** dotted about the place. There are plenty around, including a number inside the office cubicles (02). You shouldn't have too much trouble health-wise, unless you get stuck in the corner with a large group of robots.

Head into the large room next to the one you're in and go down to the far end of it. Press the button on the right-hand wall, then enter the door behind you. Drop down past the stairs and open the next door, before tying up a super soldier on the far side. Press the button on the wall and wait for the door to open, then swing as fast as you can down to the far end of the corridor, past more waiting bad guys (03). When you get close enough to the vent, the level will be complete.

GREEN GOBLIN THE EASY WAY

When the Green Goblin is unlocked by completing Hero difficulty, it gives the game a whole new lease of life. His controls are completely different, and the way in which you play the game can change dramatically. However, it's tough to unlock him by normal means, so here's a quick and easy way to do so:

1 .....Enter the 'ARACHNID' code in the Cheat menu.
2 .....Start a new game on either Hero or Super Hero difficulty.
3 .....Go back to the main menu and select 'Conclusion' from the Level Warp screen.
4 .....After the end sequence, select the Green Goblin from the Secret Store, start a new game and choose not to reset your bonus points.

Level 21: Mary Jane Kidnapped

There's not much that can be said about this level, apart from that it's like 'Vulture Escapes'. Chase the Green Goblin, making sure he doesn't get too far away (01). Dodge the mines he leaves behind by staying slightly to one side of his path. Don't get too close to him, or you won't be able to dodge them.

You may not be able to keep up with the Goblin, so why not cheat? There are several points where he flies around a building, making a U-turn. Instead of following him all the way around, learn where he does this and cut him off. You'll make up quite a bit of time this way (02). Avoid breaking your web by jumping during this level as it will really slow you down. After a certain amount of time, the Green Goblin will fly off again, leading you to the final level of the game.

CHILLOUT

Level 22: Face-Off At The Bridge

Start by swinging straight in front of you and pick up Mary Jane from the platform, using the punch button (01). Turn around and jump off the bridge now, heading towards the target near the police barricade. Drop her off by pressing punch again, then get ready to fight. Swing-kick the Green Goblin and dive at him by jumping nearby, then pressing either punch or kick. His blue power bar will deplete rapidly this time around and he'll be forced to land. When he does, avoid being dragged into hand-to-hand combat, as this is where he's strongest. Be sure to watch out for his glider as well – it will ram and shoot you of its own accord.

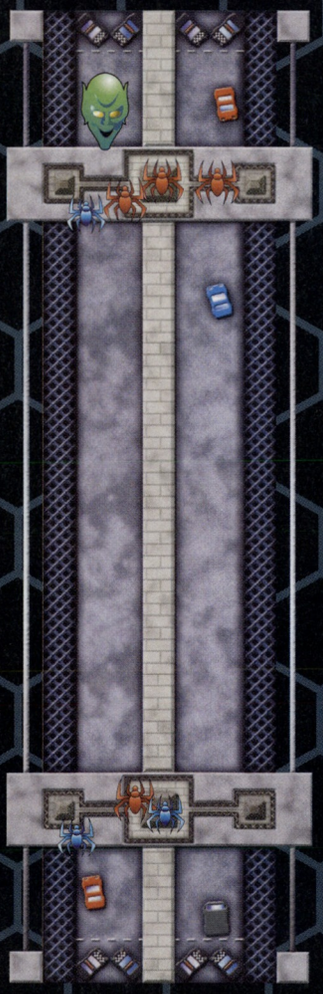

Once the Goblin's grounded, attack from a distance, either by throwing cars or firing impact webbing. This shouldn't be too hard, as his grenades are fairly easy to avoid from this far away. Alternatively, you could stay in the air and launch kicks at him as you swing by. The boss will jump back onto his glider every so often and you'll have to knock him to the ground again (02). If you get low on health, there are several **red spiders** dotted around the bridge, including one near where you rescued Mary Jane and another on a similar platform, on the other side of the level. Just keep plugging away and you should be able to defeat the Green Goblin – you've fought him often enough before, after all. Now that you've finished the game, do as Spidey says – go outside and play!

"EXCELLENT GAME WITH SLO-MO KILLING"

P2#30 is out now, and available from most good newsagents

PowerStation SECRETS

BONUS LEVEL

Complete the game on the 'New York Minute' difficulty setting to unlock a new bonus level where you have to kill lots of enemies in bullet time.

PowerStation CHEATS

INFINITE HEALTH
Pause the game, then press L1 x2, L2 x2, R1 x2, R2 x2.

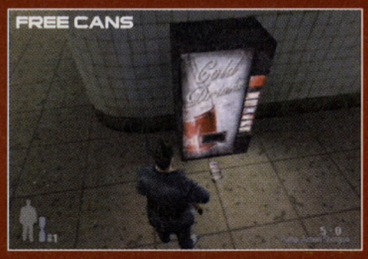

ALL WEAPONS
Pause the game, then press L1, L2, R1, R2, △, ○, ✕, □. This also gives you full ammo and eight Painkillers.

LEVEL SELECT
Press Select during the game to return to the main menu, then enter ↑, ↓, ←, →, ↑, ←, ↓, ○. Note: This cheat only works once you've completed Chapter 1 of Part 1.

FREE CANS

LOCATION: .....Part 1, Chapter 1

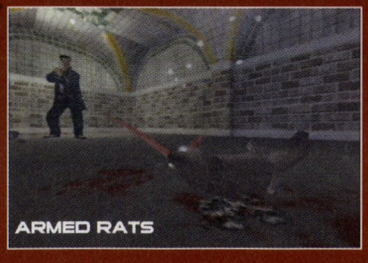

You can get several cans out of the vending machine in this level, just before the start of 'So Much For Being Subtle'. Press ✕ whilst close to the machine to make it spit them out. When it stops giving you drinks, you can always smash it.

ARMED RATS!

LOCATION: .....Part 1, Chapter 2

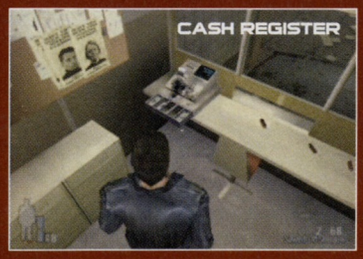

Cheat yourself a grenade with the 'All weapons' code and throw it into the hole in the wall at the start of the level. A little further on, after you kill several guards on a platform, go up the stairs to find a group of rats... carrying pistols! Be careful, as they'll try to kill you – and being so small, they're difficult to hit. There's no real reason to activate this secret (it gets you shot at a lot more), apart from the fun of it.

SHUT IT UP

LOCATION: .....Part 1, Chapter 2

Shoot the siren overhead in the central bank vault to shut it off – Max will even show his appreciation for your actions.

CASH REGISTER

LOCATION: .....Part 1, Chapter 2

You can shoot the cash register in the ticket booth at the start of 'Stepping On Toes' to get it to open – trying to use it normally will just result in a loud beeping noise.

SECRET ROOM

LOCATION: .....Part 1, Chapter 3

Past Rico Muerte's room and beside the sofa at the end of the corridor, you'll find a boarded-up door. Smash your way through it, then go out of one of the windows, onto the bloodstained ledge. Turn right and walk along it, then break through the boarded-up window. You'll find a reference to *Buffy The Vampire Slayer* here (a mobster with a wooden stake in his back and 'Buff' written in blood on the floor), as well as Painkillers, Molotov Cocktails and various types of ammo.

PLAY GAMES

LOCATION: .....Part 1, Chapter 4

You can use some of the machines and games in the club, such as the one-armed bandits and the roulette table.

ELEVATOR MUSIC

LOCATION: .....Part 1, Chapter 6

Shoot the speaker mounted on the ceiling of the lift inside Luigi's Laundry to get a "thank you" from Max.

SECRET ROOM

LOCATION: .....Part 1, Chapter 6

After you jump out of the window from toilet-man's room, turn left and go to the wall at the far end of the roof. Turn left again here and jump through a second window, into an apartment plastered with *Soldier Of Fortune II* posters and a large number of Pump-Action Shotguns lying around.

NE

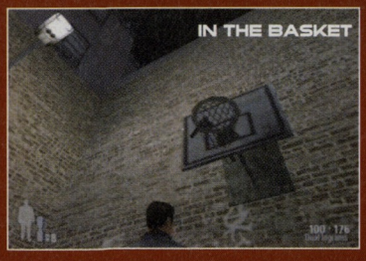

WANT TO SEE MORE?

For the complete *Max Payne* solution, you can buy PowerStation 72 by phoning 01454 642 442

IN THE BASKET

LOCATION: .....Part 1, Chapter 7

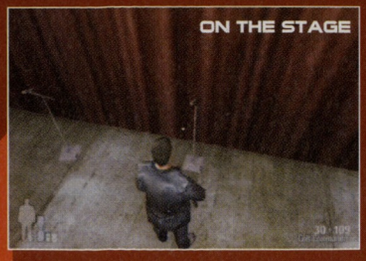

On the basketball court at the start of 'Ice Hard And Slick', you can find a Beretta hidden up inside the net.

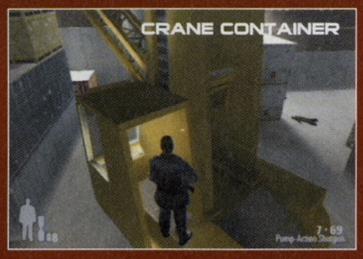

ON THE STAGE

LOCATION: .....Part 1, Chapter 8

The stage area in 'An Empire Of Evil' has a number of interesting things hidden around. Stepping on the guitar lying on the floor will make a noise and Max can use the drums and microphones sitting on the stage as well. But that's not all – the pyro control console next to the one that operates the board at the back of the stage will set some fireworks off for you to see.

CRANE CONTAINER

LOCATION: .....Part 2, Chapter 2

When you reach the crane, climb up to the control booth and jump onto the thin, open door to your left. Jump onto the roof of the control booth from here, then again onto the crane's arm. Go up a short way, then jump onto the nearest container to your left. One of the containers sitting here will be open and contains some Grenades, ammo and Molotov Cocktails.

WHEEL TURN

LOCATION: .....Part 2, Chapter 3

When on the bridge of the Charon, you can turn the ship's wheel. It doesn't serve any real purpose, but it's a nice added touch to the game.

PLAY PIANO

LOCATION: .....Part 2, Chapter 5

The grand piano is in full working order and you can play a little tune. If you shoot the pole holding up the lid, you'll break the piano and it'll need some serious repair before anyone can play Chopsticks again.

SPRAY CANS

LOCATION: .....Part 3, Chapter 1

As you know, you are able to get free cans from the vending machines, but unfortunately Max doesn't like fizzy drinks. Instead you can blast the cans and watch them spray their contents all over the floor.

SECRET ROOM

LOCATION: .....Part 3, Chapter 4

Climb the barrels at the ramp leading down from the roof of the car park, then jump up to the roof via the nearby air conditioner. Turn a little to the right here and shoot out the metal panel that's a slightly different colour to the others. Go through and drop through the grille in the floor to find a room with a Sniper Rifle, Ammo and a radio with audio from the game's production team.

MAKE IT SO

LOCATION: .....Part 3, Chapter 5

In the office, shoot the small picture on the wall, next to the cabinet with the Painkillers, Desert Eagle and Ammo inside. Press the button behind it when it falls down, then go down the hole that opens up under a sofa. Use the keypad by the door down here, then turn left inside and open the cupboard to see something... interesting. If you turn around into the previous room and turn on the TV, you'll be treated to a sequence where the developers take off *Star Trek*.

PICTURE SWITCH

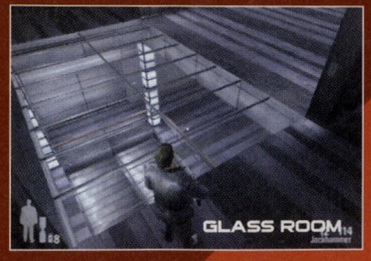

LOCATION: .....Part 3, Chapter 6

Use the laptop on the table at the start of 'Clean Up Duty' to change the picture on the large screen at the front of the room.

GLASS FLOOR

LOCATION: .....Part 3, Chapter 8

In the office where Nicole runs away, there's a button on one of the pillars, on the right-hand side of the room as you face the desk. Press it and a window in the floor will open, letting you see the room below. Don't worry, though – it's safe to walk on.

PLAY COMMENT

"THE HARRY POTTER WORLD IS CAPTURED EXTREMELY WELL"

PLAY#*99 is out now, and available from most good newsagents

QUIDDITCH

After leaving Herbology, you'll meet an owl that drops a letter. Read it, and go to Quidditch practice by taking the right-hand corridor as you come out of the Herbology room. Follow the owl to the practice pitch and complete the simple test. Keep ⊗ pressed down to go as fast as you can, and it should be easy to get your gold wings and 25 house points into the bargain (01). It's advisable to continue your training, as there are gold wings and extra house points available for good scores, which will come in handy later (02). The best way to steer your broomstick is with subtle movements of the d-pad to line yourself up. Veering wildly from side to side costs time, so being gentle with the controls pays dividends. Once you've done enough training, leave and head off for duelling practice.

Complete the simple challenge.

SICKLY RON

When Ron is ill, keep close as he runs for help. If you fall back, you'll lose him and must start over. When you reach Hagrid, you'll find a game like the one at the start with the ghoul. Move the bowl under the worms Ron belches out, then empty it. It's best to do this is after catching a slug to the left of Ron, as you'll waste less time (01). You don't have to wait until the bowl is full to empty it either. Once this gruesome task is done, it is time for Defence Against The Dark Arts class!

Stick with Ron when he gets ill!

DUELLING PRACTICE

As before, the best technique you can use here is to stand at the front of the court to fire your shot, and then run back in order to dodge your opponent's efforts (01). It's quite simple when you know how, isn't it!

Use the same technique as before.

GODRIC GRYFFINDOR

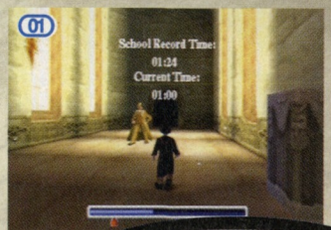

You will be awarded this founder Witches and Wizards card for winning all the house shields and cups. To do so, you need to get to Herbology and Defence Against The Dark Arts in record time, and score an A grade in each exam.

Complete the button-pressing task.

DEFENCE AGAINST THE DARK ARTS

Follow Hermione, to the lesson. Before going in, there's a Wizard card you might want [☞ Jocunda Sykes]. Take on the assault course that you are faced with in record time to get the dark arts race card. You don't have to be that fast – wait and see where the next platform appears rather than trying to guess and risk messing up (01). Get to the lesson, and you have a button-pressing task like in Herbology (02). As before, get a grade A to get the Defence Against The Dark Arts Cup – if you've won other cups (two from Herbology, one from getting to Defence Against The Dark Arts) a Founder Wizard and Witches card will be in the common room! [☞ Godric Gryffindor]

JOCUNDA SYKES

Right of the door to the Defence Against The Dark Arts class is a secret bookcase (the one at the foot of the stairs). Go through and push the two columns near to each other. Climb to the top using the pillars and the tables and go through the door to find the card on the roof.

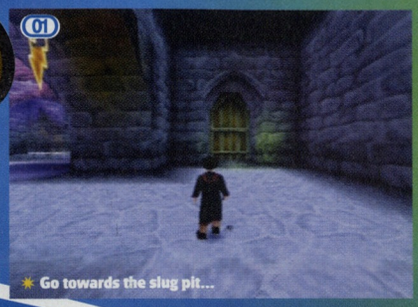

CATCHING PIXIES

Catch the pixie by charging up your wand, and then stun him. Then use levitation to get the little blighter into the cage. That done, follow Ron upstairs for some Every Flavour Beans and a health potion. In the next room there are two more pixies – you need to be quick in order to get them both into the cage at the same time, otherwise they recover and escape before you can close it. The best method is to stand close to the cage and stun both pixies before levitating them into the cage one at a time (01). Once you have accomplished that, slide down the polished floor in the next room to face three pixies. It is best to concentrate on these one at a time, stunning one and then levitating it into the cage. When all three are dealt with, slide down another corridor to finish this section. You'll be awarded more house points, and a count will be taken to see who is in the lead as far as house points are concerned. If you've followed this guide closely, Gryffindor should be in the lead by a distance! There's also a Wizard card nearby if you are interested [☞ Bertie Bott]

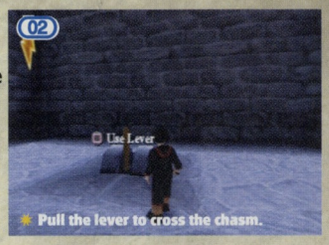

BERTIE BOTT

Between the front hall and Professor Lockhart's office, there is a yellowing portrait above a bookcase. Press ⊙ in order to swing the bookcase round. In the area behind it, you'll find loads of beans – follow it all the way to the end to find the card as well!

NEARLY HEADLESS NICK'S DEATHDAY PARTY

After the deathday invite, you find yourself outside the common room. Go in to collect the card you won earlier and you'll also get the chance to buy five new witches and Wizards cards for 50 Every Flavour Beans each – you should have more than enough by now! [☞ Five Witches and Wizards] That done, return to Nearly Headless Nick and follow him to the dungeons. Inside, kill the knight who attacks – you'll need to hit him twice with a fully charged up Incendio in order to kill him – and go through the door to the right of the chasm to reach the slug pit (01). Inside, fire as many shots as you can from the safety of the doorway, then move into the room (careful as the floor is slippery) and finish off the other slugs. Go through into the storeroom and kill the snails for some Every Flavour Beans. Enter the lever room and pull the switch (02). A platform appears, allowing you to cross the previously uncrossable chasm. Some Every Flavour Beans also appear, so you should grab them as well. Return to the slug pit again and take the door directly opposite you as you enter to pull another lever and get more Every Flavour Beans. Leave the slug pit and return to the dungeon pit. Use the platforms to jump over to the left-hand ledge, then drink the health potion if you need it, and grab the Every Flavour Beans. Use the other platform to reach the far end of the room, where you can join the party. When Peeves steals the present, charge up Flipendo and try to hit the little swine as soon as he appears. If he throws any food at you, shoot it down before it hits you otherwise you'll lose energy.

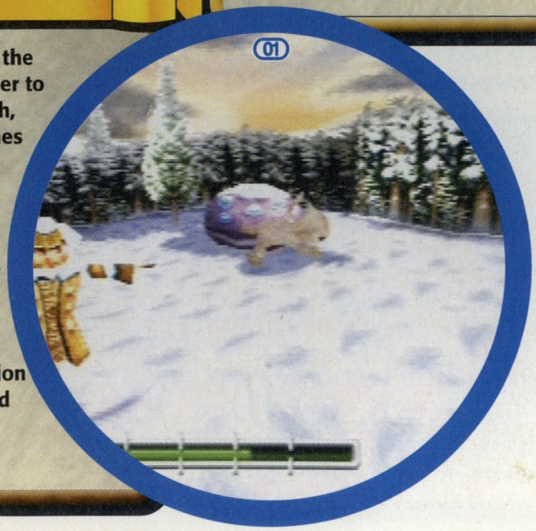

EDGAR STROULGAR

Muster up a score of over 800 when degnoming Hagrid's garden and he'll reward you with this card!

POTION MIXING

Once the potion class starts, simply hit the buttons in the order they appear in order to start the cauldron. Once that's over with, Hagrid asks you to rid him of the gnomes in his pumpkin patch (01). As before, hitting targets scores you points. The scarecrow is worth 200 points, the large upturned wooden barrel is worth 150, the purple mushroom is worth 100 points and the bird table is worth 250. The bird table is the hardest to hit, as you need to aim spot on and use only a fraction more power than the minimum Harry can throw (where the bar turns from orange to green) There's a wizard card up for grabs in this section too [☞ Edgar Stroulgar] Set a decent score and Hagrid will give you the boomslang skin you need, before sending you off to play Quidditch.

FIVE WITCHES & WIZARDS

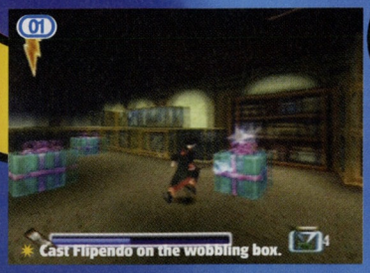

It's your lucky day! For 50 Every Flavour Beans each, you can buy Ignatia Wildsmith, Greta Catchlove, Chauncey Oldridge, Herpo the Foul and Paracelsus! If you don't have enough for them all, you can get more from the common room whenever you have got enough Beans, by talking to the boys there.

QUIDDITCH MATCH

Follow Malfoy and barge him whenever the message to do so appears. Keep ⊗ held down for the most part, but be careful during the sections where you dip beneath the stands (01). After you've barged Malfoy a few times you will get to chase the snitch and grab it for yourself. Provided you did all the training earlier, this shouldn't prove too tricky. Once done, it is off to Diagon Alley

It's time to beat Malfoy!

ADALBERT WAFFLING

After Ron tells you that Hogwarts is like a maze, go through the secret bookcase on the right. Kill the two knights and go through the door, then use the floating platform to reach the high ledge. Follow it all the way round to the end to get the card!

BACK AT HOGWARTS

After talking to Hermione, follow Ron until he says to meet at the common room later. There is a wizard card nearby [☞ Adalbert Waffling] Go through the door after this conversation, but don't follow the carpet – head straight on into the knight's room. Get the Every Flavour Beans from the first room, then do the same in the second – but look out for the knights who attack if you're too slow. There's a wizard card to collect [☞ Harry Potter] Head back out and follow the carpet again. You'll bump into Ron, so follow him to the front hall. Go down the stairs and talk to the other pupils, then enter the great hall and duel with Malfoy (01). The best way to beat him is to hide behind the candles and use the special charms that pop out when his shots hit them. Once he's beaten, you'll be up against a serpent, and this time there are no candles to hide behind. However, it is a slow opponent. After it has slithered into position, start charging up Flipendo. As the creature pulls itself up to its full height, release your spell and move out of the path of any counter attack. It shouldn't take much of this before the creature can be beaten.

DIAGON ALLEY

After confronting Malfoy, enter the Apothecary's shop to find pixies running amok. This is like facing Peeves – you need a quick trigger finger to get the pixies in the time limit. They appear from both sides of the table, so aim in the middle to target them quickly when they appear. The Apothecary rewards you with some leeches. Cross the street to the Magical Menagerie, to catch the lace flies. Look for a wobbling box – the flies often start on the far right of the lower floor. When you see it wobble, cast Flipendo and the flies will leave it (01). You can now target a fly and cast Flipendo again. Follow the flies to see which box they go in. You should see which floor they go to (they hide in the same box). This shouldn't take long, but if you fire too often at the wrong boxes you must start again. Take it slow and steady; there is plenty of time to catch them all. Do it right and you get a fly to keep. Leave the shop, go left to meet Hagrid and return to Hogwarts.

SLYTHERIN SECRETS

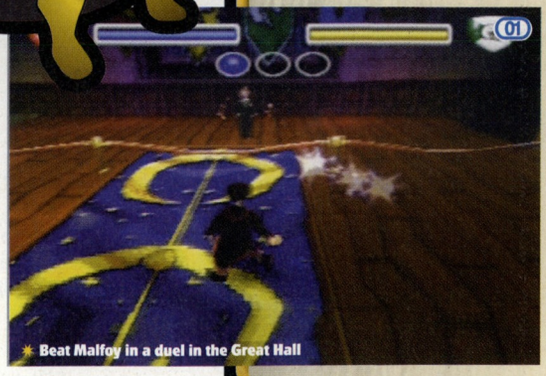

After the fuss about whether Harry is the heir of Slytherin, your spell is cast with Hermione and Ron. Follow the Slytherin through the door, keep close or you won't be able to get into the common room (01). The path is slippery so be careful on tight bends – pointing the d-pad backwards slows you down at tricky points. Once you've completed this, you enter the girls' loos where a ghost throws things at you (not again!) This is like the previous mini-games, but tougher. Keep your aim high to block the toilet brushes that are thrown, and have a few pops at the ghost in between efforts. (02)

CASSANDRA VABLATSKY

In the knights room, go through the bookcase beneath the portrait. Go through the door at the top of the stairs. Climb along and up to the pressure pad then return to the ledge with the bubbles and use them to reach the next pressure pad. Put the plant on the pad to reveal the card!

GASPARD SHINGLETON

By the east wing and the hall is a grey wall. Go through, Flipendo pillar to the left. Kill rats, Flipendo it to right. Kill knights (hit one with the shield when he puts out his arms). In room pull lever. Hit pillar in room and climb up, stay on till it reforms, jump to moving platform, then get the card.

CRISPIN CRONK

Crispin Cronk can be won by scoring an A grade on Verdimillious Duo. Wizard!

LEARNING VERDIMILLIOUS DUO

After you have been summoned to a lesson by Gilderoy Lockhart, you might want to take the opportunity to grab a hidden card before going [☞ Harry Potter] When you are ready, follow the carpet to Lower Hogwarts, then take a right turn into Lockhart's office (you'll find out Hermione was turned into a cat as you wait to enter the office). You'll reach a room with a high ledge – take a right turn into Lockhart's actual office and follow the instructions to learn Verdimillious Duo [☞ Crispin Cronk]. Once you have the new spell, cast it in the room with the high ledge to reveal some hidden platforms. Use them to reach the ledge and go through the door. Collect the Every Flavour Beans on the next floor and go through the far door to meet Gilderoy Lockhart again and get some extra house points for your troubles. Once you have learnt Verdimillious Duo, you can also try for another wizard card [☞ Montague Knightley]

HARRY POTTER

In the library, there is a secret bookshelf near the area where you found Hermione earlier. Go through it to find a new area, with ANOTHER secret bookcase off to the left. The card is in here, suspended in the air. Fire Flipendo at it to bring it to the ground, then grab it!

MONTAGUE KNIGHTLEY

Down from the common room is a bookcase. Talk to portrait and pull the lever. Upstairs talk to knight's portrait. Use the bubbles and cauldrons to get to the door. Follow the path and jump to platform and door. Go through door by bookcase. Verdimillious Duo to cross the gap, the card is behind the bookcase

ESCAPE CUPID

Hurry to escape from Gilderoy Lockhart's cupids. It seems to go on forever, but try zigzagging gently to avoid their arrows (01). Enter the room at the end where Harry uncovers the diary and see a long story section where you'll learn who opened the Chamber of Secrets 50 years ago.

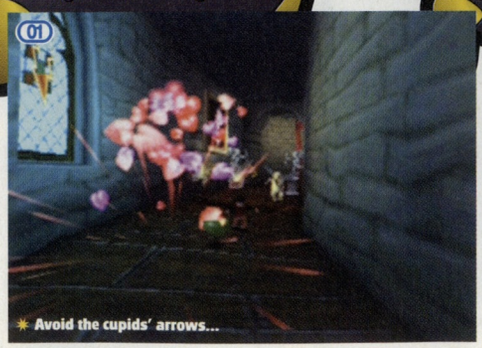

After this, charm the plant onto the pressure pad and go to the next area. Grab the Every Flavour Beans and go through the door. Run past the gap in the hedge to the far wall and pull yourself up onto the hedge so that you can't be seen. You'll know if the guard is nearby, as you'll see the light from his lantern – once that goes, he has turned away and you can run past the gap in safety. Jump across to the power-up for your invisibility cloak, then run round and levitate the plant onto the pressure pad. Run through the opened gate. If your invisibility starts to wear off, make sure you're behind the old man, so he can't see you, and wait for a chance to make it to the gate.

On the other side, grab the invisibility power-up and run past another guard to the hedge. Pull yourself up onto the battlements and follow them to the end, where you can jump to a section with a pressure pad. Levitate the plant onto the pad, and return to the battlements until you reach a point where you can jump on to the large tree stump (02) to access the newly unlocked door. In the next section, walk round to the power-up, then sprint round and to the right to reach the pressure pad which will unlock the door.

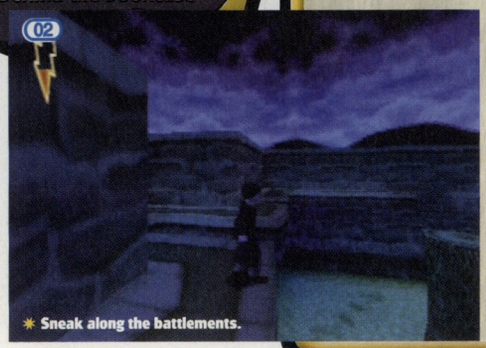

Run to the hedge near the door and climb onto it. Wait for the guard to pass, then run and jump to the door and get through quickly, before the guard sees you.

In the next section, sneak behind the first guard and climb onto the hedge. When both guards are looking away, run and jump into the area to their left, where you will find the pressure pad for the door. After levitating the plant onto the pad (03), climb onto the hedge at the entrance of that area. It gives a good view of the open space between you and the power-up. Look out for the moment when both guards aren't looking – you'll see their light turn away even if you can't see them – then take a running jump and grab the power-up. Once you have it, head over to the door and go through to the next area.

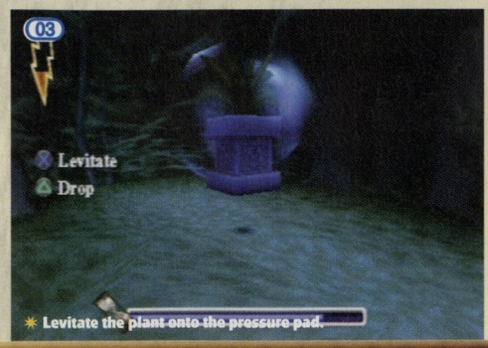

Keep using △ to look around corners here, and climb onto the hedge near the start. Jump across to the invisibility power-up and run through. Go left to reach an area with a pressure pad. This is a timed pad; step on it and you have until the blue bar reaches zero to get to the door. When you step on the pad, you'll see the camera cuts across to the gate. If you see the guard walking away from the gate during this cut-scene it is time to run for it – if the guard is walking towards the gate, or is not in shot at all, then stay put, let the timer run down and then stand on the pad again.

✳ Avoid the cupids' arrows...

✳ Sneak along the battlements.

✳ Levitate the plant onto the pressure pad.

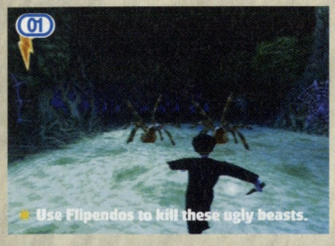

FOLLOW THE SPIDERS

Through the gate, you'll see that the spider is walking in a certain direction. Follow it and kill the giant snails en route, but stop at the chasm. Cast Verdimillious Duo so you can see the ledge and use it to get across the gap. Follow the path, until you reach the big spider. Don't panic though, as three or four hits with a fully charged Flipendo will get rid of it. Cast Flipendo a couple of times on the web to access the next area (don't forget the chocolate frogs first!) Here you will face two spiders (01). Lock onto them one at a time using R1 and cast fully charged Flipendos at them until they die. As long as you keep moving and don't get too close, you shouldn't take any serious punishment. Again, casting a couple of Flipendos at the web will grant you access to the next area.

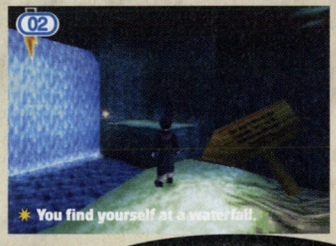

Kill the snails along the path, and you will emerge at a waterfall. Read the sign, and stand at the spot it points to before turning to face the waterfall (02). You should see that it is possible to cast Verdimillious Duo from the spot next to the sign, then run round and jump across the newly revealed platforms to enter the next section.

Here you face another large spider – you know the drill by now. Grab the frogs and blast the web away, then go through. Cast Verdimillious Duo again to reveal the bridge and cross it. There is a wizard card nearby! [☞ Albus Dumbledore] Once you have it, head left along the ledge, killing the snail. When you reach the two bridges, cast Verdimillious Duo on BOTH then cross them – you'll need to jump from one to the other as you go. You'll meet another spider, so dispose of it in the usual manner, then blast the web and go through again.

Climb up the tree in the middle of the next area, then leap to the ledge from the very top. You have to avoid the ogres in the next section, so run past them when their backs are turned (03). The secret is in the timing: if you keep getting caught, try to find a safe vantage point to watch the ogres from so that you can learn their routine and run past at a safe point. Eventually you will reach a boulder that you can cast Flipendo on to allow access to a small tunnel.

Use Flipendos to kill these ugly beasts.

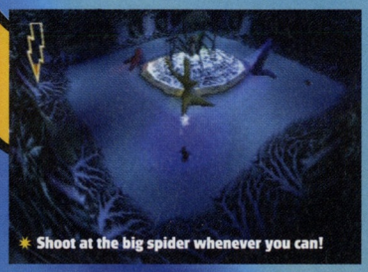

You find yourself at a waterfall.

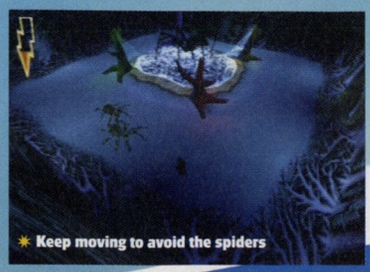

Run past the ogres when they aren't looking.

ALBUS DUMBLEDORE

When you emerge onto the long ledge after killing the giant spider in the area after the bridge, head right instead of left and cast Verdimillious Duo on the secret cave entrance. Stand next to it and press ⊙. In the area beyond the spider, you can mix at the cauldron to get this card!

Shoot at the big spider whenever you can!

Keep moving to avoid the spiders

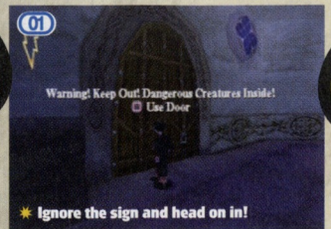

THE BIG SPIDER

Time for the boss battle for this section. You get a nice high-up view, so make sure you keep moving and hit those spiders every time they rear up. From time to time, you'll be able to take a shot at the pillars surrounding the big boss – make sure you take full advantage, but then get back to firing at the spiders chasing after you. In the gaps when there are no spiders, line up so that there is a pillar between you and the spider and fire at it. When all the pillars are destroyed, the spider will fall down into the earth and you must go after it! At this point, it's back into the Ford Anglia!

HOGWARTS AGAIN

When the game starts again, head back to Professor Lockhart's office. Just before you get to the office, you can find a secret Wizard card [☞ Daisy Dodderidge] It is locked, but the store cupboard is open so you can venture in there instead. The best way to beat the puzzle is to wait and memorise the pattern through the tiles and run through in the right order - the second puzzle moves quite quickly so you will need to be quick!

In the next area, run round and to the left, past the knight who attacks. Use Verdimillious at the gap to reveal some secret ledges, and use them to reach the far door. Run past the knight and use the lever, then return to the gap and go through the door. Drop down into the gap (do this in stages or you'll lose energy) and then open the door marked 'keep out' (01) Grab the beans, avoiding the oh-so-dangerous kitten, and then retrace your steps and enter the previously locked office of Professor Lockhart. After a brief conversation, you take him to Moaning Myrtle and learn about the Chamber of Secrets.

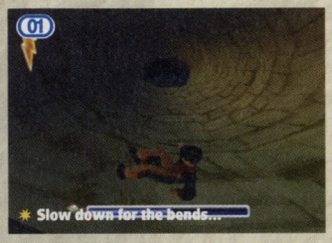

Ignore the sign and head on in!

DAISY DODDERIDGE

This card can be found behind the bookcase outside Professor Lockhart's office. Follow the passage along to find the card at the very end!

INTO THE CHAMBER

You need to press ↑ to get some speed up, but be careful and slow down for the sharp bends (01). At the bottom, get ready for a duel with Lockhart. Avoid his green memory charm whenever it is cast, and keep firing away until he is beaten (02). When the duel is over, head down the tunnel and through the door. On the other side, approach the cauldron and mix a health potion, then drink it before continuing. Kill the two slugs, then Flipendo the two rats in the next room. In the hall, take the first door on the left, into the Lost Tunnel.

Slow down for the bends...

Avoid Lockhart's memory charm.

Cast a spell to light up a new tunnel entrance.

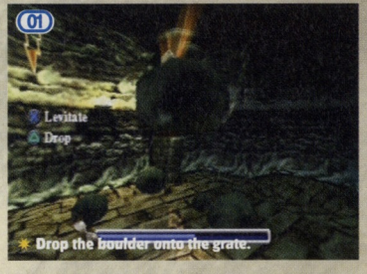

THE LOST TUNNEL

Kill the slugs and drop down the hole at the end. Flipendo the rats and drop down to the ledge they were on, then go through and Incendio the slugs. Cast Verdimillious Duo in the room with the snails in to reveal a tunnel entrance (01)

In the next room, you must cross the bridge without being hit by the fire. Stand and watch for a few seconds to learn the pattern before attempting to cross. The pressure pad at the end will raise the first platform back in the hall, and the exit will return you there. Take the first door on the right to the Forgotten Cavern

THE FORGOTTEN CAVERN

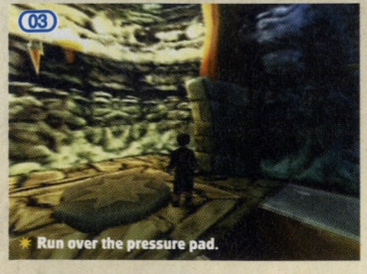

Kill the slugs and drop the left-hand boulder onto the grate from as high as you can (01) using levitation. If it doesn't break, try more boulders until it does, and drop down. Again you must dodge the ogres (02) – it isn't at all easy but learning their routines does make it much easier. To get past the first pair, you must go to the far end and then turn left – don't take the first one or you will be spotted. After this, there is only one more to get past, and you can do this by following him along the corridor and sneaking past on the blindside as he turns. At the end, run over the pressure pad (03) and grab the platform before it is raised in order to reach the final pressure pad and the exit back to the hall. This time, take the very last door, to the dark hall.

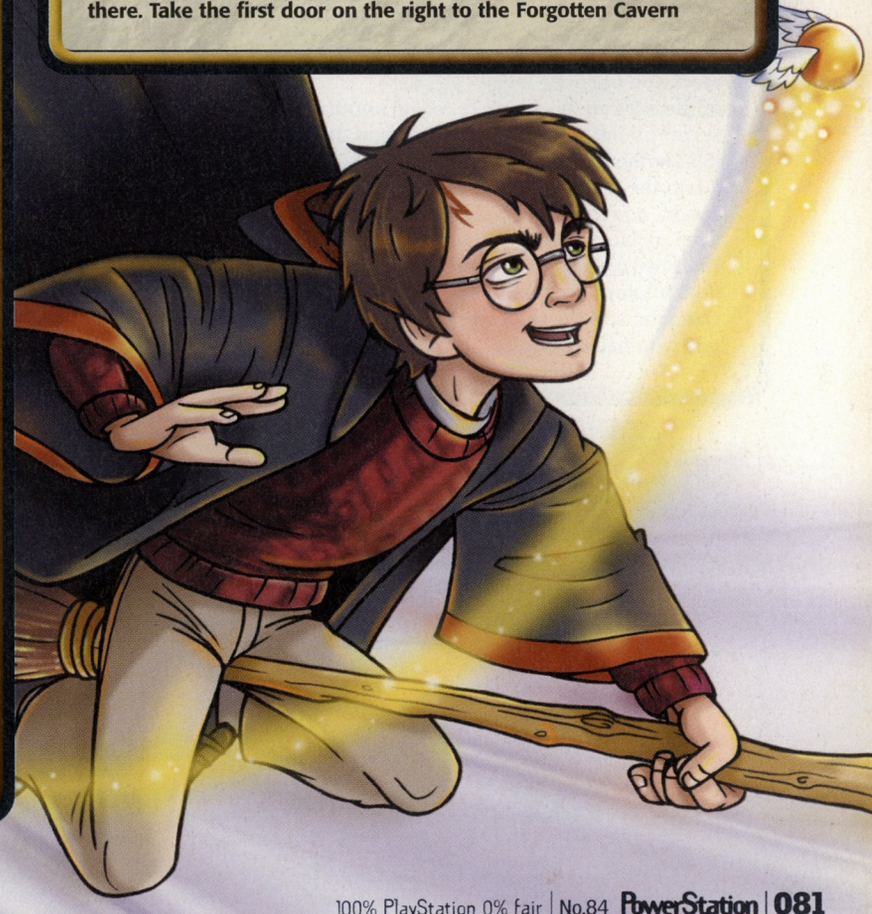

Drop the boulder onto the grate.

You need to dodge these ugly ogres.

Run over the pressure pad.

Cast Verdimillious Duo to illuminate the platform.

THE DARK HALL

When you drop down, the knight is activated. Keep moving and fire plenty of Flipendos at him, and eventually he will die – after his head has fallen off! A boulder will fall down from the ceiling. Cast Flipendo on it to open the grate and drop down. Cast Verdimillious Duo in the new room to reveal a tunnel. Head down it into a room with ledges and knights (these can be killed for extra house points). Use the pressure pad to activate the lift in this area. From the ledge with the knight on, cast Verdimillious Duo to reveal some hidden platforms that enable you to reach the opposite ledge (01). Cast Verdimillious Duo at the wall on this ledge to reveal another secret tunnel, which you should head down. Kill another knight (more house points!) Climb the ledges, killing yet another knight, and the two right at the very top – keep moving in order to stand a chance. The pressure pad at the top will raise the final platform in the main chamber, and the door will take you back there.

ROWENA RAVENCLAW

This card can be won by winning the Ravenclaw duel. Use the statue in the common room to find this duel, behind the picture on the right-hand side of the room as you enter.

HELGA HUFFLEPUFF

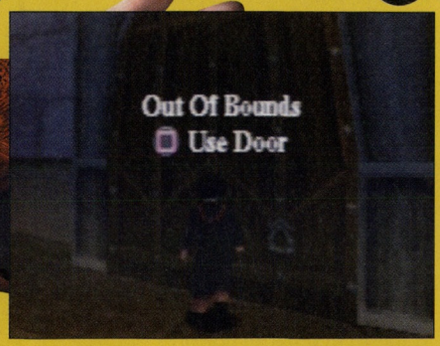

To win this card, enter the picture on the left of the duelling room as you enter (it's at the end of the corridor behind the statue in the common room). Win the duel and you'll be rewarded with this card!

BACK AT THE MAIN CHAMBER

Climb the raised platforms and enter the chamber via the door at the top. You must now face the Basilisk. The first part of the battle is a duel – keep moving from side to side but make sure that you don't walk into the pools of poison that the Basilisk spits out. Charge up Flipendo and fire it into the open mouth of the Basilisk in order to hurt it. After a while, it will change tack, and Harry will acquire a sword. In order to win, keep pressing ↓ to avoid being sucked into the pools of acid. When the Basilisk has finished charging up and unleashes a laser beam, press and hold ⊗ to deflect the beam, and use the D-Pad to aim it at the head of the Basilisk. As long as you follow these instructions, winning should not be a problem – congratulations, you have saved Hogwarts from the Chamber of Secrets!

SALAZAR SLYTHERIN

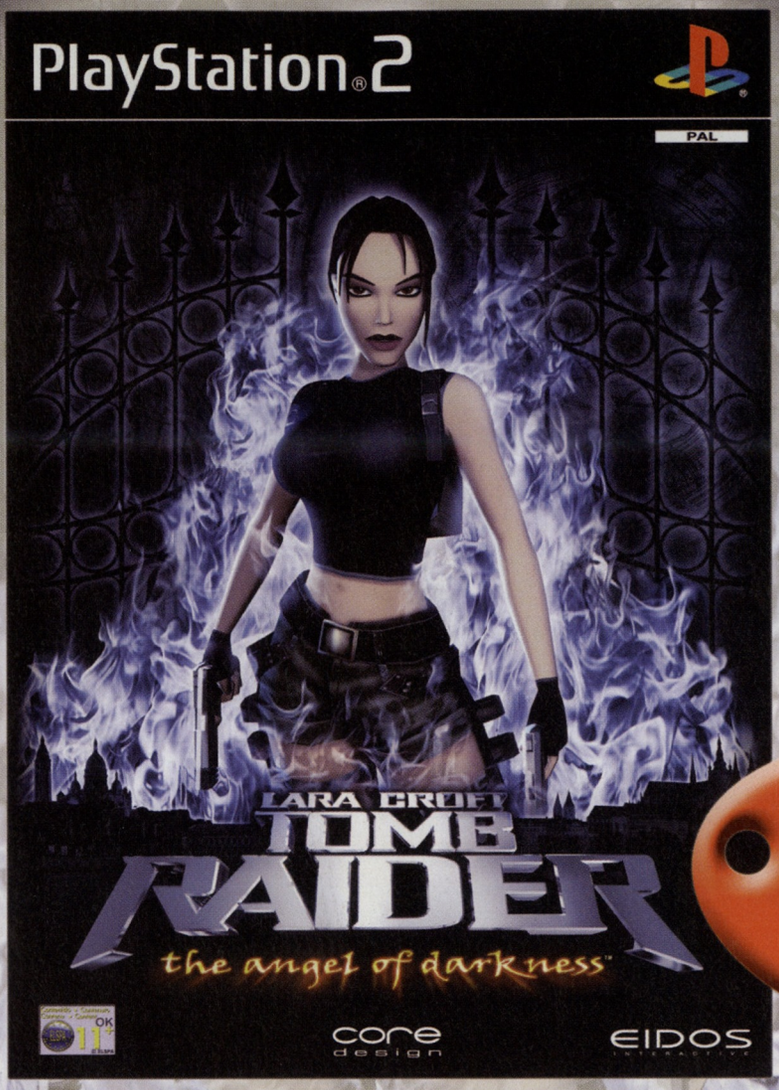

This card is won by becoming Slytherin duelling champion (the central picture in the secret room behind the common room statue). You need to have 20 cards in order to undertake the challenge, though.

SECRETS

Collect over 500 beans to open a secret room up, just off the main hall! Inside, you'll find an upgrade to Flipendo!

PLAY COMMENT

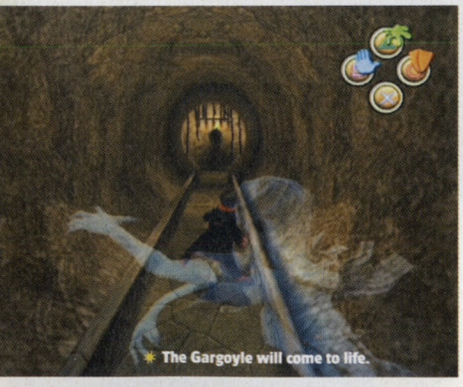

"THE HARRY POTTER WORLD IS CAPTURED EXTREMELY WELL"

PLAY#*99 is out now, and available from most good newsagents

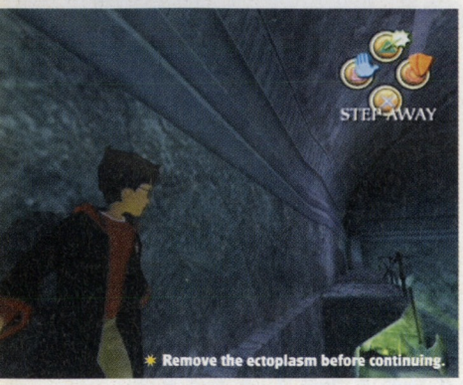

AVIFORS CHALLENGE

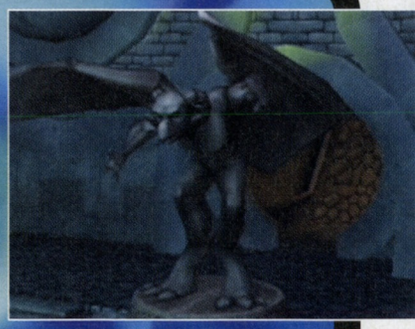

The Gargoyle will come to life.

Remove the ectoplasm before continuing.

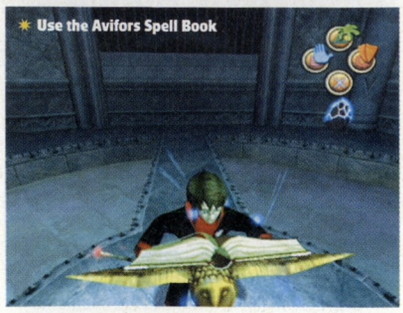

Go down to the first floor for your Transfiguration lesson and go straight into the challenge to retrieve the Avifors Spell Book. Jump to the platform below then go down the steps and remove the ectoplasm from the doorway and the lever. Do this again for the room on the opposite side then go down the tunnel in the centre. Remove the ectoplasm from the doorway of the central room then cast Lumos to see a movable section of the wall. Push it out then use it to climb up onto the top of this central room. Jump to the nearest platform then jump and shimmy your way around the room to the ectoplasm-covered doorway. Remove the ectoplasm and go through to the next room. Drop down and pick up the **Avifors Spell Book** then use it on the rock in the corner on the room. The bird will fly across the room to the pressure pad. Climb on to the ledge using the lower section and transform the rock up there. The bird will fly down and land on another pressure pad. Climb up the other lowered section and transform the final rock to gain access to the hole and crawl through. Open the chest to find a **Chocolate Frog** then go up the stairs and down the slope to find yourself back in the first room. Jump to the left and transform the rock then shimmy along the ledge and push down the metal bridge. Drop down and go back up to the statue then jump to the right. Transform the rock and shimmy along the ledge then push down the metal bridge. This will bring the Gargoyle to life and it's ready to fight (☛ Gargoyle 2). Once you've destroyed this fearsome monster, transform the rock that it leaves behind and the bird will fly down to the pressure pad below, opening the door above. Go back to the classroom to receive 40 hard-earned House Points.

Now head on over to the Stadium to take part in your first Quidditch match. You'll need to use all of the skills you've learnt in practice to catch the Snitch and win the game. Once you have accomplished this, use your Rememberall to end the day.

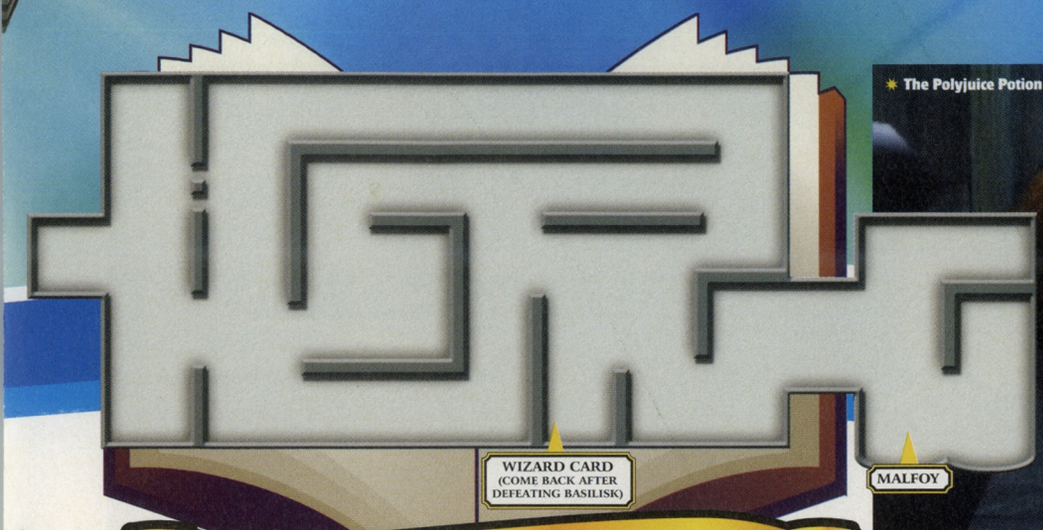

GARGOYLE 2

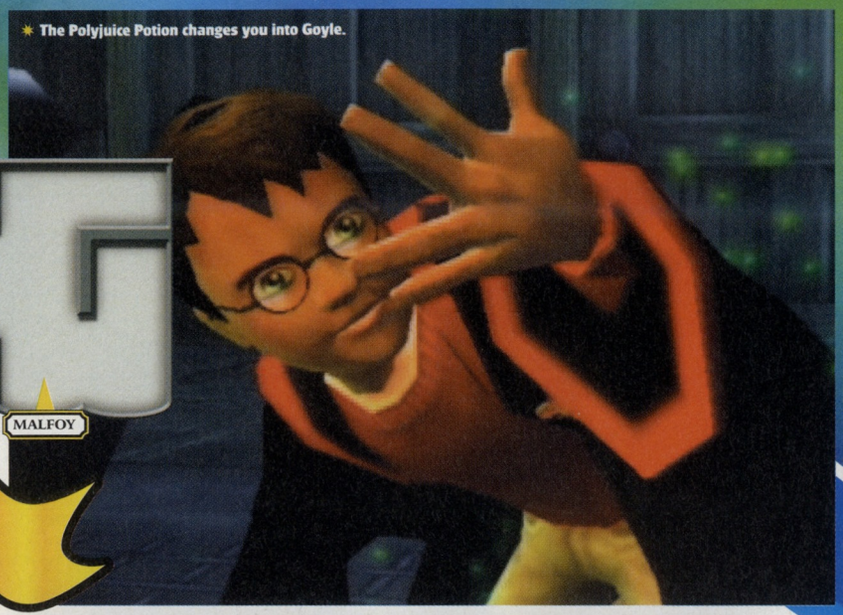

Use Expelliarmus again on this Gargoyle to defeat it in exactly the same way as the previous one.

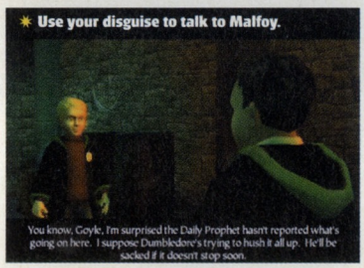

Use the Avifors Spell Book

THE POLYJUICE POTION

The Polyjuice Potion changes you into Goyle.

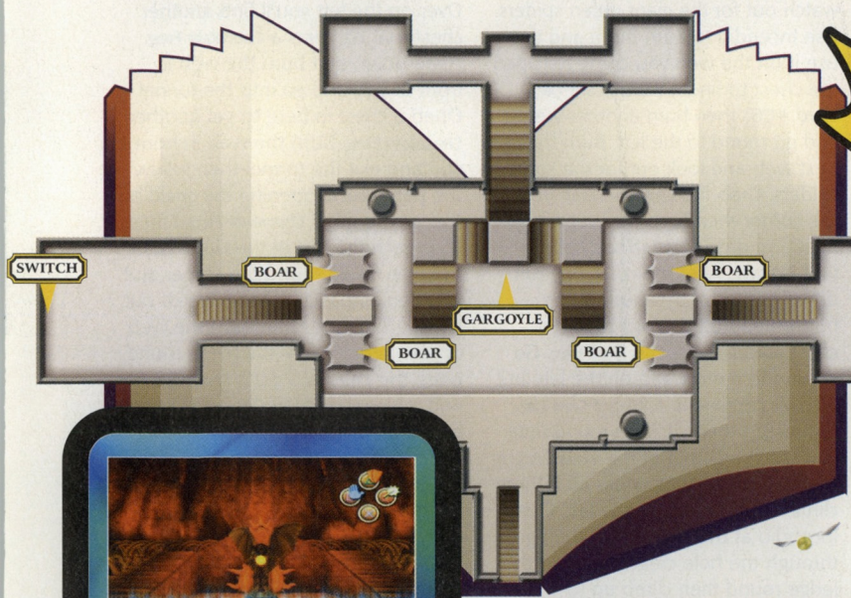

Head down to the girls' bathroom on the second floor and talk to Hermione. She's made a Polyjuice Potion that will change you into Goyle so you can talk to Malfoy. Go down to the entrance hall and through the door on the right to find the dungeon entrance. Don't worry about getting caught by prefects, as any House Points you lose will be taken from Slytherin. Head through the dungeon until you find Draco. Once you've finished talking to him you'll turn back into Harry so the journey back through the dungeon will be trickier. Sneak through then return to the girls' bathroom on the second floor to talk to Hermione and Ron. Use your Rememberall to end the day.

Use your disguise to talk to Malfoy.

You know, Goyle, I'm surprised the Daily Prophet hasn't reported what's going on here. I suppose Dumbledore's trying to hush it all up. He'll be sacked if it doesn't stop soon.

Be careful on the way back...

INCENDIO

Light the brazier to lower the pillar.

Go down to the second floor and into Classroom 2E. Once inside the Incendio Challenge Chambers drop down and fight the Gargoyle that comes to life (☛ Gargoyle 3). Once it's defeated, go through the door behind it and follow the passage to another chamber. Drop down and fight another Gargoyle (it only takes three hits to destroy it). Transform the rock that it leaves behind and go through the gate. Go up the ramp and climb to the ledge then drop down and destroy the other Gargoyle. Transform the rock and the bird will fly to a pressure pad and open a gate above. Go through this gate to find the room containing the **Incendio Spell Book**. Pick it up then Flipendo the flame-throwing statue and run past it. Use Incendio to light all four braziers to open the gate, but be quick, as when one goes out the gate will close again. Go through the passage and back to the first room. Go down the steps to the right and light the brazier to lower the pillar then go through the door it reveals. Cast Flipendo and then Incendio on the Fire Crabs, then use Incendio on the right-hand boar's head. Go back to the main chamber and up the stairs then light the boars under the platforms. Use Flipendo so they aim upwards and raise the platforms. Run upstairs and use the platforms to reach the switch. Go back down into the small room and relight the other boar's head to return the fire to its original position. Repeat the whole process on the other side and go back to the classroom to receive your 40 House Points. Time for Quidditch!

GARGOYLE 3

As for the previous two battles, use Expelliarmus again to deflect the statue's spells back at it.

Use Flipendo when you've lit the boars' head.

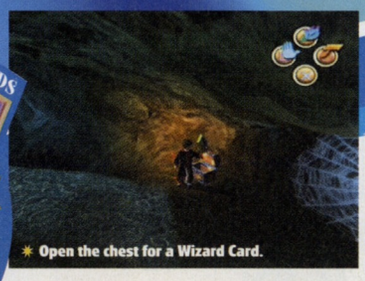

✷ Watch the cut-scene with Hagrid.

Bad business, Hagrid. A very bad business, indeed. Things have gone far enough. As chairman of the school governors I've simply got to act and send you away.

✷ Follow the trail of spiders to the Forest.

✷ Open the chest for a Wizard Card.

Is it Hagrid?
✷ Drop through the hole to confront Aragog.

TOM RIDDLE

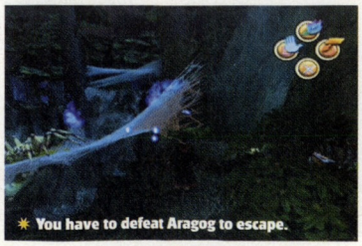

Go outside, looking out for prefects, then head over to Hagrid's hut and watch the cut-scene. Pick up the key that Hagrid drops then follow the trail of spiders and open the door to the Forbidden Forest. Head into it but watch out for the giant green spiders. Use Incendio to burn them and then use it on the web you come to. Open the chest to find a **Wizard Card** (☛ Card #66) then burn another web and go round to the left. Burn the next web and look out for the spitting spiders. Grab the **Chocolate Frog** from the corner then burn the web on the right and drop through the hole to find Aragog. After the cut-scene run down the ledge then turn at the bottom and drop down to find a chest containing a **Chocolate Frog**. Go down the narrow gap on the left find a chest containing a **Wizard Card** (☛ Card #63) then carry on round until you reach a corner of the web Aragog is sitting on. Cast Incendio on it then climb up the steps on the left. Cast Incendio at the web ahead then go through the hole created. Follow the ledge round then climb up to find another chest containing a **Wizard Card** (☛ Card #62). Go back down and jump across the gap then burn the web and carry on. Take out some of the spiders then run up the slope on the right and across the log. Try to avoid touching the web strands as you go as this attracts more spiders. Over on the left you'll find another chest that contains a **Chocolate Frog**. Head down and burn the web in front of you and go into the tunnel. Open a chest in here to get another **Chocolate Frog**. Burn the web in front of you and exit the tunnel then follow the path round opening the chest on the way to get a **Chocolate Frog**. Once you reach the top of the slope burn the web, head round the corner and sidestep across the ledge. Watch out for the Puffapods and burn the web on the right. Follow the ledge round, open the chests to get a **Chocolate Frog** and a **Wizard Card** (☛ Card #64) then burn the final part of the web. You will now fall down into a pit with Aragog (☛ Aragog). Once you've defeated the giant spider Ron will come and rescue you in the flying car. Once you're back in Hogwarts' grounds use your Rememberall to end the day.

ARAGOG

✷ The only way to defeat this giant spider is to hit it with Incendio when it rears up on its hind legs. When it isn't doing this you need to keep away from it. Look out for the shockwaves it makes and also for acid spit; it may also charge at you. At some points a web will drop down, Incendio it to release **Cauldron Cakes** and **Beans**. Towards the end of the fight red spiders will drop down to attack, so burn them quickly.

✷ Keep away from the spider's attacks.

✷ Cast Incendio on Aragog's web.

✷ You have to defeat Aragog to escape.

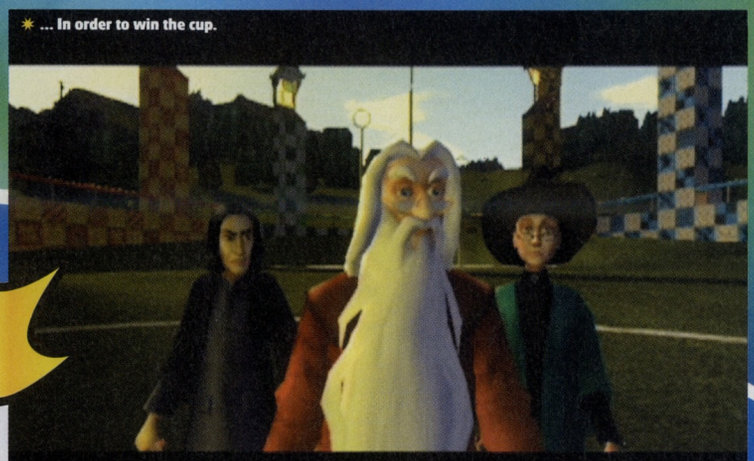

Go to the stadium to play against Slytherin.

You'll need all of your skills...

GRYFFINDOR VS SLYTHERIN

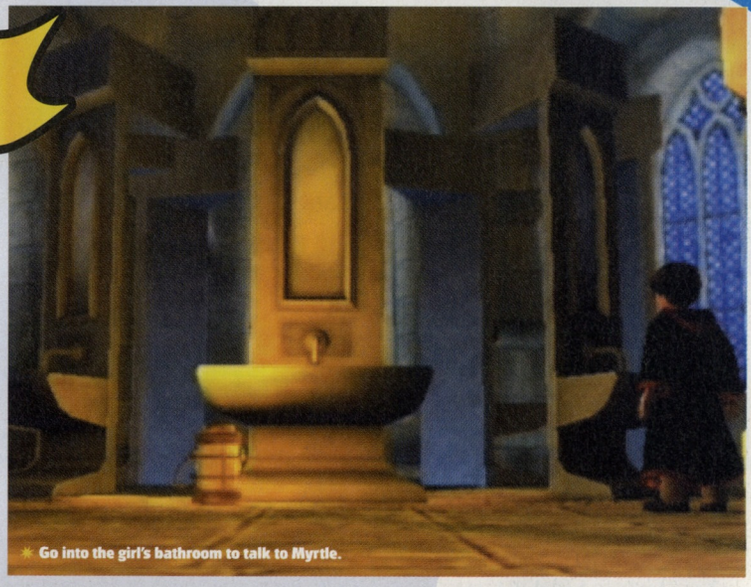

Head for the stadium for the final Quidditch showdown against Slytherin. Use all of your Quidditch skills in order to defeat them and win the cup. Once it is all over you must end the day with your Rememberall.

... In order to win the cup.

It is with great pleasure that I present the Quidditch Cup to Gryffindor!

THE CHAMBER OF SECRETS

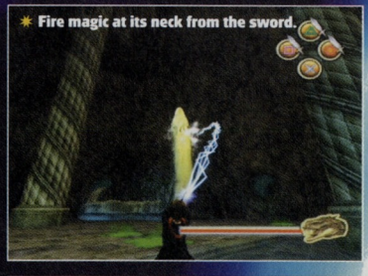

Meet Ron in the common room then head down to the girls' bathroom on the second floor and go inside. Talk to Moaning Myrtle and watch the cut-scene. Head down the passage to find Tom Riddle and Ginny. Watch another cut-scene and you'll have to fight the Basilisk (☛ Basilisk). Once it's defeated watch another cut-scene after which you can go into the great hall and collect the House Cup. However, if you haven't done everything yet, now is the time to collect the rest of the Wizard Cards and get more House Points.

Go into the girl's bathroom to talk to Myrtle.

BASILISK

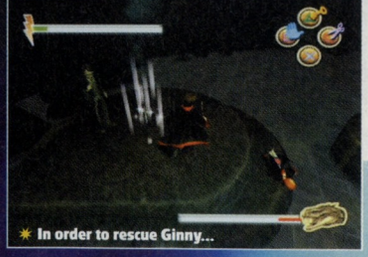

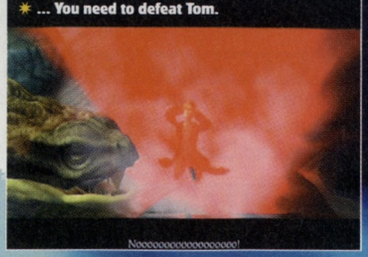

Grab the sword that was dropped during the cut-scene and watch as the Basilisk disappears into a hole. It will come out of one of the other holes around the room so keep your eye on all of them. When it does reappear wait until it lifts its head up and, looking out for the poison it spits, fire magic from the sword at the diamond shape on its neck. Use the left analog stick to move the stream and stay on target. This will go on for a few seconds until the sword flies out of your hands. The Basilisk will now move faster and rocks will start falling from the ceiling so pick up the sword quickly. Wait for the Basilisk to raise its head again and fire some more magic until the sword is dropped again. Repeat the process twice more to defeat the Basilisk and rescue Ginny.

Fire magic at its neck from the sword.

Watch out for the Basilisk to reappear.

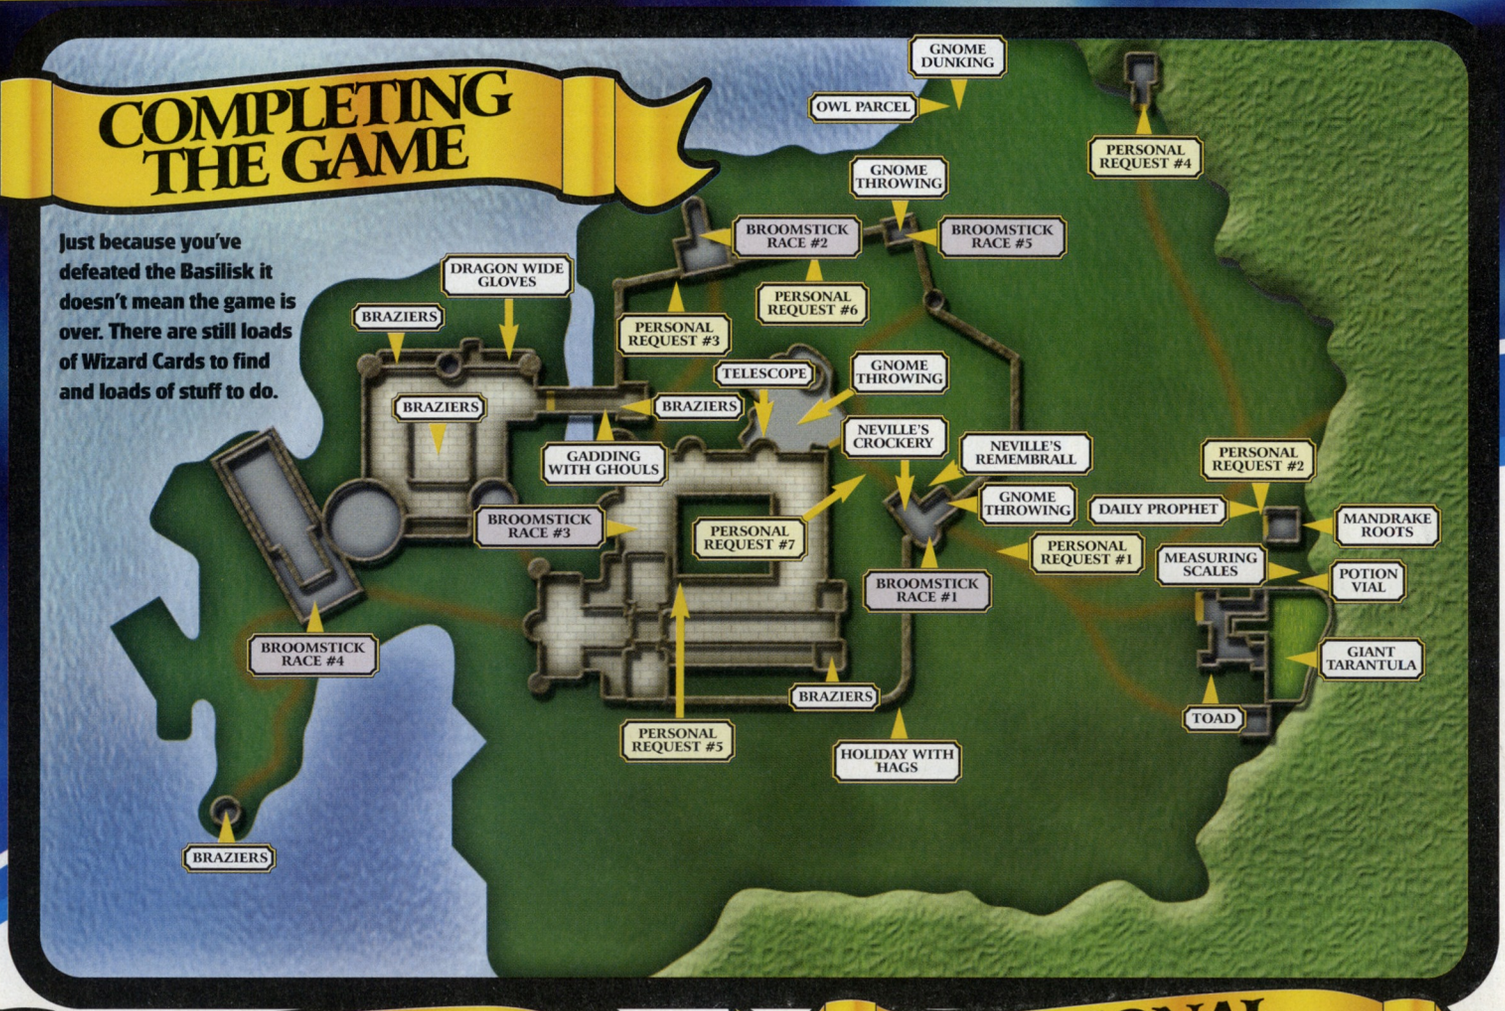

In order to rescue Ginny...

... You need to defeat Tom.

Nooooooooooooooo!

COMPLETING THE GAME

Big Ron's pro evolution SOCCER 2 Special

You lot have been bombarding me with questions lately about the wrong player names used in the PS2 version of *Pro Evolution Soccer 2*, especially those pesky Oranges. So this month, to be kind, I've decided to let you all know what the real club team names are, as well as correcting the Dutch side and the special unlockable teams.

PRO EVO 1 NAMES

First up, you might be interested to discover that you can import your *Pro Evolution Soccer* info into the sequel. If you have a save game from the original on your memory card, then you will be able to select "import PES data" from the options menu. This will correct a few player names, most notably the Dutch players!

UNLOCKABLE COMENTARY

By winning the Konami-Umbro Cup on three stars with a club side, it is possible to alter the names the commentator uses to describe teams – so you can forget all about Catalunia and Europort, and get down to action with Barcelona and Liverpool! Not every team has the right name, however, and there are some other names you can use if you want to import a new team into the game – Scunthorpe United, anyone?

UNLOCKABLE TEAMS

Euro Elite	Win International Cup with England
World Elite	Win International League with any nation
Eternal England	Win European Cup with England
Forever France	Win European Cup with France
Heroic Holland	Win European Cup with Holland
Immortal Italy	Win European Cup with Italy
Genuine Germany	Win European Cup with Germany
Beloved Brazil	Win American Cup with Brazil
Argentina	Win American Cup with Argentina

THE PLAYERS

Okay, so you know how to unlock the secret teams, but who on earth are these 'classic' players? Sit back and relax, for we have the list of the real player names – but we'll start with how to get Holland back to their former glory!

Good to see Edgar Davids in the game at last!

ALL THE LATEST PERIPHERALS REVIEWED BY OUR TEAM OF EXPERTS!

Just received a new console this Christmas, or a few new games to keep you busy? We have taken a look at some new peripherals that may be useful to further enhance your gameplay.

POD-IUM

SUPPLIED BY - TECHNIQUE LEISURE **PRICE - £199.75**

This new device from Technique Leisure is a full driving set-up, including a Cobra bucket seat as used in many high performance race spec cars and a sturdy frame to attach a steering wheel and pedals. The platforms for the wheel and pedals have rubber grips to ensure they stay in place. The unit is adjustable, for players of any size and shape, and can be purchased separately. If you don't have a steering wheel you can purchase one with the Pod-ium for an extra £70, but we recommend the new Joytech Williams F1 wheel. It's rather pricey, but a great way to bring your racing games to life.

HARRY POTTER PERIPHERALS

SUPPLIED BY - THRUSTMASTER **PRICE - £7.99 - £15.99**

Harry Potter is a global phenomenon, and Thrustmaster has recently released peripherals based on this hot Harry licence. Items available are a PS2 pad and disc holder for £15.99, a PSone memory card and pad for £12.99 and two PSone memory cards for a bargain £7.99. All the products are extremely well made and versatile, decorated with pictures from *The Chamber Of Secrets*. The pads are responsive with full rumble capabilities and the buttons are comfortable, making them excellent value even for non-Harry fans. The disc holder is durable with enough space for 24 discs, and the PSone memory cards are great value. If you're a Harry Potter fan, these will be just the thing to help you play *Chamber Of Secrets*, but to everyone else they are well-built good quality gaming devices.

OVERALL 7 OUT OF 10

SUPPLIED BY - GAMESTAR **PRICE - £39.99**

SPORTS BOARD

Over the years there have been a large number of skateboard peripherals released to try and recreate the arcade feeling. They have generally been wobbly and unresponsive, making them hardly worth buying, but Gamester has come up with a new idea to make this control system work. The innovative Sports Board is essentially a snowboard, but rather than moving on peddles it uses pressure sensitive pads to recreate movement. This means that no weight, height or age restrictions need apply and the sensitivity can be adjusted to suit your requirements. The board is sturdy and easy to use and can easily be switched on and off using the signal booster. The device also enables a controller to be plugged in for performing special moves and will work with any extreme sports games. To be fair, the control method does not work especially well for *THPS*, but is fantastic for snowboarding games with your mates. A quality peripheral that desperately needs a decent PS2 snowboarding game.

WIN A COPY OF SLY RACCOON

Sony's latest top title is a beautifully animated crime caper starring the charismatic young thief, Sly Raccoon. Born into a family of the world's greatest jewel thieves, Sly is given the Thievius Raccoonus, an ancient book and family heirloom. In it are all of the best-kept secrets of the art of thievery, put together over the years by Sly's ancestors. On his eighth birthday, a gang of five villains breaks into his home, overpowers his father and steals the Thievius Raccoonus. The gang splits the book five ways and makes off with one piece each of this treasure trove of information. Now, ten years later, Sly is ready to steal it back and restore the family honour. Are you up for the challenge?

HOW TO ENTER CHEAT CODES

Here's a brief guide to enter the codes printed here...

Directions:
↑↗→↘↓↙←↖
These little arrows indicate which direction to move the digital D-pad.
Eg ↑ = up, ↘ = down + right.

Commas:
Buttons or directions separated by commas should be tapped ONE AFTER ANOTHER. Eg ⊕, ⊕, ⊕ = tap ⊕, then ⊕, then ⊕.

Plus Symbols:
When buttons/directions have a plus symbol between them you should press them TOGETHER. Eg. L1 + L2 + R1 + R2 + ↑ = press L1 and L2 and R1 and R2 and Up (on the D-pad) all TOGETHER.

Holding Buttons:
Sometimes buttons need to be held down, often while entering a second part of a cheat code. Eg 'hold L1 + L2 and press ⊕, ⊕, ⊕' means 'keeping L1 and L2 held down, press ⊕, then ⊕, then ⊕'.

Where To Enter Them:
It's vital that you enter the cheat codes on the correct screen, otherwise they almost certainly won't work. Some need to be entered on a certain game menu, on the pause screen, or even during play (for example, during *Grand Theft Auto III*). Please check that you are entering the cheats in the correct place.

Quick & Accurate Entry:
Please note that many cheat codes require quick entry to work. It will usually say this by the code in the magazine but if it doesn't and you can't get the cheat to work, try entering it quickly – within a couple of seconds for many codes. Also, please note that incorrectly entering a code sequence will inevitably stop it from working.

Import Games:
Virtually all the codes here are meant for the European PAL versions of PlayStation games. Please note that while many PAL cheats may also work on import versions (and vice versa), unfortunately, we cannot guarantee that they will.

EASY MONEY

You need two memory cards for this trick. After you've earned about 200,000 Credits, buy a good car and upgrade it to the max. This will leave you almost broke, so save this car to the memory card in slot 2. Now return to the title screen and load your last game from slot 1. This will give you your money back and you can now go and trade the car from slot 2. The car that you just upgraded to the max will now only cost retail price.

CLASSIC TEAMS
The Player Cards numbered between 249 and 274 will each unlock a classic team from the past in Exhibition mode, from the '58 Colts to the '99 Rams.

HOUSTON TEXANS
After the first season in Franchise mode, do the expansion draft to get the Houston Texans.

LOADSA TOKENS
To get over 10 million tokens, complete the following steps.
1. Select Options then Rosters. Select the team you want to play against and change the Speed rating of all their defensive players (LE, RE, DT, LOLB, MLB, ROLB, CB, FS and SS) to 15.
2. Select the team you want to play as and change the starting QB's Speed, Awareness, Agility, Accel, Carrying and Stamina ratings to 99. Edit the following offensive players so they have an Overall rating of less than 10: HB, FB, TE, WR and backup QBs. Finally, change all the offensive line players' (LT, LG, C, RG, RT) Pass Block rating to 99.
3. Save your Roster under a new name (not DEFAULT). Start a Two Minute Drill on All Madden difficulty against the chosen opposing team's defence (which you've nobbled), selecting a previously created Profile (very important) and your team with the altered offence.
4. Select a passing play, snap the ball and hold ⊗ to scramble the QB to either side, then sprint up the field for a touchdown every time. You should be able to score several TDs doing this (if you muck up a play and get tackled inbounds, take a timeout to stop the clock).
5. When the game is over you'll have a huge minus number for your score. Quit and select Options then Madden Cards. You'll have over 10 million tokens in your Profile to spend on cards!

SILENT HILL 2

THE ENDINGS
There are five possible endings, depending on what you do at certain points in the game…

'In Water' Ending:
Make sure to examine Angela's Knife after you receive it, read the Diary on the Hospital's roof, listen to the Headphones in the Changed Hotel's Reading Room, and the conversation in the corridor just before the final boss. Also, run around injured as often as you can.

'Maria' Ending:
Protect Maria well and spend plenty of time with her. Make sure to visit her when she falls ill in the Hospital and generally be nice to her. Also, in the corridor shortly before the final boss where you hear the conversation, make sure you leave through the far door as quickly as possible, before it has time to finish.

'Leave' Ending:
Stay healthy, spend as little time with Maria as possible, don't protect her very well and complete the game as quick as you can. Also, make sure to look at Mary's picture and letter in your inventory on a regular basis.

'Rebirth' Ending:
Only available after completing the game once. Take the Lost Memories Book from Texxon Gas, the White Chrism from Room 105 of the Blue Creek Apartment Building, the Obsidian Goblet from the Historical Society Building and the Crimson Ceremony Book from the Changed Hotel's Reading Room.

'Dog' Ending:
You either need to have seen all the 'Leave', 'In Water' and 'Maria' endings, or the 'Rebirth' ending, to unlock this one. If so, a Dog House will appear just to the west of Jacks Inn. Take the Dog Key inside and use it on the Observation Room's door in the Changed Hotel.
EXTRA WEAPONS
Chainsaw: Complete the game once on any difficulty to unlock this. It's found in the first section of the game, on the path between the graveyard and Silent Hill itself.
Hyper Spray: Finish the game once on the 'Hard' Action Level, or complete it three times on lower levels. The Hyper Spray is then found inside the caravan on the east side of town. The effect it has on enemies in the game will depend on the ranking you have received thus far.

WWF SMACKDOWN!: JUST BRING IT

SECRET WRESTLERS
Unlocking the secret wrestlers requires you to play through the Story mode of the game, making different decisions along the way. However, you must use a non-title-holding wrestler during the story or you'll just end up defending the title.

Card 1 – Fred Durst:
Play through Slobberknocker mode (in Specials menu of Exhibition). Choose The Undertaker as your wrestler, then successfully pin 15 or more opponents within the time limit – use the Tombstone Piledriver repeatedly (↓ + ⊗ in a grapple) to ensure victory.

Card 2 – Mick Foley:
During Story mode, make the following choices:
a) Refuse the shot at the Tag Team Titles.
b) When you appear on the stage, run down to the ring and attack.
c) Win the match that Mr McMahon sets up.
d) When you're called out to the ring, show up.
e) Pick the style of match and win it.
f) Purposefully lose the shot for the World Heavyweight Title at Wrestlemania.
g) Win the Hell In The Cell Match that Mick Foley sets up afterwards, to unlock him.

Card 3 – Tajiri:
During Story mode, make the following choices:
a) Refuse the shot at the Tag Team Titles.
b) When you appear up on the stage, talk trash to the wrestler who is in the ring.
c) Backstage with Michael Cole, tell him that you were just messing with them.
d) Head for Commissioner Regal's office (first room on the left through the double doors at the bottom of the stairs) and turn down the chance to fight for the European Title.
e) Win the match against Tajiri to unlock him.

Card 4 – Rhyno:
During Story mode, make the following choices:
a) Refuse the shot at the Tag Team Titles.
b) When you appear on the stage, run down to the ring and attack.
c) Win the match that Mr McMahon sets up.
d) When called out to the ring, stay backstage.
e) After Michael Cole has spoken to you, talk to Earl Hebner by the drinks machine backstage – tell him to come and referee a Hardcore Title match for you.
f) Defeat Rhyno in the locker room for the Hardcore Title to unlock him.

Card 5 – Jerry Lynn:
During Story mode, make the following choices:
a) Refuse the shot at the Tag Team Titles.
b) When you appear on the stage, run down to the ring and attack.
c) Win the match that Mr McMahon sets up.
d) When called out to the ring, stay backstage.
e) After Michael Cole has spoken to you, talk to Earl Hebner by the drinks machine backstage – say hello and ask how he is.
f) In Commissioner Regal's office, say you're not interested in any kind of title match.
g) Win the resulting 4-Man Battle Royal to unlock Jerry Lynn.

Card 6 – Spike Dudley:
During Story mode, make the following choices:
a) Accept the shot at the Tag Team Titles.
b) Wander around the backstage area and approach the wrestler which you want to pick as your tag partner.
c) Win the Tag matches that follow until you're put into a six-man Tag match and ask your partner who he wants as your third member.
d) Wander around backstage until you find Spike Dudley and Molly Holly in the hallway – agree to help them.
e) Win the Tag Team Table Match.
f) Win the Tag Team Title Match that follows, to unlock Spike Dudley.

Cards 51 & 52 – Shane McMahon & Stephanie McMahon-Helmsley:
Once you've opened up ALL the other secret cards (that's 50), keep playing the Story mode with the person currently holding the WWF World Championship. Eventually, the two McMahon children will appear and you'll have unlocked them both as playable characters.

NEW MATCH STYLES (CARDS 7–9)
While playing through the method listed above to unlock Mick Foley, you'll be presented with three different styles of match to take part in: Street Fight, Last Man Standing and Ultimate Submission. Whichever one you pick will be unlocked as a permanent option in the Specials menu of Exhibition mode when you complete the story successfully – to unlock them all, you'll have to play through the story three times and pick a different match each time.

NEW ARENAS

Card 10 – Wrestlemania Arena
Unlock Mick Foley using the above method and you'll also unlock the Wrestlemania Arena.

Card 11 – Insurrextion Arena
Play through the method listed above to unlock Jerry Lynn until you arrive in William Regal's office. When he presents you with the chance to fight for the Intercontinental Title, choose the middle option that says you're more interested in the European Title. He'll set you up with a match for the title – win that match and the title defence that follows to unlock the Insurrextion Arena.

Card 12 – New Smackdown! Arena
Play through the Slobberknocker mode using The Rock and defeat 15 opponents or more within the time limit to unlock the brand new Smackdown! Arena. This time, you need to keep using the Floatover DDT (← + ⊗ in a grapple) to guarantee a pin every time.

THEATRE MODE (CARD 33)
Follow the method listed above for unlocking Mick Foley and complete the final Hell In The Cell Match to unlock the Theatre mode – it's got trailers for both previous SmackDown! games and a short movie showing the best moments of Smackdown! recently.

OTHER STUFF

(CARDS 12, 13–32, 34–35 & 37–50)
To unlock the extra CAW points, 'Unknown' Moves, new entrance music and extra items of clothing for the Create-A-Wrestler mode, you need to play through the Story mode with a title-belt-holding wrestler. Try to stick to basic belts such as the Light Heavyweight, European or World Title as using the Tag Team or Hardcore Titles just makes winning the matches harder. You'll only have to fight one match – each time you successfully retain the title, you'll unlock one random secret from the cards numbered 13 to 50. Keep doing this until you've unlocked them all.

BUG'S LIFE, A

EXTRA LIVES
If running out of lives, replay the Training level and collect the letters to spell FLIK for an extra life. Repeat this to earn more.

BURNING ROAD

MIRROR MODE
Select Practice, pick your track, car and transmission. Once the race starts, turn your car around and go the other way. As soon as you pass through a checkpoint you'll be placed in first, and the other cars will turn and follow, although it'll take them a little while to catch up. Now race as usual, but you'll have three more tracks to play with.

BUSHIDO BLADE

SECOND ENDINGS
To see the alternate endings, you must follow these rules strictly:
1. The Bushido Blade 'Code Of Honour' must be obeyed at all times.
2. You must not take any hits until you face the final boss.
Defeat the first opponent without taking a hit, no matter how slight. When you face the second opponent, hold down ● and run to the well at the construction site.
Before jumping into the well, take out your opponent's legs – this way you won't have to face them before jumping to the fifth fight. You then have to defeat the fifth opponent and the following four bosses without receiving a hit. You'll face one of three hidden bosses: Kindati, Hongou, or Black Lotus (in bandages). Defeat them (the no-hit rule doesn't matter any more), then use as many continues as necessary to defeat the final boss and reveal the hidden ending for that hidden character.

OBTAINING KATZE
Kill all 100 opponents in Slash mode without getting killed – that means no continues at all. You can then choose Katze in Vs and Practice modes. Just move the selection box off the side of the screen next to Red Shadow or Kannuki, then press ⊕.

NAMCO MUSEUM VOL 1
GALAGA – NON-SHOOTING ENEMIES
On the first stage, don't shoot at the ships as they go into their formation. Once they're all in formation, isolate the two leftmost blue bees. Kill all the other ships except these two. Once you have, let the two bees fly and shoot at you for the next 10 to 20 minutes (don't fire a shot during this time). You can hide in the right corner for most of the time, only moving out to avoid the odd shot. After a while you'll notice that the bees stop shooting at you. Once this happens, let them do a few more passes to make sure, then kill them. For the rest of the game, no ships will shoot at you!

EXTRA MODES
Complete the game and start a new one from your saved position. You'll be given the option of playing in Normal, Replay, or Bounty mode.
Replay Mode: Depending on how well you did the first time around, you'll start the game again with bonus EXP, MP, BP and items.
Bounty Mode: Start it with bonus BP and hunt down the rogue Golems.
GOOD ENDING
For the full ending, you must perform certain tasks in the game. It's very hard to do them all in your first go, so give it a try in Replay Mode! The following criteria must be fulfilled:
1. In Dryfield, make sure that you meet Kyle in the Bar at night.
2. Kill Cannon-Mouth as opposed to scaring him off. This will result in Flint's life being spared. Mr Douglas will give you the M950 in return.
3. There is a gate in the Reservoir area of the shelter that you probably missed the first time round. After you have put in the code for the Moon Gate, go back and open the gate. It'll lead to the sewers of Dryfield. Follow Flint to the Water Tower and save Pierce. He'll give you the SUV Key. Use this to open the boot of his car, which is parked in the Gas Station. Inside you'll find Lipstick and a Tactical Vest. If you go to see Mr Douglas, he'll sell you loads of cool weapons!
4. Instead of getting Yoshida's Card, get Bowman's Card by defeating him in the corridor adjoining the Storeroom and the Sleeping Quarters.
5. Talk to Pierce on the Laboratory Phone and meet him in the Pod Service Room.
6. Save Pierce from the Golem Room.
7. Talk to Jodie outside the army tent and give Eve's Teddy to Flint.

SCAVENGER (SUPPORTLESS) MODE
Complete the game with at least 69,001 EXP (you'll probably have to do it again in Replay mode to earn enough) to unlock Scavenger mode.
NIGHTMARE (DEADLY) MODE
Complete Scavenger mode to unlock this.

RESIDENT EVIL

ROCKET LAUNCHER
To start the game with rocket launcher plus infinite ammo, you must first complete the game in under three hours. You'll then be able to save the rocket launcher to your inventory.
CHANGING CLOTHES
Complet the game with a good ending (whereby you rescue BOTH team members) and you'll be awarded the Special Key which will be added to your inventory and saved in preparation for the next game. This will let you open the previously locked door in the wardrobe and enter the hidden wardrobe closet. In here you can get an alternative set of togs for your chosen character.

RESIDENT EVIL 2

RANKINGS
After beating each scenario, your performance will be ranked from A to F. This is determined by both the time taken and the number of saves used. For a top ranking, try not to save more than ten times in each scenario. Your ranking is also affected by the use of the special infinite ammo weapons – you won't get an A grade if using one.
ALTERNATE UNIFORMS
Start the first scenario on Normal difficulty. Head for the police station, but without picking up any items. The two zombies in the park outside the station will vanish, and a new one will appear below the steps outside. He is none other than Brad Vicars, transformed into a super-zombie who takes 20 hits to kill – so enter the station to grab some more ammo. Return and kill 'Brad', then search his body to find the Special Key. Take it to the save room next to the Dark Room and use it to open the locker containing alternate uniforms. There's a cowgirl one for Claire, with a rapid-firing six-shooter; and two for Leon, one of which enables him to shoot one-handed.
INFINITE AMMO WEAPONS
Each infinite ammo weapon will appear in the next game after the first chest is opened, and is accessed by completing scenarios (on Normal difficulty) within time limits in the following order...
Rocket Launcher: Complete either Claire or Leon's first scenario in under 2.5 hours with an A or B ranking.
Gatling Gun: Complete either character's mission B in under 2.5 hours, with no saves, no first-aid sprays, and either an A or B ranking.
Machine Gun: Complete either character's second scenario in under 3 hours with A or B ranking.
All Three Weapons: Complete either character's second scenario in under 2.5 hours with an A or B ranking.
Rebecca Chamber Picture: If you search the desk on the left side of the STARS office, you'll be told, "It's trashed, someone must have searched it." However, you can search it repeatedly (about 50 times) until a roll of film is found. Take this to the Dark Room to see a photo of Rebecca in basketball gear.
PLAY AS HUNK & TOFU
1. You need 8 free blocks on your memory card.
2. You need to play the game four times, one for each character's two scenarios, in less than 2.5 hours with an A ranking; ie don't save more than three times (and don't use any first-aid sprays if you want an A ranking). NO special weapons may be used at this point (but you can later).
3. Save each game separately on the memory card – don't overwrite.
Play CLAIRE A as above. This will save as LEON B. Save on Memory position 1 on memory card.
Play LEON A. This will save as CLAIRE B. Save on Memory position 2.
Play LEON B, loading from Memory position 1. This will save as CLAIRE A. Save it on Memory position 3.
Play CLAIRE B, loading from Memory position 2. This will save as LEON A. Save the game on Memory position 4.
4. Now, along the way, you will have been awarded the HUNK save file. Save this on Memory position 5.
5. Now you have to play two more scenarios to finally obtain Tofu. For these two scenarios you CAN use any infinite special weapons that you've earned along the way, but you need an A ranking as before, with a time of less than 2.5 hours using no first-aid sprays and NO SAVES.
6. For these final two scenarios, do as follows. Play LEON A, loading it from Memory position 4. This will save as CLAIRE B. Save this game on Memory position 6.
Play CLAIRE B, loading it from Memory position 6 as above. This will save as LEON A. Save this game on Memory position 7.
7. As soon as this is saved, you'll be given the TOFU save file. Save this file on Memory position 8.

STREET FIGHTER ALPHA

COMPUTER-CONTROLLED DAN

Win the fifth, sixth, or seventh match and hold ↑ + ⊙ + ⊗. Keep these buttons held until the winning quote is displayed and then release. If it's worked, you'll go to the next fight in the sequence and 'Here Comes A New Challenger' will flash up on screen before you're whisked away to Dan's hidden location.

COMPUTER-CONTROLLED AKUMA

There are two different methods. Firstly, you can try beating the game without losing a single round and achieving a minimum of ten super combo finishes (that's ten victories with the 'S★' symbol displayed). Do this on any level higher than four and Akuma will stroll on and humiliate you after the final boss.

Alternatively, try positioning your cursor over the character you wish to fight as on the character select screen. Hold ⊙ + ⊗, then hold ⊙. Keep the three buttons held down until Akuma has pulverised your opponent, then fight.

SELECTING DAN

Go to the random select box on the character screen and hold ⊗, then press ⊙, ⊙, ⊙, ⊙, ⊙. If the code has worked, Dan will appear. For Dan's alternate costume, enter the code backwards (ie ⊙, ⊙, ⊙, ⊙, ⊙).

SELECTING M BISON

Go to the random box on the character select screen and hold ⊗, then press ← x2, ↓ x2, ←, ↓ x2, ⊙, ⊙ (where '←' = towards outside of character box). For Bison's alternate costume, finish the sequence with ⊙, ⊙ (instead of ⊙, ⊙).

BIATHLON MINI-GAME

You can unlock this by completing all the other mini-games. However, an easier alternative method can be found on ⊙: Hotel Fukushima. You have kill all 23 bad guys in the opposite building at the sniping part on the first level, using 22 shots or less. This means using the Taser on some (note that you can still target the higher enemies while ducking). After the cut-scene, just quit and save your settings.

BONUS GAME ARENAS

When you play the mini- and two-player games, you may notice that there aren't many arenas. Completing certain tasks in the main game will unlock more…

TEKKEN

EXTRA CHARACTERS

By completing the game with each of the eight standard characters, you'll earn yourself the opportunity to play the game as the respective character's sub-boss.

HEIHACHI MISHIMA

The final boss is slightly harder to obtain. You must complete the game in under 5:30 without continuing.

DEVIL KAZUYA

To access Devil Kazuya in Arcade mode, you must complete the Galaga loading game with a 'Perfect'. To help, blast the first wave in less than 18.5 seconds to receive a duel-craft for double the fire power. You can also practise each wave by pressing R2 after it has finished to repeat the stage again (although you wont be able to obtain the Devil).

DUAL GALAGA CRAFT

To obtain two Galaga ships, press and hold ↑ + ⊙ + ⊙ + ⊙ on pad 2 as you switch on your PlayStation (you won't be able to use this cheat to get the Devil though).

TEKKEN 2

CHOOSE A POSE

You can determine which of the two victory poses your character performs. After you've won a bout, hold ⊗ or ⊙ (right through the replay) to get the first; ⊗ or ⊙ for second.

MORE POSES

Six of the fighters have a third finishing pose after winning a fight: Law, Paul, Michell, Jack 2, P Jack, Kunimitsu, and Kuma.

Simply hold both kick buttons – from the moment you win the fight, right through the replay to the end.

FIRST-PERSON PERSPECTIVE

First of all you must obtain all the hidden characters in the game. Go to the character-select screen and hold ⊙ + ⊙ while selecting your character, who'll now appear as a wire-frame model. When the fight starts, the view will change to first-person perspective.

BIG-HEAD MODE

Acquire all the hidden characters in the game. Start again but hold R2 when selecting your fighter, keeping it held until the round begins.

SKY MODE

After obtaining all the secret characters, hold ↑ + R2 when choosing a character, until the fight starts. This mode allows you to fight *à la Mortal Kombat*, with certain uppercut-type moves resulting in your opponent flying high up into the sky. For some reason it works with sweeps as well.

BIGGER-HEAD MODE

First, enter the Big-Head Mode cheat. If you're playing in Arcade mode, hold R2 when you reach the continue screen. Your head and arms will now be bigger than ever!

Note: If playing in Vs Mode, go back to the character select screen and hold R2 again whilst choosing a fighter for the same effect.

PURPLE KAZUYA

All the secret characters must be obtained first. Start a new game and highlight Kazuya. Now hold R2 while selecting him. He'll fight in his third, purple costume.

THOUGHT BUBBLES

Play in Practice mode. Leave your character alone for a while and a thought bubble will appear above his or her head.

OBTAINING KAZUYA MISHIMA

Obtain all the sub-bosses by completing the game using the ten original fighters. Play through using a sub-boss. Once completed, Kazuya will be added.

PLAY AS DEVIL/ANGEL

To obtain this dual character, Complete the game with Kazuya.

PLAY AS ROGER/ALEX

After obtaining Devil/Angel, start a new game with any character. When you reach the third fight, defeat your opponent on the last round with only a particle of energy left. If you do it right you'll hear the word "Great" and the next fight will be against Roger or Alex. Beat them to obtain them.

THEATRE MODE (JAPANESE VERSION ONLY)

View the endings at your leisure!

1. Unplug the second controller.

2. You must have all the fighters stored in your memory card.

3. Load up the game. When the words 'Namco Presents' appear, press ↑, →, ⊗, ⊙, and R2 – holding the last four down when you press them. This is tricky as you need to enter the sequence very quickly, before the words disappear.

4. If unsuccessful, the game will load the normal opening intro. Try again.

5. If successful, you'll be taken to the Tekken 2 Theatre. Here, you can scroll down the list of FMV movies and play any one of them.

Note: After about 10 seconds or so of inaction, this mode will exit automatically, so keep moving around if you plan to stay.

TAUNT OPPONENT (JAPANESE VERSION ONLY)

When you have won a battle against your opponent, press →, ←, ⊗, ⊗ and your character will jeer.

WIN WITHOUT FIGHTING (JAPANESE VERSION ONLY)

Highlight Option mode and hold down ⊙, then tap ⊗ x2, ⊙, ⊙ x2, ⊗, ⊙.

Start a one-player game and when you begin the fight, hold ⊙ + ⊙ to automatically win the battle.

PLAY AS DOCTOR B

Complete Tekken Force mode four times, then defeat Doctor B when he appears. You can then select him in Arcade mode. His secret underground cave stage will also be unlocked.

PLAY AS GON

There are two ways of getting Gon. You can either complete Arcade mode using Doctor B, or you can defeat Gon in the secret Tekken Ball mode. To use Gon in Arcade mode, move the cursor either left or right off the character select screen.

COSTUME CHOICE

Each fighter has two standard costume variations: press either punch button for one; either kick for the other.

Note: If you both choose the same fighter in two-player mode, you'll automatically be given a choice of different costumes.

SECRET COSTUMES

Some of the fighters have a third costume, selected by pressing R1 to choose them on the character select screen. However, to unlock secret costumes for each character, you have to play them a certain number of times in Arcade mode (without pausing and choosing 'Reset'). The quickest way is to set the timer to 20 seconds, battles to one round, and allow yourself to be defeated, then choose not to continue.

Xiaoyu: To see her in school uniform, play her 50 times in Arcade mode.

Jin: To make him don rugby-style top and stripy trousers, play him 50 times in Arcade mode.

Anna: She gets her high-fashion white outfit after you've played her 25 times in Arcade mode.

Gun Jack: To see him in his earlier 'Jack-2' form, you only have to play him 10 times in Arcade mode.

SECRET INTROS

There are two alternative martial arts demonstration intros…

Finish the game with the ten main characters to view an intro with fighters demonstrating moves in their 2P costumes.
Obtain all the secret characters to see an intro with alternative fighters (Panda, Dr B, Heihachi etc) and costumes (Xiaoyu and Jin in school uniform).

TEKKEN BALL
View the endings of the ten main fighters to unlock this special mode, which lets you play beach volleyball using fighting moves!

THEATRE MODE
To unlock this mode, you have to view the ten main character endings. You can then view all the endings you've acquired so far.
To access the additional Sound and Disc options, you have to view all the endings for the extra fighters, including Tiger. Note that some characters have shared endings, so you only have to complete the game with one: Yoshimitsu/Doctor B, Kuma/ Panda, Ogre/True Ogre.
The 'Sound' option allows you listen to all the music, while 'Disc' lets you insert the *Tekken 1* or *2* disc to view the endings from the earlier games!

SCHOOL BACKGROUND
You must first acquire either Jin or Xiaoyu's school uniform by playing them 50 times in Arcade mode. Then select a two-player Vs game and choose the uniform by selecting and confirming Jin/Xiaoyu with ⊙, BEFORE your opponent selects his fighter. They'll be fighting on a school yard background.

CHOOSE WIN POSE
After winning any bout, note which button you used for the final move. Then press and hold it to activate a particular winning stance. There are four poses for each fighter – one for each button (⊙, ⊗, ⊗, ⊙).

SKATE HEAVEN
To unlock Skate Heaven, you must 100% every level of the game with all of the original characters, Officer Dick, a Custom Skater and Spider-Man. Alternatively, just use the 'Unlock Everything' cheat! You're taken to the astral plane for a skate park that's out of this world!
SCHOOL II: SECRET GYM
To open the gym doors in School II, head for the Opunsezmee Rail – the one down the steps above the area with the banks and bike racks. When you hear the second bell sound (at 1:40), grind down the rail. When you reach the bottom – and get the Opunsezmee gap – the doors to the Gym will open. The gym entrance can be found just up on the left, past the lunch tables. Alternatively, use the 'Unlock Everything' cheat and the doors will already be open. The gym block also contains an empty swimming pool.
